VISION2030

Towards a competitive and prosperous county!

COUNTY VISION AND MISSION

Vision

A Model County in Service Delivery.

Mission

To Transform Livelihoods through
Equitable and Sustainable Utilization
of Resources

Transforming Lives through
Sustainable Development

FOREWORD

The Constitution of Kenya 2010 established two tier governance systems with a national government and 47 county governments. In view of the constitutional requirements and the need to promote the welfare of our residents, I'm proud to present the West Pokot County Second Integrated Development Plan that will cover the Period 2018-2022. This is the blueprint that will guide the development agenda of our county. The Plan integrates economic, physical, social, environmental and spatial aspects of our county and will form the basis for appropriating county public funds. The Plan preparation has been guided by the Constitution, aspirations of Kenya Vision 2030 and its Third Medium Term Plan.

The County Government under my leadership recognises the existence of socio-economic challenges affecting our residents that includes high poverty levels, low investment levels, historical marginalization & underdevelopment, low literacy levels, food insecurity, poor

infrastructure and effects of climate change and will over the plan period work tirelessly to promote the welfare of all residents. The plan outlines programmes and projects aimed at address these challenges and in overall spur economic growth and development of our county.

By implementing the programs and policies under the County Economic Transformation Agenda, we are laying a solid foundation for County's industrialization as envisaged in the Vision 2030. Building on the progress made this far, we aim to address the remaining bottlenecks that continue to hold our economy from achieving its full potential by focusing on "The Big 4 and 3E's" Plan over the next five years. The plan targets to;

- i. Increase access, retention and completion levels in pre-primary education, primary, secondary and post-secondary education by at least 100 percent by 2022;
- ii. Support value addition and contribute the manufacturing sector's share to GDP to 20 percent by 2022. This will accelerate economic growth, create jobs and reduce poverty;
- iii. Focus on initiatives that guarantee food security and nutrition to all residents by 2022 through expansion of food production and supply, provision of incentives and subsidies to attract investments and support value addition in the food processing value chain;
- iv. Ensuring equity in all socio-economic opportunities and protection of marginalized groups;
- v. Support provision of Universal Health Coverage thereby guaranteeing quality and affordable

healthcare to all County residents.

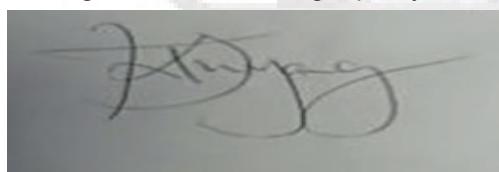

Under this Plan, the county government will put in place strategies to make West Pokot a destination of choice for all investors and will seek to accelerate investment in the areas of Trade, Industry, Agriculture and Tourism.

The Plan contains programmes and projects designed with great consideration to promoting equitable distribution of resources within our county. Over the medium term period, the county government will implement programmes and projects aimed at improving our infrastructure, health-care services, education, environmental conservation, agricultural value addition and disaster risk management. Employment creation and promotion of entrepreneurial culture especially for the youth and women will also be a priority.

The county government under my able County Executive, County Assembly and County Staff will strive to build strong and efficient institutions to drive our development course. In order to successfully implement this Plan, the county will pursue prudent financial management practises as outlined in the Public Finance Management Act 2012. The county government will also enhance revenue collection to supplement allocations from the national government and ensure resources are prudently utilized during plan implementation.

Recognizing the importance of all stakeholders in development of our county, the Plan has been prepared through wide consultative process as required by Article 10 of the Constitution. Public consultations were undertaken in all wards to collect views that informed the formulation of policies, programmes and projects outlined in the Plan. Going forward, successful implementation of our development priorities will require collaborative approach and a sense of responsibility by all stakeholders.

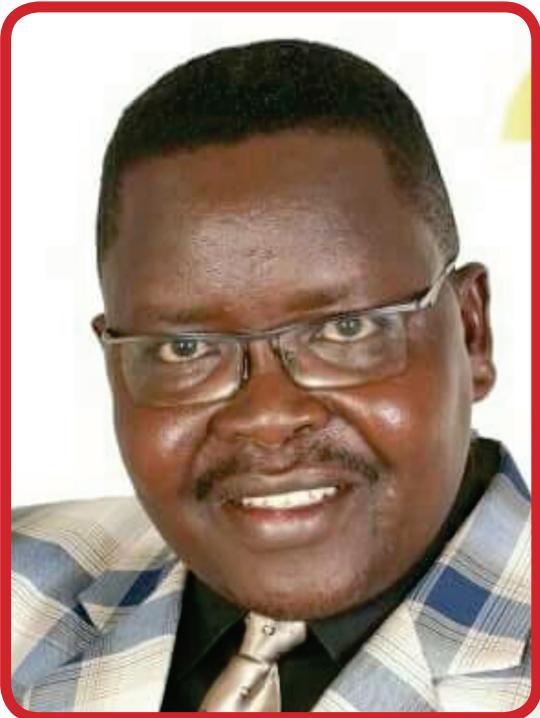

I therefore call upon all county residents, development partners, private sector players and all other stakeholders to commit themselves to play an important role in the implementation of this plan, so that our county moves forward to a prosperous future. The county government under my leadership on its part is committed to coordinating successful implementation of the plan. I strongly believe working together for this common course will take our county to greater heights of development and contribute to our Kenya Vision of being a rapidly industrializing, middle-income country by 2030, offering all its citizens a high quality of life.

Improving lives through Sustainable Development

**H.E. PROF. JOHN LONYANGAPUO
GOVERNOR
WEST POKOT COUNTY**

ACKNOWLEDGEMENT

The West Pokot County Second Integrated Development Plan has been prepared through a consultative process involving varied stakeholders within the county. I am indebted to H.E the Governor Prof .John Krop Lonyangapuo, His Deputy Dr.Nicholas Atudonyang and the County Executive Members, Senator Samuel Poghisho, the Hon. Members of parliament and County Assembly for their support, guidance and their continued collaboration throughout the entire preparatory process.

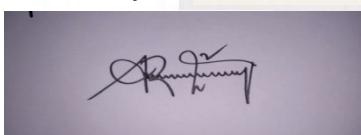

The Ministry of Devolution and Planning played a key role by preparing the guidelines that have informed the preparation of this Plan. The county shall continue working closely with the Ministry during implementation of this Plan especially in building capacity of our county staff.

The County Planning Unit provided leadership, guidance and coordination of the various stakeholders and especially in designing programmes and projects contained herein. I am

grateful to the leadership and support of the CIDP steering committee and secretariat.The County Planning Unit also benefitted immensely from the technical heads of departments who provided guidance and inputs as well as leadership in their relevant areas of operations. I also wish to appreciate the immense role played by the members of the public who are the direct beneficiaries of this Plan. Their contribution during the Sub-County Consultative Forums made this Plan legitimate and responsive to their needs.

Finally, I wish to appreciate the individual persons and organizations that provided their inputs through memoranda and written submissions.These organizations include FAO, World Vision, Kenya Red Cross among others. To all, I thank you and look forward to continuous engagement in improving the lives of our county residents. Let us all arise to this righteous course of moving our county to prosperity.

God bless you all.

**FRANCIS KITELAUYAN RUTOU
COUNTY EXECUTIVE COMMITTEE MEMBER
FINANCE AND ECONOMIC PLANNING**

EXECUTIVE SUMMARY

This County Integrated Development Plan is the second publication produced by the county government of West Pokot and its stakeholders. It is the new medium term county development blueprint and is motivated by a collective aspiration for a better society by end of the planned period. The plan has been carefully prepared and informed by the Kenya Vision 2030 that aims to transform Kenya into a newly industrializing; middle income country providing a high quality of life to all its citizens in a clean and secure environment. Simultaneously, the plan aims to accelerate the realization of the SDGs for county residents by 2030. Its implementation will be through annual rolling work plan starting from the period 2018/2019.

The plan is divided into six chapters. The first chapter provides an overview of the county in terms of its location, area, administrative and political units, demographic and settlement patterns and natural conditions. It also provides information on the current state of infrastructure; land and land use; community organizations/non-state actors; crop, livestock and fish production; forestry and agro-forestry; environment and climate change; mining; tourism; industry; employment and other sources of income; water and sanitation; health and nutrition; education and literacy; and private sectors competitiveness.

The Second Chapter discusses the linkages with Vision 2030, International Commitments and Other Plans. These plans include the SDGs, Agenda 2063, Ending Drought Emergencies, Constitution of Kenya 2010 and the Medium Term Plan III. Chapter Three provides the review of implementation of the previous CIDP (2013-2017).

The County Spatial Framework is provided in Chapter Four which identifies development projects and programmes and locates them on specific geographic areas in the county. Chapter five outlines the county institutional framework and organizational flow chart that will be followed in implementing the plan. It outlines the stakeholders in the county, and the roles that they play and how their functions are integrated to avoid duplication of efforts.

Chapter Six provides the monitoring and evaluation mechanism that facilitates the realization of the identified goals, objectives and targets. It specifically identifies verifiable M&E indicators that will be used to monitor programmes and projects, and sets medium term milestones for impact assessment.

In summary, this Plan will provide basis for strong linkage between policy, planning and budgeting and the spring board for realizing socioeconomic transformation under the new devolved structures.

