MTEF BUDGET 2020/2021-2022/2023

APRIL 2020

FOREWORD

The 2020/2021 Programme Based Budget Estimates, the fourth to be prepared in the second administration of the county government of Nandi in line with the County Integrated Development Plan (CIDP 2018-2022), County Annual Development (CADP 2019/2020) and County Fiscal Strategy Paper (CFSP 2020) reaffirms the county's priority policies and strategies as prioritized in the Third Medium Term Plan of the Kenya Vision 2030. In this regard, the Government has taken decisive steps to harness the implementation of various policies and programmes hitherto. Implementation of the policies and programmes highlighted in these estimates is expected to accelerate and sustain inclusive growth, create opportunities for employment creation, reduce poverty and provide a better future for all the residents of Nandi.

Over the 2019/20- fiscal year, the County Government has not realized major growth in Revenues as anticipated due to various unforeseen challenges resulting in shortfalls on revenue projections. The County Local Revenue targets may not be optimally met majorly due to persistent non remittance of Cess by the Multinational Tea Estates and land rates after the county assembly approved Finance Bill 2019/2020 with increased rates hence escalating to Court cases which has dealt a great blow on local revenue targets since these are major revenue sources. Other local revenue sources including Single business permits, parking fees, market fees among other revenue lines have been seriously hampered by the closure of businesses, eateries and open air markets occasioned by the outbreak of the highly infectious Corona Virus causing slowed down economic activities hence the anticipated revenue collection shortfall. The National treasury on the same vein has indicated the intent to revise downwards the shareable revenue and conditional grants from National Government and development partners due to the challenges posed by the aforementioned pandemic on the national economy which has forced the government to adjust the tax rates to cushion the mwananchi and businesses against the effects of the disease hence the national taxman facing huge revenue shortfalls which negatively affects the exchequer issues to the counties which are grappling in putting up measures in readiness for response to the pandemic. These factors and forces brings forth huge budget deficits due to

revenue shortfalls on the 2019/2020 F/Y which negatively affects the 2020/2021 F/Y budget estimates.

Global economic growth is expected to slow down as a result of weakening growth rate in both the advanced and emerging market economies which have been adversely affected by the global COVID 19 pandemic since major economic drivers like crude oil reports lowest ever prices resulting in economic depression. This is expected to have a ripple effect on the local economy over the medium term. The raft of measures taken by government aimed at containment of spread of the virus including cessation of sections of population, restrictions on travel and transport business, nationwide curfew has caused trade tensions and slowed down socio-economic activities which negatively affects the national economy as well as the county through revenue losses.

In view of the above, trade-offs in financing different policy objectives have therefore been carefully examined and adjusted in line with the National Treasury Budget Policy Statement and other key policy documents including County Allocation of Revenue Bill 2020 and County Fiscal Strategy Paper- 2020 in a manner consistent with fiscal consolidation. To cater for the deficit, the County Treasury has in these estimates aligned expenditure priorities to revenues as follows:

- i. Reconsidered funding to actualize programmes budgeted for in FY 2019/2020 which could not be realized due to shortfalls in revenue targets and exchequer releases as well as funding the multi-year flagship projects which includes County Referral Hospital with Mother and Child Unit, Milk Processing plant and Textile and Apparel Unit which are County's initiatives aimed at realization of the National Big 4 Agenda.
- ii. Completion and operationalization of programmes and projects funded in the previous years and not complete and functional as opposed to starting new projects as directed by the National Treasury.

- iii. Prioritization of Pending Bills as triggered by the Presidential directive on inclusion in the Government budgets and following the Gazettement of the County Task Force on Pending Bills by the office of Auditor General.
- iv. The growth in Personnel Emoluments occasioned by the promotions of healthcare workers which are due as well as operationalizing the proposed County Youth Service to take up opportunities on the cleaning, security, bush clearing ,drainages maintenance as opposed to outsourcing/ contracting firms with an aim of creating employment opportunities.

The total recurrent expenditure includes Kshs. 601,635,672 allocated to the County Assembly.

Development Expenditure

Development estimates in this budget amounts to Kshs.2,183,766,170 translating to 30.7 % of the total Revenue which is in compliance with the 30% threshold requirement of PFM Act 2012. Amongst the departments with high development allocations include; Agriculture and Cooperative Development, Health and sanitation, Transport and infrastructure. The County Assembly has been allocated Kshs .85,000,000

Prudent Budget Management.