1

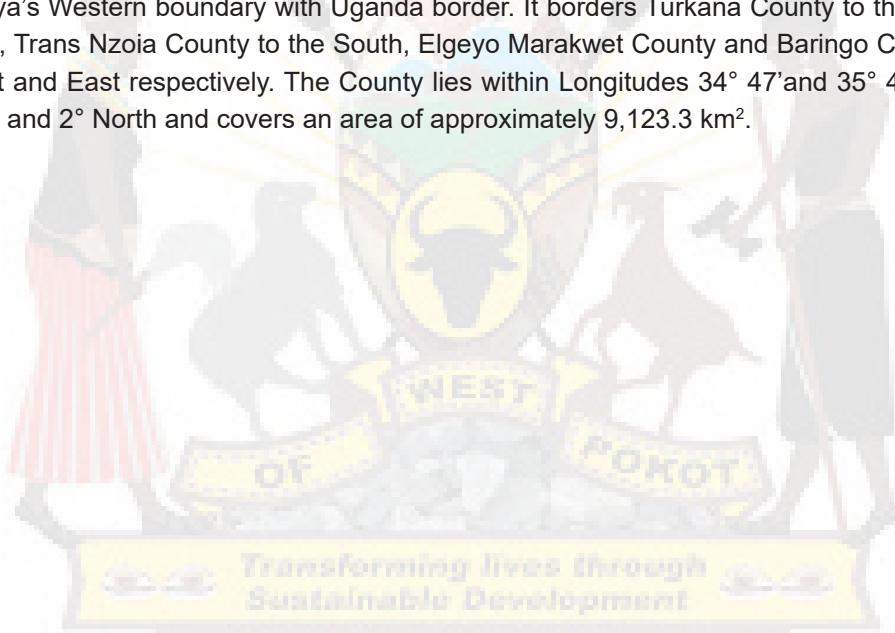

CHAPTER ONE: COUNTY GENERAL INFORMATION

1.0: County Overview

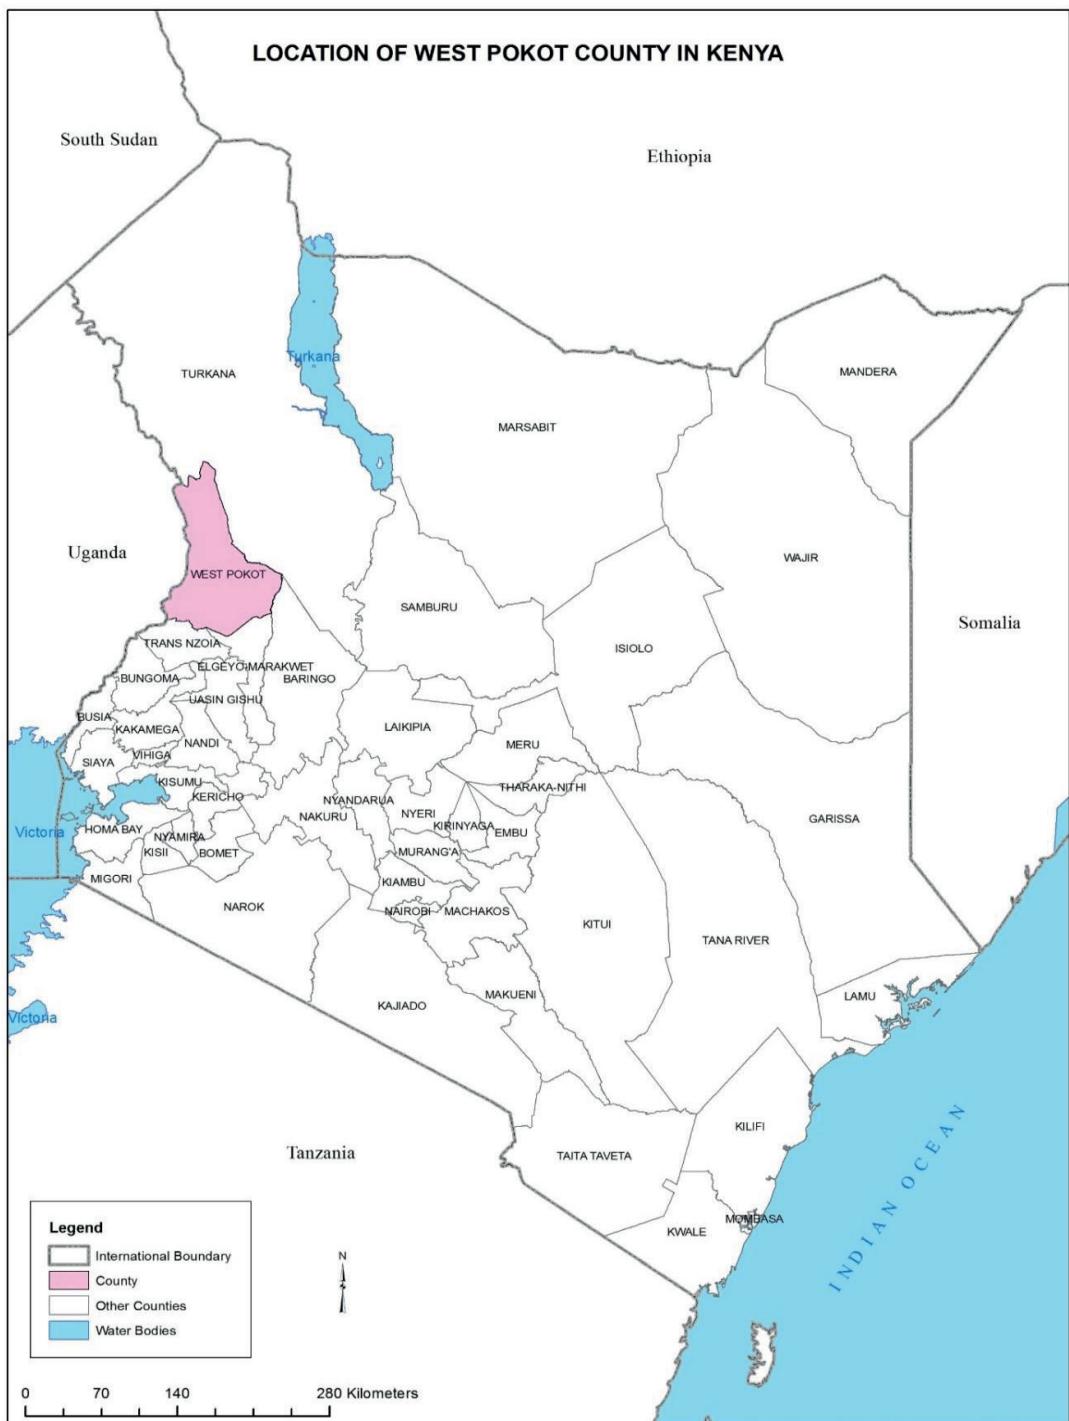

West Pokot County, whose Headquarters is Kapenguria, is mainly inhabited by Pokot community and minority community of Sengwer. The County is known for its rich cultural heritage. Agriculture and livestock sector is the backbone of the county's economy with more than 80 percent of the population engaging in farming and related activities. The County is a member of the North Rift Economic Block. Other member Counties to this trading bloc are; Elgeyo Marakwet, Uasin Gishu, Nandi, Baringo, Turkana, Trans Nzoia and Samburu Counties. The County is also a member of the Frontier Counties Development Council. The Council promotes cooperation, coordination and information sharing among member Counties with a view of enhancing socioeconomic development and promoting peaceful co-existence. Other member counties to the council are; Mandera, Marsabit, Tana River, Turkana, Lamu, Wajir, Garissa and Isiolo Counties.

1.1: Position and Size

West Pokot County is one of the 14 Counties in the Rift Valley region. It is situated in the North Rift along Kenya's Western boundary with Uganda border. It borders Turkana County to the North and North East, Trans Nzoia County to the South, Elgeyo Marakwet County and Baringo County to the South East and East respectively. The County lies within Longitudes 34° 47' and 35° 49' East and Latitude 1° and 2° North and covers an area of approximately 9,123.3 km².

Transforming Lives through
Sustainable Development

Figure 1: Location of the County in Kenya

1.2: Physiographic and Natural Conditions

1.2.1: Physical and Topographic Features

The county is characterized by a variety of topographic features. On the northern and north eastern parts are the dry plains, with an altitude of less than 900 m above sea level. On the southeastern part are Cherangani Hills with an altitude of 3,370 m above sea level. Landscapes associated with this range of altitude include spectacular escarpments of more than 700 m. The high altitude areas have high agricultural potential while medium altitude areas lie between 1,500 m and 2,100 m above sea level and receive low rainfall in addition to being predominantly pastoral land. The low altitude areas include Alale, Kacheliba, Kongelai, Masol and parts of Sigor. These areas are prone to soil erosion due to flash floods.

1.2.2: Ecological Conditions

The main forests in the county are found in Cherangani Hills. The gazetted forest, which forms part of the Cherangani Hills in Lelan, covers an area of 20,857 ha. The un-gazetted forest covers 15,719 ha and consists of rain forests blocks scattered all over the county. These are natural forests dominated by tree species like cedar (*Juniperous procera*) and bamboo (*Aredinaria alpina*). Plantation forests cover an area of 662 ha of which approximately 34 ha are indigenous and the rest exotic. The main rivers in the county are Suam, Kerio, Weiwei and Muruny. Cherangani Hills are the main source of Muruny and Weiwei rivers, while

Mt Elgon is the main source of river Suam. River Muruny, Kerio and Weiwei drain northwards into Lake Turkana, while other small rivers join and drain into River Nzoia which in turn drains into Lake Victoria. River Suam drains into Turkwel dam that generates hydro-electric power.

1.2.3: Climatic Conditions

The county has a bimodal type of rainfall. The long rains fall between April and August while the short rains fall between October and February. There is, however, great variation in the total amount and distribution of the rainfall received in the county. The lowlands receive 600 mm per annum while the highlands receive 1,600 mm per annum.

The county also experience great variations in temperature with the lowlands experiencing temperatures of up to 300 C and the highlands experiencing moderate temperatures of 150 C. These high temperatures in the lowlands cause high evapo-transpiration which is un-favourable for crop production. The high altitude areas with moderate temperatures experience high rainfall and low evapo-transpiration hence suitable for crop production.

1.3: Administrative and Political Units

1.3.1: Administrative sub divisions (Sub Counties, Wards, Villages)

West Pokot County has four constituencies, 20 wards, 20 divisions, 77 locations and 266 sub locations. The table below presents the existing administrative units in terms of Sub-Counties, Divisions, Locations and Sub locations

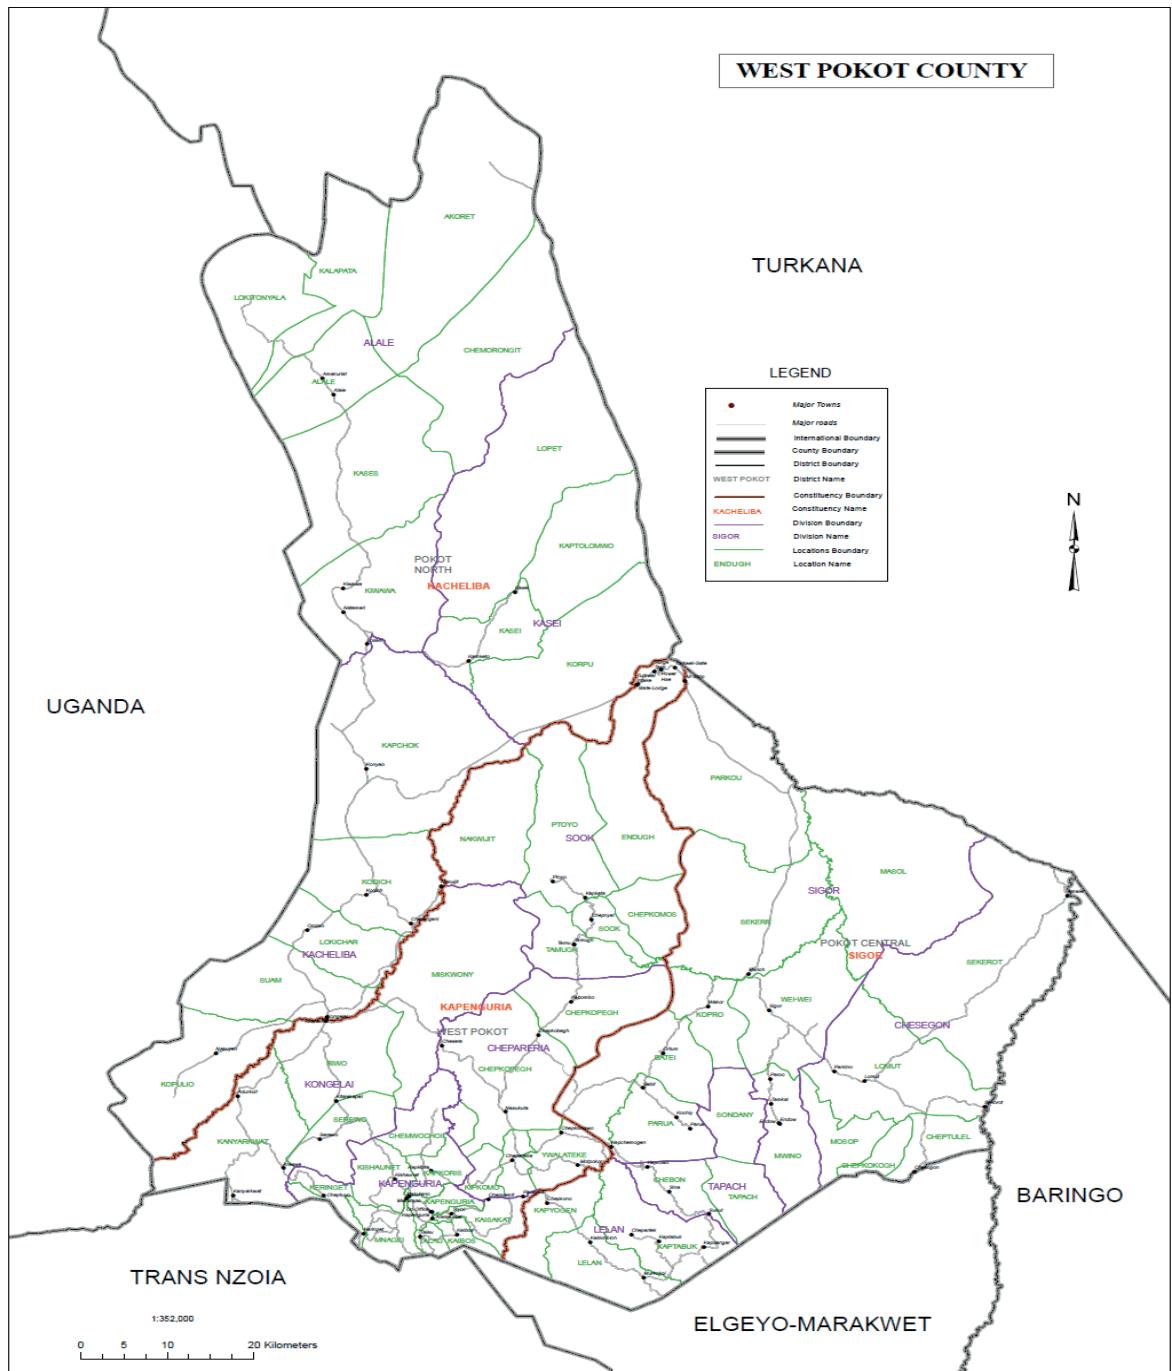

Figure 2: County's Administrative & Political Units

Table 1: Area by Sub County and Divisions

Sub-County/ Constituency	No. of Wards	Divisions	Area (Kms)	No of Locations	No of Sub-Locations
West Pokot	6	Kapenguria	82.6	4	12
		Sook	179.2	3	11
		Kongelai	239.3	5	16
		Mnagei	233.7	5	16

		Batei	327.1	5	16
TOTAL	20	20	9,123.2	77	266

Source: County Statistics Office (2020), Kapenguria

1.4: Political Units

The county has four constituencies namely: Kapenguria, Kacheliba, Sigor and Pokot South and a total of twenty county wards. Kapenguria and Kacheliba constituencies have six wards, while Sigor and Pokot South have four wards each.

Table 2: County Electoral Wards by Constituencies

Constituency	Number of County Wards	Area km ²
Kapenguria	6	1,854.8
Sigor	4	2,055.2
Kacheliba	6	3,910.9
Pokot South	4	1,302.3
Total	20	9,123.2

Source: County Statistics Office (2019), Kapenguria

1.5: Demographic Features

1.5.1: Population Size and Composition

The population of the county in the 2019 Census was 621,241. This population comprised of 307,013 males, 314,213 females and 15 intersex persons. There were 116,182 households in the county. The county population is estimated at 634,422 persons in 2020 and is projected to grow to 661,635 and 782,672 in 2022 and 2030 respectively.

Source: West Pokot County Statistics Office and County Planning Unit Projections (2020), Kapenguria

West Pokot County has two major urban areas namely; Kapenguria and Chepereria as per the provisions of Section 9 and 10 of the Urban Areas and Cities Act, 2012. Currently, 18.6 percent of county residents live in urban areas as per the 2019 census. This urban population is projected to grow by 30 percent and 55 percent by 2022 and 2030 respectively. Majority of this urban population comprises of people aged between 15 to 64 years who are economically active. The main economic

activities in the county urban areas include: retail and wholesale trading, fresh produce and cereals businesses, entertainment and hospitality businesses, service industries including motor garages, cyber cafes, law firms, livestock auctions, private education businesses, honey processing, banking and financial services, real estate enterprises and road transport services. County urban areas in West Pokot face a myriad of development challenges. The urban areas lack county policy on urban planning and development control, County Urban Integrated Development Plans and local physical development plans. Most roads are not all weather with poor drainage system and consequently pose major transport challenge during rainy seasons. There is also no designated solid waste dumpsite. The existing

temporary dumpsite is poorly located since it is on a riparian area. The county also lacks liquid sewerage system. Poverty and unemployment levels are also high.

1.5.2: Population Density and Distribution

Population distribution in the county is influenced by climatic conditions and socio-economic development. Urban areas and high potential agricultural areas have high population distribution and density. The population density for the county is expected to increase from 68 in 2019 to 73 and 84 persons per square km in 2022 and 2030.

Table 5: Population Distribution and Density by Sub County

Sub- County/ Constituency	Area in Sq. KM	Pop. 2019		Projected Pop. 2020	Density (persons/ Sq Km)	Projected Pop. 2022	Density (persons/ Sq Km)	Projected Pop. 2030	Density (persons/ Sq Km)
		Total	Density (persons/ Sq Km)						
Kipkomo	765.6	102,633	134	104,811	137	109,307	143	126,616	165
North Pokot	3,910.90	134,485	34	137,339	35	143,230	37	165,911	42
Pokot Central	2,055.20	119,016	58	121,542	59	126,755	62	146,827	71
Pokot South	536.7	80,661	150	82,373	153	85,906	160	99,510	185
West Pokot	1,854.80	184,446	99	188,360	102	196,440	106	227,547	123
TOTAL	9,123.20	621,241	68	634,425	70	661,638	73	766,411	84

Source: County Statistics Office (2020) and County Planning Unit Projections, Kapenguria

Table 5 shows that population density is high in Pokot south estimated at 150 persons per km² while Pokot North is lowest with a density of 34 persons per km² as per 2019 population Census. The high population density in Pokot South is due to high agricultural potential of the area.

1.5.3: Population Projection for Special age Groups

Table 6: Population Projection by Special Age Groups

Age Cohort	2019 (Census)			2020 (Projected)			2022 (Projected)			2030 (Projected)		
	Male	Female	Total	Male	Female	Total	Male	Female	Total	Male	Female	Total
Under 1 year	14,976	14,456	29,432	15,294	14,763	30,057	15,950	15,396	31,346	18,476	17,834	36,310
Under 5 years	57,159	56,881	113,990	58,372	58,088	116,460	60,876	60,580	121,456	70,516	70,173	140,689

Source: County Statistics Office (2020) & County Planning Unit Projections, Kapenguria

Under five years (0-5yrs): In 2019, the under-five year age group in the county is estimated at 113,990 children. This is nearly 18.3 per cent of the total population. The population of this age cohort is projected to be 121,456 in 2022 and 140,689 in 2030.

This age group forms the base for the future human resource for the county. It is therefore an important group when planning especially on health and education. Early Childhood Programmes (ECDE) provides a foundation for this group for meeting cognitive, psychological, moral and emotional needs. Health on the other hand ensures a healthy child population. This age group is highly vulnerable to morbidity and mortality. For instance, the under-five Mortality Rate (U5MR) for the county remains high, estimated at 127 deaths per 1,000 live births (127/1,000) compared to the national estimate of 54/1,000. This is double the country's U5MR and efforts to address this are very crucial. The major challenges in reduction of child mortality include: inequity in access to health care service, high cost of accessing health care due to the high poverty levels, inadequate medical personnel

and drugs in government facilities. There is need therefore to focus on access to healthcare services through construction of new health facilities and ensuring availability of essential medical drugs.

Primary school age group (6-13yrs): The population of this age group is estimated to grow from 203,497 in 2019 to 216,730 in 2022 and 251,050 in 2030. This age group accounts for 32.7 per cent of the total population. Free Primary Education has had a positive impact on enrolment and completion rates in the county. Despite this improved performance, primary education continues to experience a number of challenges such as overstretched facilities, overcrowding in schools, low teacher-pupil ratio, retrogressive culture, nomadic lifestyle and inaccessibility of education facilities. Some of the requisite interventions to improve access to education to this group include; construction of new schools, expansion of existing school infrastructure, recruiting additional teachers, improving security and establishing border peace schools.

Secondary School Age group (14-17 yrs):

The population of this age group is estimated to increase from 67,781 in 2019 Census to 72,189 in 2022 and 83,620 in 2030. This age group accounts for 10.9 per cent of the total population. The increasing enrollment rates due to free primary education and subsidized secondary school education have exerted pressure on the existing secondary school facilities. This calls for continued investment in secondary school infrastructure; staffing and additional training institutions to ensure increased opportunities for secondary education are available. There is also need for an increase in allocation of school bursaries and improved transparency to enhance completion rates and for the benefit of the disadvantaged poor.

Youth (15-34 yrs.): This age group in the county is estimated at 198,991 in the 2019 Census. This is the most productive age group and accounts for 32 per cent of the total population in the county. This age group is expected to increase to 211,931 and 245,491 in 2022 and 2030 respectively. The county will require more training institutions and employment opportunities to make them productive citizens. Currently, the county has few institutions of higher learning. As a result, only a small proportion of eligible school leavers are absorbed. Every year less than one half of those graduating from primary schools either join the youth polytechnics for artisan training or enroll directly for apprenticeship training within the "Jua kali" sector. There is therefore need to implement quality skills development programmes through TIVET institutions that target this group to enable them to engage in productive employment in both the formal and informal sectors. Promotion of small and medium enterprises and expanding agro processing and manufacturing potential will also be very important.

Labour force Age group (15-64yrs): This age group in the county is estimated at 285,873 in the 2019 Census and accounts for 46 percent of the total county population. This population is expected to grow to 304,462 and 352,675 in 2022 and 2030 respectively. This age cohort forms the pillar for economic development in the county as the county depends on it to provide both skilled and unskilled labour to enable the county achieve its vision. Promotion of small and medium enterprises and expanding agro processing and manufacturing potential is also very important for this group. The county must invest heavily on the labour force existing in the county by improving their work culture, creativity, ethics, and education, entrepreneurial and other skills necessary for economic take off.

Female Reproductive Age Group (15-49 yrs):

The population of this age group as at 2019 Census is 131,034 and is projected to increase to 139,555 and 161,654 in 2022 and 2030 respectively. This age group faces a number of challenges in the county that include; shortage and inaccessible health facilities, understaffing of health facilities and high illiteracy levels. More than half of public health facilities are poorly equipped to handle pregnancy related complications, while only a small percentage of pregnant women have births attended to by skilled personnel. This means that most deliveries take place at home assisted by poorly skilled Traditional Birth Attendants (TBAs).

Contraceptive acceptance for this age group is 9 per cent meaning that women in the reproductive age group are either not accessing or utilizing family planning services. This has led to the high population growth rate in the county. Most adolescents and youths lack appropriate sexual information and services to respond to their reproductive health needs and engage in unprotected sex. The result is the high levels of STIs, unwanted pregnancy, abortion and

abortion-related mortality. The poor performance of maternal indicators is due to weaknesses in the health systems such human resources, infrastructure, and referral systems. Negative socio-cultural practices which are rampant such as female genital mutilation and early marriages continue to impact negatively on maternal health. For the county to achieve SDG 5 on improvement of maternal health; more programmes need to be implemented to address the reproductive health

issues. High Maternal Mortality Rate will be reduced by ensuring the availability of adequate maternity services in rural health facilities and rapid response to complications caused by unsafe/induced abortion, malaria and HIV and AIDS among others. This will also be achieved by ensuring that health facilities have adequate staff and by providing more facilities to increase accessibility.

1.5.4: Population of Persons With Disabilities

Table 7: People Living with Disabilities by Type and Sex

Partic-u-lars	Pokot Central			West Pokot			Pokot North			
Type	M	F	Sub Total	M	F	Sub Total	M	F	Sub Total	Total

Source: West Pokot County Planning Unit (2020), Kapenguria

The percentage of people living with disability in West Pokot County is estimated at 3.0 per cent. This population is expected to reduce due to improved health indicators throughout the county.

1.5.5 Demographic Dividend

The demographic dividend refers to the accelerated economic development that a country can attain by slowing down the pace of population growth while at the same time making strategic investments in the health, education, economic, and governance sectors. With fewer dependents to support, those in the working ages will have more savings that can be invested for the economic growth of the county thereby improving the wellbeing of the county's residents. The aim of these investments is to ensure that as the county's children and youth get older, they remain healthy, are able to access education and training opportunities. As they enter the labour force they get income and employment opportunities, they invest for their life in old age, and they participate fully in governance matters affecting the county.

Table 8: West Pokot County Demographic Dividend Potential

Indicator	2009	2014	2018	2022	2030
Population Size	512,690	531,231	620,180	661,635	782,672
Proportion of Population Below Age 15 (%)	52.27	49.78	48.78	47.31	46.54
Proportion of Population Above Age 64 (%)	3.85	2.13	1.87	1.67	1.77
Proportion of Population in the Working Ages (15-64) (%)	43.88	48.09	49.34	51.02	51.68
Dependency Ratio	127.89	107.94	102.66	96.00	93.48
Fertility (Average No. of Children Per Woman)	7.2	6.1	5.8	4.5	4.34

Source: National Council for Population & Development, 2018

West Pokot County has the potential to achieve demographic dividend by 2035 if the appropriate investments are made in health, education, governance and economy and implemented over the plan period.

1.6: Human Development Approach

The Human Development Approach examines broader human development issues and is concerned with both building up human capabilities and with using those human capabilities fully. This approach emerged in response to the growing criticism of the use of economic development as a measure in the standard of living. It underlines the expansion of opportunities so that the disadvantaged can do more for themselves through economic, social and political empowerment. Human development approach recognizes that there is no automatic link between economic growth and human development. The link has to be made through deliberate policies at all levels. Economic growth that provides resources to support health care, education, and advancement in other Sustainable Development Goals (MDGs) is necessary to enlarge human choices but not sufficient.

The Human Development Index (HDI) measures human development based on the basic factors

of a long and healthy life, the acquisition of knowledge, and a reasonable standard of living. These factors are measured using the following indicators: life expectancy at birth; adult literacy rate and the combined enrolment ratio at primary, secondary and tertiary levels; and GDP per capita measured in purchasing power parity (PPP). The use of Human Development Index (HDI), normally in the Human Development Reports (HDR) measure a country's development which is a composite index measuring average achievement in three basic dimensions of human development to reflect a country's achievements in health and longevity (as measured by life expectancy at birth), education (measured by adult literacy and combined primary, secondary, and tertiary enrolments), and living standard (measured by GDP per capita in purchasing power parity terms). Achievement in each area is measured by how far a country has gone in attaining the following goal: life expectancy of 85 years, adult literacy and enrolments of 100 percent, and real GDP per capita of \$40,000 in purchasing power parity terms. The HDI is not designed to assess progress in human development over the short term because two of its component indicators; adult literacy and life expectancy at birth - are not responsive to short-term policy changes.

According to the 2015 report Kenyan's life

expectancy at birth has increased to 62.2 years. According to the report, Kenya has improved its HDI from 0.473 points in 1990 to 0.520 in 2015. West Pokot County HDI is at 0.453 while life expectancy stands at 62 years

1.7: Infrastructure Development

1.7.1: Road, Rail Network, Ports and Airports, Airstrips and Jets

The road network in the County is predominantly earth and gravel surface which makes up 87 percent of the road network. The gravel surface roads cover a distance of 349 km while the earth surface roads cover 697 km. The total length of bitumen surface (tarmac) road is only 151 km. This means that for every 60.7 km², there is 1 Km of a tarmac road and for every 1 Km of the same tarmac road, we have 4,180 persons. The general status of the road network in the county is poor. The tarmacked road is poorly maintained while the earth and graveled roads becomes impassable during the rainy seasons. A rugged and hilly terrain within the county poses another challenge in road connectivity. The county has no rail network, ports and airports. The airstrips are completely inactive.

1.7.2: Posts and Telecommunications; Post Offices, ICT

The county has 5 Post Offices and 3 courier services. In terms of mobile handset communication, the coverage of the mobile network is still low despite the presence of all major mobile operators (Safaricom, airtel and Orange) in the county. The low coverage has therefore limited access to mobile phone services in most parts of the county. There is

need to encourage these network providers to extend their network services to all parts of the county to facilitate easy communication and also to eliminate marginalization of some parts of the county. This can have a multiplier effect of opening up these areas for other development activities to support the realization of Kenya vision 2030. Television access is limited to some areas in the county. In addition, the county has one local FM radio station. External FMs radio stations also play a big role in the dissemination of information. They also offer platforms for people to air their views and for authorities to disseminate policies and issues affecting the people.

1.7.3: Energy Access

The main source of energy in the county is fuel wood which accounts 90 per cent of the energy needs of the county population. Petroleum energy is another source accounting for 5 per cent energy needs. Despite the presence of Turkwel Dam, which generates electricity, connection is still low with only 2 per cent of the population accessing electricity and only 10 trading centres connected with power. Electricity power outages are also prevalent in the county. Paraffin, which is another source of energy, is used by 8 per cent of population. Other sources of energy in the county include charcoal and solar. The county has a high potential for solar energy which remains untapped.

Energy is one of the infrastructural enablers of the three pillars of Vision 2030 and the level and intensity of commercial energy use is a key indicator of the degree of economic growth and development. Electricity connections for domestic use, small commercial, industrial use

and street lighting and the average annual pump prices and monthly pump prices in the County are relatively lower. Electricity for domestic use are Low voltage level (240 /415kV) users while Small commercial are medium commercial and industrial customers user are medium at Voltage level (11&33 kV)

1.7.4: Housing Types

The main housing types in the county are grass thatched houses, semi-permanent and permanent houses. In overall, there are 88,026 grass thatched houses, 5,129 permanent and semi-permanent houses mainly found in the urban/town centres. Traditional manyattas are found in some parts of Pokot North and Pokot Central Sub-Counties. The county housing sector is characterized by inadequacy of affordable and decent housing, low investment, extensive and inappropriate dwelling units.