Deliberate steps have therefore been undertaken by the County Treasury to narrow the budget deficit and stabilize public debt, prioritize development expenditures while protecting social

spending and investments. Inherent in the medium-term fiscal policy, is the Government's commitment to the fiscal consolidation program and projects through the MTEF for FY 2019/2020 backwards and in the Governor's Manifesto. The County Treasury has also in realization of the shortfalls in revenue, provided for lean estimates on travel costs and other non-essential operational budgets both for the County Executive and the County Assembly.

In addition, expenditure rationalization has been effected to reflect lower local revenues targets after the revenue indicators for the FY 2019/20 turned out weaker than anticipated, thereby shrinking the forecasting base for FY 2020/21 as well as the medium term. The expenditure rationalization is to ensure sustainable fiscal position in the FY 2020/21 and the medium term, and reaffirm the Government's commitment to its fiscal consolidation plan and to prudent fiscal management in general. In line with this, the Government will realize fewer new projects in the year and over the Medium Term as it prioritizes the payment of pending bills from the first administration of Nandi County.

The County Government remains committed to improving service delivery to the residents through adherence to existing fiscal rules. For this reason, beginning FY 2020/2021, the County Treasury will renew its focus on enforcing compliance with the Fiscal Responsibility Principles, particularly legal thresholds for wage bill and development spending as well as regulations to do with prudent management of fiscal risks, financial reporting, public procurement and management of public funds, among other existing legal guidelines as well get alternative means of engaging the multinationals to dutifully remit the cess and land rates so as to meet the county governments obligations with ease.

Among the 95 projects already 16 are complete while 79 are ongoing in various stages across the county. Construction of new hospital complex at KCRH which is a mega project is among the ongoing, other ongoing mega projects include: Kabiyeet Trauma center, Kobujoi Trauma center, Chepterwai Trauma center, New maternity in Meteitei sub county hospital and Nandi Hills Trauma centre.

Currently the department has managed to increase the operational facilities down from 140 to 149 this has greatly impacted on health service delivery across the county. Commodity stock outs has greatly reduced this is due to good partnership with the KEMSA that deliver commodities/Drugs directly to the facilities.

The department has also managed to operationalize the Renal unit in the KCRH and currently offering services. In the dental unit we have acquired two dental chairs and has greatly impacted service at the dental department.

AGRICULTURE AND COOPERATIVE DEVELOPMENT

PART A-VISION

To be a leading agent towards the achievement of food security for all, employment creation, income generation, poverty reduction and a competitive and vibrant cooperative sector in the County.

PART B- MISSION

To improve the livelihoods of the Nandi County residents by promotion of competitive farming as a business through appropriate enabling environment, effective support services, sustainable natural resource base management and commercially and innovative cooperative movement.

PART C- Background Information and Performance Overview

The County Government through the department of Agriculture and Cooperative Development, will continue to implement measures in the agriculture sector in order to ensure food and nutrition security. All policies under the department have been aligned towards increasing food production and boosting smallholder productivity in line with the Big Four agenda which aims at alleviating the populace from food poverty. During the Financial year 2020/2021 and over the medium term, the focus will be on operationalization of the milk cooling structures which are currently under construction and installing milk cooling plants in addition to investing more on the equipping of the county milk processing plant-a major flagship at Kabyet. This will mitigate produce loses, promote high production, enhance value addition and increase household proceeds from milk; this will be supported by investing more on the subsidized A.I services to enhance milk production as a pre-requisite for optimum realization of the milk coolers and processor capacity volumes.

LANDS, ENVIRONMENT, NATURAL RESOURCES, WATER AND SANITATION

Sector Composition

The department is composed of five sections namely; Lands, Survey, Physical Planning, Environment and Water

PART A-Departmental Vision

Vision: To be a leading department in steering the County into achieving sustainable land use management, environmental conservation and provision of clean water to all residents.

PART B-Departmental Mission.

Mission: To ensure equitable and sustainable utilization of the county's natural resources and promote maintenance of a healthy environment for the current and future generations.

PART C – Background information and Performance overview

The department is aiming at increasing the number of households connected to clean portable water through development of community water projects/drilling boreholes, spring protection, increase forest cover, wetlands protection, ensure proper land ownership and use. Given the acquired drilling rigs fitted with compressors, the county anticipates to drill various boreholes across the county as informed by the hydrological surveys as well as allocate more resources towards operationalization of the incomplete or stalled community water projects. This is aimed at easing access to clean water and increase sanitation hence reducing communicable diseases in the County. The county government through Environment section is carrying out continuous county wide sensitization on tree planting especially indigenous trees and bamboo for increased forest cover as well as cutting down of eucalyptus along riparian areas for sustainable environmental conservation. To ensure proper land ownership, use and management the preparation of county spatial plan is underway given the GIS lab developed at the county headquarters.