1.8: Land and Land use

1.8.1: Land ownership Categories/ Classification

Land ownership in the county is under public, private and community. Public land consist of schools, hospitals, forests, cattle dips, holding grounds for livestock among others. Private land category is classified into registered land to individuals (absolute ownership), land leased to individuals and companies by county and national governments while community land category consist of all the unregistered land which is held in trust by the county government. They are in form of group ranches and community shrines.

1.8.2: Mean Holding Size

The average farm sizes in the county stands at 20 acres. The population is predominantly rural depending on pastoralism as their main source of livelihood. Subsistence crop production is also undertaken in the arable areas.

1.8.3: Percentage of Land with Title

Deeds

An estimated 80 and 90 per cent of land in West Pokot and Pokot South sub counties have title deeds. Land Adjudication is currently ongoing in Pokot Central while nearly all land in North Pokot does not have title deeds as it is communally owned. In total, less than 40 percent of the farmers in the county have title deeds.

1.8.4: Incidence of Landlessness

Land in the county is largely communally owned. As a result, cases of landlessness are minimal. The county government will work towards land reforms that address the needs of specific groups including women, widows, orphans, and persons with disabilities. Land reforms are geared towards holistic management and participatory governance of this critical resource so as to create a foundation for the implementation of projects identified in the integrated plan.

1.9: Employment

1.9.1: Wages Earners

Wage earners constitute only five percent of the county population. This is due to low education levels among the county residents, lack of technical skills and limited job opportunities. Informal sector employs a good proportion of the County population through farming and pastoralism.

1.9.2: Self –Employed

An agriculture and livestock sector contributes 84 per cent of household income in the county and is the biggest source of employment. The pastoralist keep cattle, sheep, goats and camels while those practicing agriculture mainly grow maize, potatoes, pyrethrum, coffee and beans. Other sources of self-employment in the county include trading, transport sector and Jua kali business activities

1.9.3: Labour Force by Sector

The labour force (15-64 years) in the county

comprises 45 per cent of the county population. Therefore, there is an urgent need to put in place strategies that facilitate generation of employment opportunities to enable the labour force to be employed.

1.9.4: Unemployment Levels

With a population of 286,183 aged above 15 years, 204,155 persons representing 34 per cent of the county population are employed. Those either seeking work or have no available work are 29,454 representing 5 per cent of the population, while 37 per cent (153,648 persons) are economically inactive.

1.10: Irrigation Infrastructure and Schemes

1.10.1: Irrigation Potential

The county total irrigation potential is estimated at 10,000 ha of which 1,800 ha is currently under irrigation. The importance of irrigation in the county cannot be over emphasized. The people living in the lowlands virtually survive on it. It is therefore a crucial activity. Irrigation is mainly carried out by groups of farmers using irrigation canals and furrows abstracting water from rivers and streams. There are a total of 120 canals/ furrows concentrated mainly in Pokot Central and the lower parts of Pokot South sub-counties.

1.10.2: Irrigation Schemes

There are several irrigation schemes which are complete while others are still under construction. The completed irrigation schemes are Ngorkal in West Pokot sub-county (20 ha), Kariamangole (60ha) and Mokuwo (90 ha) in Pokot South sub-county. The irrigation schemes under construction include the following Mrel (200ha) and Orwa (150ha) in Pokot central, Tamough (20 ha), Tombul (40ha) and Kochar (30ha) in West Pokot sub-county and Kolotubei () in Pokot South.

1.11: Crops, Livestock, Fish production and Value addition

1.11.1: Main Crops Produced

The main food crops produced include maize, beans, sorghum, finger millet, green grams, Irish potatoes, sweet potatoes and bananas. The farmers also grow horticultural crops which include fruits (mangoes, pawpaw, oranges, tree tomato and passion fruit) and vegetables both exotic and local (onions, cabbages, kales, pumpkins, sucha, cowpeas, saga, peas and carrots among others). The fruits and vegetables contribute immensely to food security as farmers use it for food as well as generate income to the households.

Cash crops grown in the County include coffee, pyrethrum, sunflower and tea which still has small acreage. There is high potential to expand area under cash crops when market is streamlined. Maize is the staple food in the County and is mainly grown in the high rainfall areas of the county especially in West Pokot sub-county. Coffee is grown in West Pokot and Pokot South sub- counties while pyrethrum is grown in Pokot South sub-county. The food crops grown do not meet food requirements for the county. The farmers get low yields for food crops as they grow them on subsistence basis and some farmers do not use fertilizer and certified seed. The County government has subsidized the farmers through ploughing and provision of farm inputs to needy farmers.

Pyrethrum farms had been neglected by farmers due to non payment of delivery of their flowers and problem of brokers. With establishment of cash crop directorate and liberalization of the market pyrethrum will come back to its glory and be able to improve the lives of farmers. The strategies which have been put in place will increase the acreage under the crop immensely. The total acreage for crops in the County is 44.102ha. This consists of approximately 40,797

Ha of food crops, 2,785 ha of horticultural crops and 520 ha under cash crops. There has been an increase in land under food crops due to development of irrigation schemes. Most of them are under construction while some are complete. The main challenges facing agriculture in the county include high illiteracy levels among farmers, effects of climate change, low certified seeds and fertilizer usage, pest and diseases and low extension coverage. Despite progress made, there exist huge potential for commercialized agriculture in the county.

1.11.2: Average Farm Sizes

The average farm size is 5 hectares and 25 hectares for small farmers and large scale farmers respectively. Land ownership in West Pokot Sub-county and parts of Pokot South has been adjudicated therefore farmers can access credit. Pokot North, Pokot Central, parts of West Pokot and Pokot South are communally owned hence is difficult for farmers in these areas to access any credit.

1.11.3: Main Storage Facilities

National Cereals and produce Board provide the major storage facilities for cereals with a capacity of 150, 000 bags of cereals (90kg bags). These storage facilities are situated in Makutano, Sigor and Kacheliba. There are also two private storage facilities within the environs of Makutano while the others within farmers are small granaries which are prone to high post-harvest losses.

1.11.4: Livestock Breeds

The main livestock breeds in the county are the indigenous cattle (Zebu), sheep, goats, poultry and donkeys. Also introduced to the county are the dairy cattle, camels, Sahiwal cattle, Galla goats, dairy goats, dorper sheep, exotic poultry and rabbits.

In terms of estimated population, there are 789,300 indigenous cattle, 74,500 dairy cattle,

200 sahiwal cattle, 634,355 indigenous goats, 6,000 galla goats, 400 dairy goats, 529,376 indigenous sheep, 95,550 wool sheep, 4,000 dorper sheep, 533,000 indigenous poultry, 55,980 exotic poultry, 35,271 camels and 41,943 donkeys. These livestock types and breeds are distributed in all the four sub-counties in varied numbers depending on the climatic conditions and rate of adoption of introduced breeds.

The estimated annual milk production for West Pokot County is 6,000,000 litres valued at KSh.200, 000,000. Most of this milk is sold through cooperatives' which collect the milk in their milk coolers. Currently, there are fourteen (14) milk coolers most of them in Lelan and Tapach wards. Apart from milk, meat is another important product whose production is estimated at 4,140,000 kg valued at KSh. 750,950,000 per year. This is meat from animals slaughtered in butcheries within the county. Most of the livestock are sold as live animals to places outside West Pokot County. Such destinations include Western Kenya, Trans-Nzoia, Uasin-Gishu, Nakuru, Maimahiu, Nairobi and Mombasa. From the local butcheries, about 5,000 hides and 50,000 sheep and goat skins are produced per year.

1.11.5: Livestock Facilities

Livestock facilities in the county include office blocks, livestock improvement centres, Livestock holding grounds, hay sheds, cattle dips, metallic crushes and veterinary laboratories.

There are seven livestock holding grounds in the county namely: Kacheliba, Pkopoch, Keringet, Kabichbich, Nasukuta, Runo and Lotongot. Other lands meant for livestock breeding camps, livestock water pans and grazing demonstrations were Kitelakapel, Kongelai, Kanyikeny and Murpus. Most of these are dormant and therefore need to be revived or rehabilitated for better livestock productivity. For example Kanyikeny has been earmarked for Beekeeping Research Centre and Kitelakapel for Pasture production, livestock breeding and Nasukuta

should be upgraded to into a Pastoral Training Centre. Among the holding grounds under use are Nasukuta, Keringet and Pkopoch. Nasukuta hosts a livestock improvement centre and an export slaughter house, while Keringet hosts an agricultural training centre currently proposed to be university. Pkopoch hosts a pasture plot and hay store together with a county hotel under construction.

Apart from the hay shed at Pkopoch hay shed also constructed through DRSP project is at Masol. The county government has constructed a hay shed at Nasukuta. There is need to construct more of these as they help store hay for dry seasons. Ninety-nine (99) cattle dips and thirty-four (34) metallic crushes have been constructed and more need be done as they are important in livestock disease control. Dips are more appropriate in the highlands while hand spray pumps and metallic crushes are more useful in the lowland.

There is one satellite veterinary laboratory in the county which requires equipping. Six office blocks are in existence some of which are not complete and require completion and equipping.

Some more need be constructed at sub-county and ward levels. There are five constructed saleyards and there is need to construct more for better livestock marketing.

1.11.6: Ranching

There are no commercial ranches in the county. Group ranches have become dormant and are some are currently undergoing sub-division into individual parcels. There is need to encourage pastoralists to embrace ranching as a sustainable form of livelihood as opposed to currently practiced pastoralism.

1.11.7: Apiculture

Bee-keeping is an old practice among the West Pokot residents. Livestock department has continued to promote apiculture with emphasis on use of modern hives and equipment. There are about 149,478 bee hives producing approximately 1,196,000 kg of honey and 119,600 kg of wax annually. Most beekeepers sell their honey in crude form to traders within and outside the county. The main honey buyers within the county are CABESI in Kapenguria, Kodich Beekeepers' Co-operative Society,

Kitelakapel Cooperative Society and Kerio Valley Development Authority. These buyers process or semi-refine the honey before marketing.

1.12: Oil and Other Mineral Resources

1.12.1: Mineral and Oil potential

The county mineral potentials remain untapped. The following minerals are unexploited: limestone, gold, and ruby. Massive limestone deposits are found in Sebit, Ortum, Muino, and Alale. A proposed cement industry is to be established in Sebit to fully exploit the limestone deposits. In addition to these potentials, the County has prospect of oil reserve in parts of Pokot North and Central Pokot. All these minerals in the county have the potential of generating additional revenue to the county government. There is need for the county government to enter into partnership (PPP) with investors to be able to explore and tap these natural resources

1.12.2: Ongoing Mining and Extraction (Quarry, sand harvesting, cement etc.)

The County has limited gold deposits along river Muruny, Seker and parts of Alale, limestone deposits in Sebit, Ortum, Muino and parts of Alale. However, the deposits have not been commercially exploited. Sand harvesting is carried out in most parts of the county but is mainly in Kongelai Division.

1.13: Tourism and Wildlife

1.13.1: Main Tourist Attractions

Tourism sites in the county have largely remained unexploited. For instance tourist attraction sites in the county include (Nasolot Game reserve), scenic sites, escarpments (Marich escarpment, Kaisagat viewpoint, Mtelo and Koh hills), ecotourism and Turkwel Dam remain untapped. Others tourism attractions include the rich Pokot Culture and artefacts in

Kapenguria museum, curio shops and wildlife. Apart from these, the County is a proud home of the famous “Kapenguria Six” Cells that is found in Kapenguria Museum.

1.13.2: Classified Hotels

There is lack of classified hotels and the low bed occupancy in the county due to unexploited and poor marketing of tourism potential. This is a setback in the development of tourism sector. Given the tourism potential, despite the tourism potential, there are no classified hotels and restaurants in the county. The places where tourist can reside include Mtelo view campsite, Lomut cultural site (Sigor), KVDA guest house (Sigor) and Chesta guest house (on the foot of Koh hills). However, the county government has initiated the need to promote hotel industry by constructing Kopoch Tourism Hotel which will trigger requisite infrastructural support for aggressive marketing a tourist circuit within the county.

1.13.3: Main Wildlife

There are a variety of wild animals at the Nasolot Game Reserve. The animals include Elephant, Buffalo, Hyena, Impalas, Leopard and Lions. Currently, there are more than 160 elephants and more than 20 leopards in the County. The elephants found in Nasolot game reserve are among the largest Elephants found in the world. Human-wildlife conflict due to drought and encroachment of the wildlife habitat which has led to crop destructions and human deaths is the main challenge.

1.14: Industry and Trade

There are several markets in the county. The main ones are Kapenguria in West Pokot Sub-County and Chepareria in Pokot South Sub-County. Other Market Centres include: Ortum, Kabichbich, Sigor, Lomut, Chesegon, Kacheliba, Orolwo, Sarmach, Cheptuya, Kanyarkwat, Serewo, Kiwawa, Kamelei, Kasei, Tamkal,

Nyangaita, Orwa, Sina, Tapach, Kamketo, Kachemogen, Kapsangar, Chepkono, Kaptabuk, Kapsait, Chepkondol, Sebit, Kodich, Konyao, and Alale. There are no industrial parks in the county. There are also no major industries processing finished products. The main economic activities in the county urban areas include: retail and wholesale trading, fresh produce and cereals businesses, entertainment and hospitality businesses, service industries including motor garages, cyber cafes, law firms, livestock auctions, private education businesses, honey processing, banking and financial services, real estate enterprises and road transport services. Most of these investments fall under the Micro, Small and Medium enterprises category.

1.15: The Blue Economy

1.15.1: Aquaculture

Fish farming/aquaculture has been practised in West Pokot for along time as a subsistence farming mainly to provide protein to families engaged in the venture. The coming of devolution has however changed the industry and given incentives to prospective farmers. A total of 150 fish farmers have been assisted with 150,000 pieces of mono-sex tilapia in the last five years. Six schools were also supported with pond liners to promote fish farmings. Further, the county government financed the construction of a tilapia and catfish hatchery although it is not operational due to lack of equipment. So far, 100 ponds have partially been harvested and have realized a total output of 15,000kgs worth approximately ksh.3 million. The department priority is to upscale the enterprise from the current 200 fish farmers to 800 farmers and target to produce an estimated 960 tonnes of pond fish by 2022.

1.15.2: Main Fishing Activities, Types of Fish Produced, Landing Sites

Capture fisheries is practiced mainly in Turkwel

hydro-electric power dam. Seasonal fishing are also carried out in River Muruny, River Suam and Weiwei River. The Turkwel dam fishery has an enormous potential and can transform lives of those living around the dam. The county government stocked the dam with 100,000 pieces of mixed sex tilapia. The current harvest stands at 5.4 tonnes of fish per annum. The dam has a potential of producing an annual estimate of 20 tonnes but due to illegal fishing and understocking these potential cannot be achieved. The fish species harvested is dominated by tilapia and few catches of catfish. The department has constituted a management committee and now the dam is now fully managed. The co-management team comprises of fishermen, traders, and transporters. The department targets to restock the dam with 2 million mixed sex tilapia, purchase 3 motor boat over the plan period to support the fishery. There is only one landing site at Turkwel Dam and the department is planning to build a landing site in Riting .

1.16: Forestry, Agroforestry and Value Addition

1.16.1: Main Forest Types

The gazetted forest covers an area of 22938 ha. Natural forests are mainly found on the highland side of Pokot South and Pokot Central which forms Cherangani Hills. Forest cover is continuously being depleted due to human activities and deforestation is largely in areas of Kamatira, Sondany, Solion, Kawuk, Kuper, Seker, parts of Alale, and most parts of Pokot South. There are also exotic forests in West Pokot and Pokot South. Farmers also practice tree planting on their farms.

The current forest cover in the county is approximately 8.39% including indigenous forests, open woodlands and a few plantations. However, the county is losing a lot of forests primarily through conversion of forests to

agriculture or for development projects.

More than 80% of West Pokot land area is semi-arid lands (SALs). These areas have low population densities and livelihoods are primarily based on livestock keeping. Woody vegetation in these areas is sparse consisting mainly of dry bush and open wooded grassland. The majority of the rural population lives in the remaining 20%, which experience higher rainfall. Much of the current forest areas are protected as forest reserves and trust lands forests. There is great potential for the expansion of forestry development into SALs areas. They provide the potential for the production of fuel wood, charcoal, building poles and pasture for dry season grazing.

1.16.2: Main Forest products

The main forest products include firewood, timber, herbs, fruits, grazing fields and honey production. The quantities of these products and their value have not so far been determined.

The majority of West Pokot residents rely on

wood and wood products as their primary source of energy. It is estimated that over 80% of Kenya rely on forest for their domestic energy needs either as charcoal or firewood, with a continually increasing population in West Pokot, there is continuous great pressure on the county forests.

1.16.3: Agro-Forestry

1.16.4: Value Chain Development of Forestry Products

There are few farm forests in the county with woodlots for commercial purposes. The Kerio Valley Development Authority have set up fruit seedling demonstration plots at Kongelai to encourage farmers to engage in farm forestry as a source of income. There exists a huge market for forests products such as poles, timber and wood fuel which can be tapped. Several community based organizations are also engaged in woodlot establishment as an income generating activity

Forest Income Generating Activities

- The county needs to prioritise increase of tree cover in water catchment areas. It is worth noting that Cherangany water catchment area has been under illegal encroachment and therefore, there is need to strengthen protection of this catchment area so that the county can continue benefiting from this catchment area as most rivers emanates from it.
- Protection of water catchment areas by planting more trees and improved farming practices like intercropping and agro-forestry need to be promoted in the county.
- Provision of wood fuel and generation of energy for industries in order to reduce the dependency on wood, use of solar powered lanterns, wind energy and biogas technology needs to be promoted. The use of wood as a source of energy for industries is minimal since there are no major industries within the county.

- Improvement of soil fertility by growing fertilizer trees to sustain agriculture. The planting of nitrogen fixing trees such as Sesbania, Calliandra and Luecena species which are exotic trees and Acacia species which are indigenous trees needs to be promoted.
- Growing of fruit trees for improved nutrition both for domestic use and surplus for markets in small scale mostly for domestic use while others grow naturally in the forests. The fruit trees grown in the county includes oranges, bananas, and mangoes among others. The lowland areas of the county namely Sigor, Lomut, Chesegon and Kacheliba are favourable for fruit farming. There is need therefore to upscale fruit farming in these areas.

Provision of Carbon Sinks such as Carbon Trading to offset greenhouse gas emission that is responsible for global warming and climate change. Ecological stability and reduction in biodiversity loss is necessary for continued green economy. Opportunities provided by carbon markets should therefore be explored. However, this needs to be scaled up to attract more stakeholders to plant more trees for carbon trading.

- Beautification activities in urban centres, highways, schools, homes and other public places. Makutano and Kapenguria Township have undertaken a beautification programme. This activity however needs upscaling. In addition to providing environmental beauty these trees and gardens filter pollutants and dust from the air, improve air quality and reduce heat buildup in towns. Beautification promotes green economy.
- Animal Feeds Production Ventures is practised in the county in small scale and especially by individuals. Some of the animal feeds produced through agro-forestry in the include hay. This is a venture that the county

needs to invest in as way of promoting green economy.

- Growing and processing for medicinal purposes/ value plants and products. A number of trees in the forests are used for their medicinal values. Most of these trees grow naturally in the forests although some are grown by tree farmers. However, processing of forest products for medicinal purposes has not been exploited as a venture. The medicinal trees grown include aloevera, prunus africanum, olea hotstetteri, croton megalocarpus and dombeya

1.17: Financial Services

The county has 3 commercial banks (KCB, Equity and Barclays), 4 Micro Finance Institutions and 6 SACCOs. Most of these financial institutions have their services concentrated in Makutano Town. Pokot Central and Pokot North Sub-Counties do not have banks or micro finance institutions thus limiting access to financial services. The percentage of citizens owning bank accounts remains low in the county. Loan uptake and repayment is also low and more effort is needed to reverse this trend. Agency banking is expected to play a key role in enhancing financial services penetration into rural areas and in mobilising savings for investment

1.18: Environment and Climate Change

1.18.1: Major Degraded Areas and Hotspots

The major degraded areas in the county are Kongelai, Kasei, Kiwawa in Pokot north; Senetwo, Kamatira forest-Chepareria, Chepkobegh, Sina, Ortum, Nyarkulian and Kaibichbich in Pokot South; Wei-wei, Masol, Chesta-Lomut, Seker and Solion-Muino in Pokot central and Pkopoch, Mtembur and Tamugh-Sook in Pokot West Sub County.

Some of the major contributors to environmental

degradation in the county include deforestation, charcoal burning, encroachment into National and County forests, unsustainable farming methods, overgrazing, and massive soil erosion due to flash floods and poor disposal of both solid and liquid wastes. The impact of poor waste disposal is evident in all centres, especially at Makutano trading centre, where there is no sewerage system. Charcoal burning is also prevalent in Mtembur, Kongelai, Kodich, Nakuyen, Samor, March and Sigor. Human encroachment into forest has adversely affected County forests consequently reducing land under forest cover.

1.18.2: Environmental Threats

The county's wide ecosystems range from Mountain rain forests, savannah woodlands, and dry forests. The broad diversity of the county's ecosystems boasts an enormous range of wide species of flora and fauna with unique and biodiversity rich region. However, deforestation has affected Cherangany, Kamatira forests, Solion, Chebon, Kamalokon and Kalabata forests. This is caused by illegal timber logging and forests encroachment.

Droughts are also prevalent in the County affecting an estimated 70% of total land area. As a result of climate change frequent flash floods also occur. The areas mostly affected are Mtembur, Senetwo and Sigor.

Areas deforested have been affected by landslides. The most affected are Muino, Sondany, Lelan, Nyarkulian and hilly parts of Cheptulel. The impacts of flash floods and landslides include migration of people from lowlands to higher grounds, death and injury of people and animals, destructions of settlements, loss of livelihoods, increase of diseases and epidemics and destructions of natural ecosystems.

Invasive species of Prosopis Juliflora (mathenge), Sansevieria ehrenbergii (East African wild sisal) and Lantana Camara are rampant in Pokot

central. These species have affected pasture for livestock and agricultural land. Efforts to eradicate should be scaled up.

1.18.3: High Spatial and Temporary Variability of Rainfall

The County is experiencing reduced rainfall amounts as a result of climate change. The influence of topography and its associated local features and human activities has contributed to high spatial rainfall variations. Between the period (1960-2000), average temporal distribution across all ecological zones was between 10 and 25 rainy days, but recently it is showing a decreasing trend (7-18) rainy days in average especially during long rains.

The county has experienced great variations in temperature, with the lowlands experiencing temperatures of up to 32.0°C and the highlands experiencing moderate temperatures of 15.0°C. This great variation in temperatures impacts negatively in crop production and ecosystems. It is estimated that as from 2021-2050, climate projections based on two Representative Concentration Pathways (RCPs10) model indicate that there is possibility of a significant rise in the drought stress. There is also the expectation of reduced rainfall amounts thus threatening food security in the county.

1.18.4 Change in River Water Levels.

Water resources in the County are diminishing at alarming rate because of human activities in the catchment areas, uncontrolled irrigation by farming communities, water abstractions for domestic use, encroachment of wetlands and riparian areas, thus reducing water volumes in rivers. Many non-seasonal rivers in the mid and upper highlands have ceased flowing into lowlands such as, Chesta, Lomut and Kpas rivers in Lomut ward, Kamatira river feeding Lyon river in Chepareria, Pkopoch river joining river Suam especially during dry season/dry spells. Data at Water Resources Authority shows

a declining trend of water volumes of rivers such as Kotoruk, Ririmbohg, Siyo, Suam, Muruny, Wei-wei and other rivers, threatening livelihoods downstream.

1.18.5: Solid and Liquid Waste Management Facilities

Waste management in the County is still very poor, since all major towns doesn't have dumpsites. The impact of waste disposal is evident in all centres, especially in Makutano trading centre where there is no sewerage system. Waste segregation at source is not done and neither recycled. Many households adopt pit dumping and burning. The County has a gazetted dumping site at Kishaunet which is yet to be operational. Hazardous medical waste from health institutions are disposed off by the use of incinerators. However plans are underway that all towns to have spatial plans so as to cater for dumpsites and important facilities during the plan period.

1.19: Water and Sanitation

Water sources in the county include streams, wells, boreholes, dams, roof catchments and piped water. An estimated 59% of households in the county use rivers/streams as their source of water. The number of households with access to borehole/spring/well water stands at 26,259 representing 28 percent of the population. There are also 8,563 households with access to piped water, 1,210 households have access to piped water into their dwellings. The average distance to nearest water point is 5 km. The main water supplies in the county are Makutano-Kapenguria, Tartar-Keringet, Karas, Kabichbich- Chepareria Water supply systems and are largely gravity propelled. These schemes are inadequate to serve the general population of the county. The county does not have a water treatment to ensure that the county's population access clean drinking water.

The number of households with latrines stands at

30,449 representing 33 percent of the population. There are 156 households connected with septic tanks, 1,922 households with VIP latrines, and 62,901 households (67%) of the population using bushes especially in the rural areas.

1.20: Health Access and Nutrition

1.20.1: Health Access

The Health Sector has a critical role in the attainment of Vision 2030 which requires a healthy working population to enhance productivity. Lack of equitable access to health services across the county due to historical marginalization remains a challenge. However devolution has been a game changer although more resources need to be allocated to the sector.

The county has numerous gaps in most of the health system blocks. Most notably in Human Resources for Health and in terms of levels of care under Tier One (community health services) there are 60 community units spread across the sub counties. Under Tier Two (dispensaries and health centres) we have 105 health facilities 10 being Health Centres. There are also five county hospitals under Tier Four. Currently there are no Tier five facilities but plans are underway to upgrade the county referral hospital to level five. In addition we have 6 private clinics and one mobile clinic under the Beyond Zero initiative. The health worker (doctor, nurses and midwives) population ratio stands at 1:1563 as compared to the 1:400 ratio recommended by the World Health Organization. This coupled with the average distance of 25Km to the nearest Health facility makes access to quality health services a challenge in the county.

1.20.2: Morbidity

The leading causes of outpatient morbidity in the county include diseases of respiratory system (30.9%), Malaria (15.2%), Diarrheal diseases (7.9%), diseases of the skin (including wounds)

(5.0%), Pneumonia(4.1%), Typhoid fever (3.0%), Accidents-Fractures and injuries (2.7%), Urinary Tract Infections (2.4%), Eye infections(1.4%) and Ear infections (0.9%) The drivers of these conditions include low latrine coverage, poor utilization of long lasting insecticide treated nets (LLITNs), poor hygiene, low levels of education and negative socio-cultural beliefs.

1.20.3: Nutrition

Undernutrition is a major public health concern in the county. According to the 2014 Kenya Demographic and Health Survey stunting was at 45.9%, those underweight stood at 38.5% and wasting were at 14.3%. All these levels were above the WHO thresholds. The SMART survey done in June 2017 revealed a slight decrease in stunting rate to 39.9% with those underweight being 40.6%. This puts the county's future at a risk since malnutrition is associated with diminished mental abilities and low productivity.

1.20.4: Reproductive Maternal, Neonatal, Adolescent and Child Health (RMNCAH)

Focussed antenatal and perinatal care is critical for the health of both the mother and the baby. The WHO recommends at least four antenatal care (ANC) visits during a woman's pregnancy. The percentage of women who attended four ANC visits dropped from 21.3% in 2016 to 13.0% in 2017. This was also associated with a drop in delivery by skilled birth attendants (SBA) from 45.3% to 32.0% over the same period. This drop was also witnessed nationally. The Maternal mortality rate also stood at 434 per 100,000 live births as estimated the National Council for Population and Development (NCPD) 2014. This compared poorly to the national estimate of 362 per 100,000 live births as per KDHS 2014. The immunization coverage for the fully immunised child under one year dropped from 58.1% in 2016 to 43% in 2017. This was way below the national target of 85%. All these were

attributable to the protracted industrial action by nurses in 2017. Other notable challenges include inadequate cold chain facilities, inadequate power, staff shortage and a difficult terrain.

1.20.5: Family Planning

The County has the second highest Total Fertility Rate (TFR) in the country. It stands at 7.2 births as compared with the national estimate of 3.9 births per women. However the contraceptive prevalence rate (CPR any method) dropped from 14.2% as per KDHS 2014 to 12.2% in 2017 in DHIS 2. This remains a major challenge due to cultural beliefs, religion and low levels of education. A multi-sector approach is therefore key in realising meaningful change.

1.21: Education, Skills, Literacy and Infrastructure

1.21.1: Pre-School Education

There are 1,032 pre-primary schools centres in the county with 838 ECD teachers. ECDE enrolment currently stands at 77,679 giving teacher pupil ratio of 1:92. This enrolment represents approximately 51 percent of the total eligible number of ECD school age children under this age bracket. Low enrolment is contributed by nomadic lifestyle, long distances to schools and lack of enough feeding program. The priority areas under early childhood development include construction of additional classrooms, recruitment of more ECD teachers, provision of school feeding programme and installation of

water tanks to ECDE schools.

1.21.2: Primary Education

There are 554 primary schools with total enrolment of 186,708 pupils in the county. There are 3005 teachers giving teacher pupil ratio of 1:52. The county has a gross primary school enrolment of 89 percent and a transition rate of 66 percent to secondary schools. Issues affecting primary school going school children in the county include lack of sanitary pads, inadequate teaching staff, early marriages, female genital mutilation, child labour, sexual abuse, inadequate learning and reading materials, inadequate access to water and healthcare, insecurity, high household poverty levels, inadequate parental care and lack of electricity connections in some schools.

1.21.3: Secondary Education

There are 120 secondary schools with total enrolment of 156,272 students in the county. There are a total of 987 teachers giving Teacher pupil ratio of 1:52. The county has a gross secondary school enrolment of 75 percent. Staffing and school infrastructure needs to be proved to enhance the learning environment and ensure quality education.

1.21.4: Youth Polytechnics

There are six youth polytechnics in the County namely; Kapenguria, Chepareria, Ortum, Sigor, Sina and Kodich. Enrolment in county polytechnics is very low. Huge gender disparities also exist in enrolment in favor of males. As at December 2017, the total enrolment in the county stood at 588, posting a low average of 98 trainees per institution. Commitment by the new county government administration to offer bursaries for vocational trainees raised the enrolment by more than double in the first term of 2018. In order for the county to register milestones in this sector, the focus should deliberate and directed towards four distinctive strategic areas

: quality and relevance, Equity and access, Governance and Management, and financing. This tremendous increase in enrolment calls for county government's interventions in the areas of: VTcs' staff recruitment and employment, infrastructure development, provision of tools and equipment, support in governance and management, and enhanced community sensitization. The sensitization component will be vital since the current enrolment caters for only about 30% of youth leaving the mainstream education system between primary and secondary levels (over 3,500 annually).

There is also need for the county to put up more vocational training centres, especially in expansive wards with high population to increase access and equity. This trend has led to the sorry state that the existing vocational training centres (VTCs) are in: dilapidated infrastructure, grossly understaffed, and low enrolment, access, transition and equity.

1.21.5: Tertiary Education

There are eleven tertiary institutions in the county of which five are polytechnics, extra mural centre of Nairobi University, Kisii University, Elgon View Training Institute, Kitale technical branch, Kenya Institute of Professional Studies, Teachers training colleges (Chesta TTC and Murpus TTC), ECDE Teachers College, Kapenguria and Ortum Nursing Schools. These tertiary institutions remain insufficient and there is need to put up more institutions in the county.

1.21.6: Adult and Continuing Education

West Pokot county has low literacy level of 30% compared to the national literacy level of 62%. These people are limited in their operations due to illiteracy. Adult education literacy should be a part of many approaches to reducing poverty as multiple initiatives needed to lift people out of poverty.

Table 9; Adult and Continuing Education

SUB-COUNTY	WARD	ENROLMENT			DAILY AVERAGE ATTENDANCE		
		MALE	FEMALE	TOTAL	MALE	FEMALE	TOTAL
West-Pokot	Kapenguria	15.0	45.0	60.0	10.0	32.0	42.0
	Mnagei	29.0	101.0	130.0	13.0	63.0	76.0
	Siyoi	22.0	54.0	76.0	3.0	14.0	17.0
	Sook	5.0	6.0	11.0	2.0	3.0	5.0
	Riwo	3.0	32.0	35.0	1.0	15.0	16.0
South Pokot	Chepareria	133.0	336.0	469.0	52.0	130.0	182.0
	Lelan	148.0	202.0	350.0	52.0	66.0	118.0
North Pokot	Alale	60.0	21.0	81.0	21.0	7.0	28.0
	Suam	107.0	55.0	162.0	40.0	42.0	82.0
	Kapchok	76.0	61.0	137.0	26.0	28.0	54.0
	Kiwawa	48.0	43.0	91.0	14.0	26.0	40.0
	Kodich	18.0	20.0	38.0	8.0	8.0	16.0
Central Pokot	Sigor	34.0	66.0	100.0	14.0	21.0	35.0
	Sekerr	208.0	348.0	556.0	80.0	110.0	190.0
TOTAL		906.0	1,390.0	2,296.0	336.0	565.0	901.0

Source: County Adult Education office, Kapenguria

From the above data ,the average daily attendance of those enrolled is still very low. This hinders the county's goal of reducing adult illiteracy as an approach in curbing absolute poverty.Similarly, there is a wide disparity in enrolment distribution among the sub counties with South Pokot having the highest enrolment and West Pokot having the lowest enrollment .To increase enrolment rates in adult education, there is need to recruit additional adult teachers,carry out sensitization programmes on the importance of adult education,provide lunch meals for those attending adult classes and motivate adult teachers through adequate renumeration.

1.21.7: Technical Vocational Education and Training

The Community sensitization on the need to embrace vocational skills training as a mainstream career line has resulted to increase in enrollment from 550 to the current 630 in

the public Vocational training centers.The total enrolment in 6 public VTCs in west Pokot County has more or less remained steady at low levels. Due to limited places available in VTCs, only a small proportion of eligible school leavers are absorbed (at most 30%). Every year less than a half of those graduating from primary schools either join the VTCs for artisan training or enroll directly for apprenticeship training within the county

1.22: Sports, Culture and Creative Arts

1.22.1 Museums, Heritage and Cultural Sites

Kapenguria Museum is the main cultural & heritage site in the county. It came into existence on 18th September 1993 as a national monument that had once held the Kenya's national founding fathers. The museum consists of two buildings that are historical and cultural in nature. Its

mission is to promote the conservation and sustainable utilization of heritage through generation, documentation, dissemination of research and collection, management of knowledge information and innovation. It is divided into seven sections namely;

Heroes Cells; The cells are for the famous Kapenguria Six namely; Fred Kubai, Richard Achieng Oneko, Bildad Kaggia, Kungu Karumba, Jomo Kenyatta and Paul Ngei.

Galleries; The galleries display different exhibits on cultural and national heritage. They display material culture of the Pokot and the Sengwer / Cherengani communities.

The Pokot belong to the Kalenjin grouping divided into two groups; the agriculturalists and the pastoralists. Their main economic activity is pastoralism. Their livestock provide them with meat, milk and skin. Other Pokot are agriculturalists who inhabit the highlands while the pastoralists live on the plains moving from one place to another looking for water and grass for their animals. Sengwer are highland Nilotes who belong to the Kalenjin grouping. They are a marginalized group found in Trans Nzoia, West Pokot and Elgeyo Marakwet counties. Sengwer were pastoralists, hunters and gatherers, grew finger millet, and sorghum. Presently, they practice subsistence farming on the livestock and cash crops and little of hunting and honey

gathering.

Snake House; It consists of two snakes; Gabon viper and Rhinoceros viper. Gabon viper is a venomous snake found in the rainforest and savannah of sub-Saharan Africa. It feeds on rodents and bats. On the other hand Rhinoceros viper is a venomous snake found in the forests of West, Central and East Africa and known for its striking coloration and prominent nasal "horns". It's known to take toads, frogs and even fish and prefers to hunt by ambush.

Pokot homesteads; These displays the huts of the Pokot pastoralists and agricultural communities. Pastoralists made semi-permanent houses out of woods, grass and mud roof while the farmers made strong rounded houses out of timbers, mud and thatch roof. They were guarded and protected by the warriors and reconciliation was done under simotwo tree which was highly valued.

Uhuru memorial Library; In 1952, the building was used as an office for the European guards. They were monitoring the cells through the window which is strategically placed. In 2010, it was converted into a library and was named Uhuru memorial library because books that are kept in the library talk about the struggle of Kenya's independence.

Political Development Gallery; the building was there 1952 and it was used to detain offenders

who were resisting Christian religion. It was led by Elijah Masinde and got followers from West Pokot led by Lukas Pkech. Their punishment was to be sent to Kamatira to plant kamatira trees. In 1993, they were left empty and converted into struggle for Kenyas' independence gallery (big room) where men were detained. In 1952, the small room where women were detained was converted into curator's office.

1.22.1 Sports Talent Development

The County is renowned worldwide for athletics talent prowess with World Record Holders in the Marathon World Championships, Olympics, Diamond League among others. Because of the ideal training conditions for athletics developments, an estimated 70% of medalists in Kenya have a connection with West Pokot County.

There are elaborate annual talent development programs, apart from the normal school co-curriculum calendar. These programs include; Athletics Kenya (AK) track and field championships, Met the annual third Premier AK cross-country series, Annual 10KM road race, Tegla Loroupe peace marathon and annual tournaments in soccer and volleyball and Paralympics games for the persons with disabilities.

1.22.2 Sports Facilities

The county has one stadium which is currently under construction. In addition, there are more than 10 standard fields which are being upgraded so as to make it possible for games to be played in them. The county government is planning to construct a world class modern stadium at Nasolot. In addition, there is a dam in Turkwel gorge which needs to be developed for sport fishing, bungee jumping, boat riding etc. Other facilities include basketball and lawn tennis courts, which are found in secondary schools.

1.22.3 Libraries, Information Documentation Centres and Citizen Service Centres

Currently, there is one County Information and Documentation Centre (CIDC) within the County Planning office that is not fully equipped with modern and automated systems. Other Information and Documentation Centres are available in Sigor and Alale although they have not been fully equipped and lack staff to operationalize them. There is also a Huduma Centre in Makutano providing various citizen services.

1.22.4 Cultural Heritage

Cultural heritage represents history and identity of people; bond to the past, present, and the future. It implies a shared bond and belonging to a community. In West Pokot County, Cultural heritage includes artefacts, traditional attire, historical monuments and traditional cultural practices. Natural environment is part of cultural heritage since communities identify themselves with the natural landscape. Moreover, the people also consider non-tangible elements such as traditions, oral history, performing arts, social practices, traditional craftsmanship, representations, rituals, indigenous knowledge, herbal treatment, preservation of herbal treatment knowledge and traditional weather forecasting. These are passed on from generation to generation as part of the culture. Pokot Community value beads very much. Beads are part of beauty and are worn by both males and females but women wear it mostly. The beads are worn during traditional dances, ceremonies and during initiations. Pokot community is known for having traditional bead masters who make beautiful beadwork. Out of the recognition of this, the Ushanga Kenya Initiative has recognized the Pokot among the 7 Pastoralist communities who do beadwork and are training Master beadsmen from various wards in the county in conjunction with the County

Government who will do Modern ushanga and add value to the traditional ushanga. The modern ushanga made will be sold in international markets.

The county also intends to hold and host Pokot cultural week at the end of each year to showcase rich Pokot culture, Pokot Cultural dances, Pokot traditions, Pokot cuisine among others.

Pokot community also has two annual cultural events namely Simar and Sintagh. These cultural events take place in Muino and Cheptulel areas. Simar is a cultural event that is done before the onset of the rains to predict the weather condition during the year. This helps elders to advise the community on the type of crops to grow in that particular year. The event is marked by burning certain trees [herbal] in a sacred place and observing the behavior of the smoke. The sacred place is only visited by Kapchetindi Clan who later give the information to Sigh Clan to deliver to the general public. The surrounding people/ communities will then know what type of crops to grow and ensure preparedness for any eventualities in the year. The height of the event is concluded by songs and dances as the attendees enjoy a delicacy of roasted meat and traditional brew. Sintagh is an annual event done in order to eradicate diseases as rituals are done around Kasos village [Solion]. Fire is usually started with green leaves so that smoke could rise above the sky and God would hear people's prayers. The fire is made twice a year, on February 1st [no celebration] and June 2nd [celebration]. In February when the fire is started, the smoke goes to other areas in Cheptulel, Lomut, and Muino location. It means the end and beginning of the new year. The bush near the site is preserved for ancestors and no one is allowed to cut.

1.23: Community Organizations/ Non-State Actors

1.23.1: Cooperatives Societies

Cooperative societies will play a critical role in the development of the county by providing a better interaction between savings and investment. The County has 83 registered cooperative societies. However, only 36 are active. The rest are either dormant or have collapsed/been liquidated. The societies are distributed as follows: North Pokot has 7, West Pokot 36, Central Pokot 6 and South Pokot 29. The active cooperatives deal with a variety of activities which include marketing, savings, consumers and housing, mining, multipurpose and unions. SACCOs have enormous potential to mobilize additional savings and to provide credit, especially to sections of the population that do not use banking services and the low income groups

1.23.2: Public Benefits Organizations (PBOs)

The county has a number of Non-Governmental Organizations working in various sectors to complement the development initiatives of the national and county governments. The notable public benefit organizations in the county include: FAO, AMREF, World Vision, DSW, Palladium and AMPATH Plus. Others are UNICEF, ACF, USAID, Kenya Red Cross, Fred Hollows Foundation, NEPHAK and Impact Research & Development Organization. There are also local NGOs working with the communities such as Yangat, SIKOM, Maendeleo Ya Wanawake and others. These public benefits organizations will continue supporting rural communities in the areas of agriculture, nutrition, water, disaster relief, health and education.

The establishment of Government devolved funds as well as grants have led to registration of a number of Self Help Groups, Women, Men, Youth and Community Based Organizations (CBOs). These groups and CBOs undertake economic activities such as mixed farming, table banking, capacity building, environmental conservation and other small and medium enterprises. Through these groups the county

hopes to increase its human and social capital.

A total number of 4,297 groups have been registered since 1973 (SHG 2204, women group 992, youth groups 935, men 5, PWD 35, community projects 117, CBO 6, Older persons groups 3). Self Help Groups continue to serve as avenues for accessing the Women Enterprise Fund (WEF), Youth Enterprise Fund (YEF) as well as other devolved funds and grants. A total of 127 groups have benefited from the YEF while 80 groups have benefited from WEF. A total of Kshs. 4.05 million has so far been disbursed for both WEF and YEF.

1.24: County Security, Law and Order

West Pokot County has 4 police stations and 7 police posts. The county also has one high court based at the county headquarters. County policing authority has not been established. Nyumba Kumi initiative is the only community policing activity currently under implementation in the county.

1.25: Social Protection

Table 10; Number of Orphans, Vulnerable Children (OVCs) and Street Children

Indicator	Sex	Sub-County			
		West Pokot	Central Pokot	South Pokot	North Pokot
No. of street children	M	67	7	0	0
	F	5	0	0	0
No. of Orphans & Vulnerable Children	T	28,324	24,819	-	20,889

Source: Department of Children Services, 2018 West Pokot County

Table 11; Child Care Facilities and Institutions

Indicator	Sub-County			
	West Pokot	Central Pokot	South Pokot	North Pokot
No. of Children Offices	1	0	0	0
No. of Rescue Centres	0	0	0	0
No. of Orphanages	2	0	1	1
No. of Correctional Facilities	0	0	0	0

Source: Department of Children Services, 2018 West Pokot County

The orphanages in the County include Sunflower and Bobleo Children's Homes in West Pokot Subcounty, Udom Children's Home in Chepareria in Pokot South and Kodich Children Home in Pokot North Subcounties. Currently, there are no children correctional facilities and rescue centres in the County.

1.25.1: Social Safety Net Programmes in the County

There are several safety net programs being undertaken across the County. They include; Cash Transfers Programs for the Vulnerable, Provision of Bursary for OVCs in public boarding secondary school, Medical Cover for the Elderly, Women and PWDs, provision of drought emergency relief programmes and rehabilitation of drug and substance addicts. These programmes need to be strengthened to address the existing social needs within the county.

CHAPTER TWO: LINKAGES WITH VISION 2030 AND OTHER PLANS

2.1 Overview

This chapter highlights the linkages between the County Integrated Development Plan (2018-2022) with the national development blue print, Kenya Vision 2030 and its Third Medium Term Plan, the Sustainable Development Goals, the Constitution and other legal frameworks. It also provides the linkages with county sectoral plans, urban plans, Agenda 2063 and cross-cutting projects and programs within the NOREB Economic bloc.

2.2 Implementation of Kenya Vision 2030 and Medium Term Plan III (2018-2022)

The Kenya Vision 2030 is the long-term development blue print that aims to transform the country into a newly industrializing middle income country providing high quality of life to its citizens in a clean and secure environment by 2030. The Vision is being implemented through a series of five year Medium Term Plans (MTPs) and is in the third phase of its implementation through MTP III which covers the period 2018-2022. This Integrated Development Plan is the Second Medium Term Plan of the County covering 2018-2022 under the constitution 2010. It espouses the National Vision as provided by the Vision 2030, Medium Term Plan III and other national goals, policies and plans.

2.2.1 Foundations for National Transformation

a. Infrastructure –

Under Infrastructure, the National Government has planned to increase road network and improve electricity connection. Within the County, the following are projects that will be undertaken;

a) Reconstruction /Rehabilitation and maintenance of County Roads;

b) Increasing electricity access through Last Mile connectivity project and development and promotion of renewable energy sources

b. Information and Communications Technology

a) National ICT infrastructure -County Connectivity Program (CCP phase III) aimed at creating a wireless network infrastructure to all counties;

b) Digitization of government records by automating registries;

c) Public Digital Literacy-To increase digital literacy skills for adult citizens by 50% through targeting 5 million adults and also constructing 47 resource centres;

d) Support critical National ICT systems and infrastructure in county level by establishing ICT Authority offices at County level

c. Land Reforms

a) Develop National Land Management Information System- Automate land registries in order to create public confidence through reduced timelines in registering property, protecting investors in terms of online transactions and getting credit land registration processes in 39 land registries.

b) Registration, processing and issuance of title deeds to enhance security of land tenure

c) Finalization of land adjudication - To provide security of land tenure by fast tracking finalization of adjudication

- sections and settlement schemes and settlement of squatters and the landless
- d) Adjudication of Community Land and issuance of Community Land Titles
 - e) National Spatial Plan - To prepare county specific spatial and sector plans.

d. Labour and Employment

- a) Establishment of new industrial training centres and opening of levy offices in the counties
- b) Establishment of MSE Model factories in all the Counties to promote technology transfer; capacity building, products design and development, business incubation and marketing of MSE products

2.2.2 Economic Pillar

This pillar has the mission of “Moving the Economy up the value chain”.The National Medium Term Plan 2018-2022 identified eight priority sectors to achieve the vision of this pillar of ensuring there is a sustained economic growth of 10 per cent per annum.The sectors under this pillar include Tourism, Agriculture and Livestock, Trade, manufacturing, Business process Outsourcing and IT- enabled services (ITES), Financial services and Oil and Mineral resources and Blue Economy.

Tourism:

Tourism sector in the county has not been well developed. This is despite the presence of various tourist attractions in the County including Nasolot game reserve, Kapenguria museum, beautiful and good sceneries and the rich culture that remain untapped.

This sector is faced by numerous challenges that hinder its performance. The county has no classified tourist class hotels and with a low bed capacity. Poor road network and insecurity also hampers the development of this sector.

The County has planned several programs to revamp it. The investment by the National

Government through some of the projects/programs as enumerated below will spur the sector to increase the income of the county and creating employment to the youth. Some of the projects/programs from the National Government include:

- a) Underutilized Parks Initiative – renovation and refurbishment of tourism facilities to attract more visitors and reduce pressure on premium parks
- b) Promote destination Marketing to market Kenya as a leading tourism destination
- c) Financing of Tourism Investments through increased investment for development of tourism facilities

Agriculture and Livestock

This sector accounts for 84 per cent of the county's economy and its growth will have both forward and backward linkages on a large section the population of the county. This sector accounts for 60 per cent of the country's total employment making it an important sector as its performance is reflected by the performance of the whole economy. This sector is expected to be the main driver to sustainably achieve 10 per cent annual economic growth rate and reduction of poverty by 30 per cent by the year 2030. This sector is faced with major challenges such as animal disease outbreaks, low adoption of technology, over reliance of rain fed agriculture, unreliable markets and regular price fluctuations, low level of extension agent farmer ratio, inadequate credit facilities for farmers, post-harvest losses and high rate of environmental degradation.

During the plan period, the National Government will undertake the following within the County;

- a) Fertilizer Subsidy Programme aimed at facilitating access to affordable and quality fertilizer;
- b) Irish Potato Support Project to increase production and reduced peak season

- wastage;
- c) Strategic Food Reserve Trust Fund (SFRTF) - To maintain sufficient stocks of food commodities;
 - d) Strategic feed reserve -To improve availability of fodder in ASAL areas;
 - e) Pastoral Resilience Building Program - To build resilience for pastoral and agro pastoral communities in drought prone areas as well as to improve natural resources management, market access and trade, livelihood support to pastoralist management, market access and trade, livelihood support to pastoralist;
 - f) Agricultural Inputs Access Project - To improve access to farm inputs for enhanced agricultural production through increased use of fertilizer and certified seeds, cereal and grain legume yields increased;
 - g) Farmer Registration Project-To develop a National Farmer Register disaggregated to County level (Farmers database established, Reliable information for appropriate policy formulation and capacity building captured);
 - h) Traditional High Value Crops (THVC) Programme - To improve farmers access to quality seed and planting materials of drought tolerant Traditional High Value Crops in the Arid and Semi-Arid Areas;
 - i) National Agricultural Mechanization Project -1,500 tractors and accessory equipment procured and distributed to improve agriculture production.

Oil and Mineral Resources:

Whereas this sector accounts for 1 per cent of the country's GDP and 3 per cent of the export earnings, it still remains untapped. It has the

potential of becoming the biggest contributor of GDP.During the MTP III, The National Government has planned to;

- a) Undertake Nationwide Ground Follow-up survey - To ascertain the occurrence of minerals in the mineralized areas revealed by airborne geological data & information on minerals, quality and quantity of minerals
- b) Inventorying & zoning of areas with construction materials - To zone areas with construction materials in all 47 counties
- c) Development of an atlas of geo-hazards for Kenya - To map and monitor geo-hazards prone areas

2.2.3 Social Pillar

This pillar aims at building a just and cohesive society that enjoys equitable social development in a clean and secure environment. During the plan period 2018-2022, the following projects and programs have been planned for implementation;

Education: The County is hindered by the following challenges towards building relevant human and social capital for sustainable development: Poverty and Hunger, Retrogressive cultures like FGM, cattle rustling and early marriages that affects enrolment rates and Low teacher student ratio – from ECD to secondary education

In the MTP III, the following has been envisaged to address some of the challenges in the county;

- Universalization of ECDE - Increase the coverage of ECDE in the country by 20%;
- Education in ASALs - Enhance access to basic education in ASAL's communities ;
- Universal secondary education -Ensure 100% transition from primary to secondary so that all pupils completing KCPE

examination get placement in secondary school;

- Loans,Bursaries and Scholarships for TVET - To increase access and equity at TVET;
- TVET Infrastructure and Equipping - To create more space for trainees in TVET;
- Digital Literacy Programme (DLP)-To integrate ICT in Institutional management and curriculum delivery in pre-primary and primary schools;

To enhance science, technology and innovation -Existing village polytechnics will be equipped, 4 new polytechnics in each sub county to be established and a technical training institute also established;

- ICT Integration in Secondary Education-To integrate ICT in Institutional management and curriculum delivery in secondary schools;

Health

This sector has a goal of providing equitable, affordable and quality health care to all citizens. It's the gate way to the enjoyment of right to health as enshrined in the constitution. The national health policy framework 2012-2030 has six policy objectives and seven strategic objectives that aim towards attainment of vision 2030 goal of "equitable, affordable and quality health care of the highest standard".

The six policy objectives include; eliminating communicable diseases, half and reverse the burden of Non communicable diseases, reduce the burden of violence and injuries, provide essential care, and minimize the exposure to health risk factors and strengthen collaboration with providers. These will be achieved through health financing, leadership, product and technologies, health work force, infrastructure, information and service delivery systems.

The following interventions have been proposed during the MTP III;

- Digital Health Flagship Project -Transform the health care delivery system through digital health;
- Scaling up of nutrition program- Reduction in incidences of stunting;
- Immunization Program-To reduce prevalence of vaccine preventable illnesses;
- To improve maternal health care access in Kapenguria Hospital trough rehabilitation of wards.

Environment, Water and Sanitation

It is the main anchor for the main productive sectors of Agriculture, tourism, manufacturing and energy. The economic survey of 2011 reported that 42 % of the country's GDP is derived from natural resource based sectors. This sector aims at enhancing access to clean, secure and sustainable environment.

This sector is faced with poor sanitation and environmental degradation due to low latrine coverage, lack of sewarege facility in Major Township, lack of a dumping site, poor farming techniques, encroachment of water catchment areas and deforestation. The county is also faced with poor access to potable water both for drinking and animal use.

To achieve the goal of this sector, the following projects and programmes will be implemented in the county in the plan period 2018-2022;

- Sewerage Programme - To increase access to safe water and sanitation
- Rehabilitation and Protection of Water Towers - To improve Water Towers Ecosystem Health and resilience
- Irrigation and drainage infrastructure -To enhance capacity and expand area under irrigation.
- Water Harvesting for Irrigation and Land

- Reclamation -To increase water storage and availability
- Biodiversity, Forests and Wildlife Resources Management and Conservation to enhance management and conservation of Biodiversity, forests and wildlife resources.

Population, Urbanization and Housing

This sector has the mission of providing "adequate and decent housing in a sustainable manner". The county is faced with a fast rising population that needs to be controlled for better and quality life.

The annual intercensal growth rate stands at 5.2 per cent for the county. The high growth rate has triggered rapid urbanization with unmatched better and improved social infrastructure, increased dependency ratio, and high poverty in the long run. The family planning uptake has been very low making the fertility rate to stand at 7.2 children per woman

The MTP III has prioritized the following;

- Housing Sector Incentives - To Stimulate private sector contribution to housing delivery goals
- Housing Finance - To facilitate access to affordable housing finance; to deliver 100 social housing units per county per year; to facilitate steady flow of financing for maintenance of government houses
- Advocacy on population issues.
- Preparation of integrated urban development plans as well as physical development plans.
- Undertake national population census for better planning.

Gender, Vulnerable Groups and Youth

Youth forms majority of the population in the

county and are faced with unemployment challenges. There are also vulnerable groups like the older persons, orphans and vulnerable children, the disabled and women who need special attention.

This category faces a lot of challenges that prevent them from attaining their goals and also from opportunities in life. The National Government has put in place some affirmative action to address the challenges facing this group which include;

- Women Enterprise Fund - To enhance equitable access and effective utilisation of WEF
- AGPO - To enhance uptake and effective delivery of AGPO
- Uwezo Fund - To enhance equitable access and effective utilisation of UWEZO fund
- National Government Affirmative Action Fund - To improve women, youth and vulnerable persons for socio-economic empowerment
- Bursary and cash transfer program for the orphans and the vulnerable older persons.

2.2.4 Political Pillar

The political pillar has a mission of ensuring Kenyans move to the future as one nation. It envisages a democratic political system that is issue based, people centred, and result oriented and accountable to the public. The projects and programmes under this pillar aims at strengthening national cohesion and integration, judicial transformation, promoting transparency, leadership and integrity in the conduct of public affairs and entrenching the rule of law.

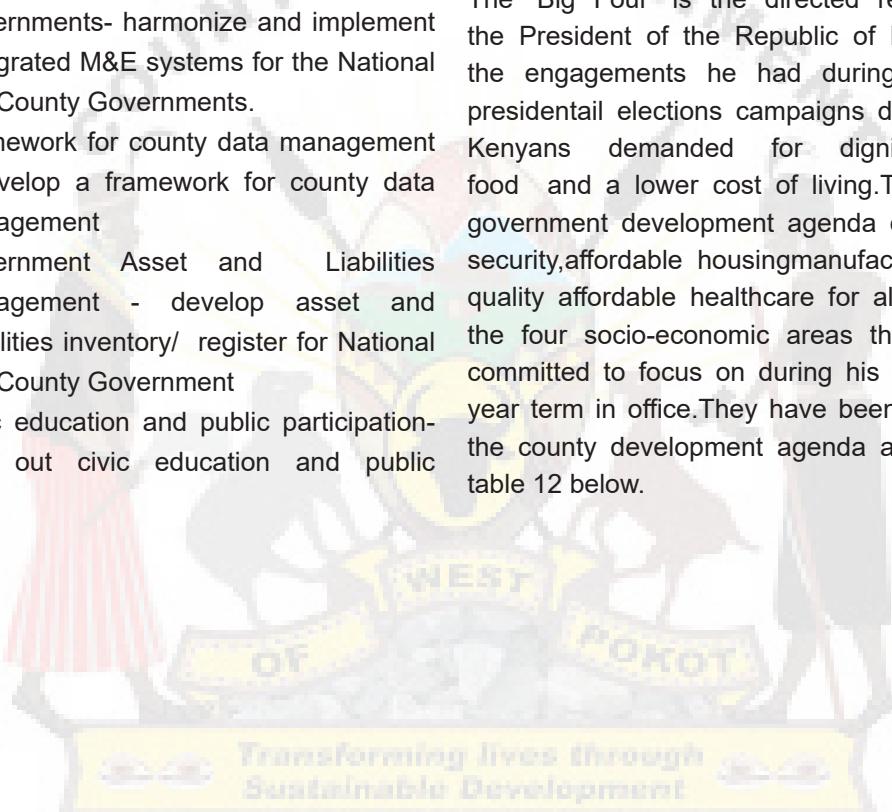

To achieve the vision of the pillar, the National Government plans to implement the following within the County in the medium term;

- Enhancing provision of national and county government services - improve

- accessibility of national services to the county and sub-county levels
- County performance management- review and implement county performance management framework
- Rationalization and retention of county staff - develop policies on rationalization and retention of county staff
- Inclusivity in county public service - Implement the 30% affirmative action in county public service
- M&E systems for the National and County Governments- harmonize and implement integrated M&E systems for the National and County Governments.
- Framework for county data management - develop a framework for county data management
- Government Asset and Liabilities management - develop asset and Liabilities inventory/ register for National and County Government
- Civic education and public participation- Roll out civic education and public participation programmes
- Sustain Nationwide Anti-Corruption Awareness campaign-Establishment and operationalisation of County Anti-Corruption Civilian Oversight Committees
- Operationalise the National Legal Aid Scheme-Conduct nation-wide phased community legal awareness outreach programme in 47 counties

2.3 Linkage with the Big Four Agenda

The ‘Big Four’ is the directed response by the President of the Republic of Kenya from the engagements he had during the 2017 presidential elections campaigns during which Kenyans demanded for dignity, adequate food and a lower cost of living. The national government development agenda covers food security, affordable housing, manufacturing and quality affordable healthcare for all. These are the four socio-economic areas the president committed to focus on during his second five year term in office. They have been linked into the county development agenda as shown in table 12 below.

Transforming Lives through Sustainable Development

Table 12; CIDP Linkage with the Big Four Agenda

Agenda	National Target	County Strategies/ Interventions
Universal Health Coverage	Achieve 100 per cent universal health coverage by 2022	<p>Support an additional 10,000 households to enrol under NHIF scheme by 2022</p> <p>Construct & operationalize 44 new dispensaries by 2022 countywide</p> <p>Improve county referral hospital infrastructure through construction of amenity wing and renovation of solid waste management system</p> <p>Recruit additional healthcare workers and motivation through promotion & additional specialised training</p> <p>Establish, support & strengthen community units & health volunteers</p> <p>Progressively increase health budget allocation from 27 percent to 30 percent by 2022</p> <p>Purchase 8 additional ambulances by 2022</p> <p>Completion of county bloodbank, upgrading of sub-county hospitals through additional infrastructure (theatres, labs, additional wards & beds)</p>
Food Security	Gaurantee food security & nutrition to all residents by 2022	<p>Put an additional 1,750 ha. Of land under irrigation & reclaim 1,550 ha. Of degraded land for pasture, fruit trees & drought tolerant crops</p> <p>Promote cash crop development (coffee, tea, sisal, mangoes)</p> <p>Support & promote introduction of improved livestock breeds</p> <p>Fertilizer & Seeds subsidy programme</p> <p>Strengthening family farming, climate smart agricultural practises & technologies, field extension services & animal vaccination programmes</p>
Manufacturing	Support value addition & increase the manufacturing sector's share of GDP to 20 percent by 2022	<p>Support agroprocessing/ value addition of meat, milk, leather, cotton, tea, coffee & pyrethrum</p> <p>Support mineral, oil & gas exploration & processing in the county</p> <p>Establish sebit cement plant though PPP</p> <p>Establish County Industrial Park</p>

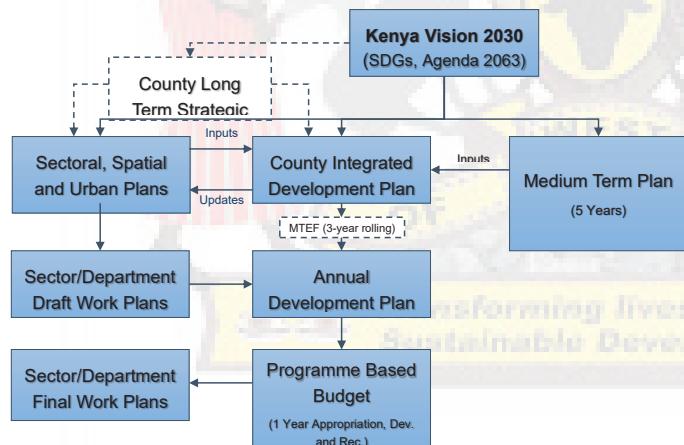

Housing	<p>Provide 1million affordable new homes by 2022</p>	<p>Support and finance the construction of 300 low cost housing units by 2022.</p> <p>Roll out the county mortgage scheme to all county staff by 2022 through PPP.</p> <p>Promoting the use of low cost innovative construction technologies and materials.</p> <p>Upgrading slums & informal settlements by providing clean water & sanitation and building access roads.</p> <p>Promote & attract investments in housing through PPPs.</p>
---------	--	--

The big four agenda will be implemented at the county level through strategic partnerships and collaboration with the national government and development partners.

2.4 Linkage between CIDP, Sector Plans and Budget

As a medium term Plan, CIDP is the County's blue print that provides development initiatives, programs, projects and strategies for the attainment of the County's Vision. It has a lifespan of 5 years. CIDP provides the basis for funds expenditure. Other medium term plans within the County are the Strategic Plans of the various sectors. These Strategic Plans provides a clear road map for their respective units as they draw their strategies and interventions as enumerated in the CIDP. The Long term Plans especially Spatial Plan and Sector Plans which are of a 10 year term have been used to guide the CIDP preparation. Short term plans especially the Annual Development Plan and the Budget derives their input from the programs and projects as in the CIDP. The following chart provides the inter linkages between the different plans;

Figure 3: CIDP Linkage with Other Plans

2.4.1 Legal Framework for County Planning

The Constitution (2010) of Kenya brought more reforms in the public sector. Devolution was one of the key changes that ushered in a structure of Government with a two-tier system; National Government and County Governments. To give life to new structures of governance, a number of laws were enacted to guide governance at both levels and their modalities of cooperation.

Therefore, the Development Planning in the County is being guided by the following legal framework: County Governments Act (2012), the Public Finance Management Act (2012), the Urban Areas and Cities Act (2011), the Intergovernmental Relations Act (2012) and the National Government Coordination Act (2012).

2.4.2 Kenya Constitution (2010)

The Constitution of Kenya 2010 created a two-tier system of governance, a national and devolved county government that requires a paradigm shift in development planning. Article 220 (2) (a) of the Constitution states that “national legislation shall prescribe the structure of development plans and budgets”. Following the principles stated in the constitution (Chapter 6 Art 10 on National Values and governance), development planning in Kenya should be based on integrated national values, people’s participation, equity, and promotion of human dignity, equity, social justice and inclusiveness, equality, human rights, non-discrimination, resource mobilization, concerns of the minorities and marginalized groups and sustainable development. The Constitution also requires an integrated development planning framework to enhance linkage between policy, planning and budgeting. The legislation cited above presents the legal framework that will govern planning at national and county levels.

2.4.3 The County Government Act 2012

The County Government Act 2012, in fulfillment of constitutional requirement to legislate preparation of county plans, details the goals and procedures of “County Planning” (Part XI of the Act). County planners are required to prepare 5-year integrated county development plans and the annual county budgets to implement them. According to Article 102(h), county planning is expected “to provide a platform for unifying planning, budgeting, financing programmes, implementation, and performance review”. A

county planning unit shall be responsible for “coordinated integrated development planning”. County plans will have the goal of promoting harmony with national and other county plans, land-use plans, urban planning and environmental conservation.

The County Government Act, 2012, section 104 (1), states that, “a county government shall plan for the county and no public funds shall be appropriated without a planning framework developed by the county executive committee and approved by the county assembly”. It also states that the county planning framework (as in the definition above) shall integrate economic, physical, social, environmental and spatial planning. In addition to an integrated county development plan, each county is expected to have the following:

- A County Sectoral Plan; - a program based 10 year plan that are component parts of the CIDP.
- A County Spatial Plan; - A 10 year GIS based database system also a component of CIDP.
- A City and Urban Areas Plan - for every city and municipalities

Urban planning process shall also be done for every settlement with a population of at least 2,000 persons. Section 107(2)) explains that these plans “shall be the basis for all the budgeting and planning in a county”. A county planning unit has been established by this Act to coordinate integrated development planning and to ensure that county planning is linked to national planning frameworks.

2.4.4 Public Finance Management Act (PFMA), 2012

The Public Finance Management Act (PFMA), 2012, emphasizes what the County Government Act states but puts a slightly different emphasis on planning. Whereas the County Government Act requires a “five-year County Integrated

Development Plan", the PFMA (Part IV Article (126) (1)) requires both a long-term and medium term plan. According to the PFMA, a budget process for the county government in any financial year shall consist of the following stages: Start with an integrated development planning process, which shall contain both short term and medium term plans. Every county shall prepare a development plan as per Article 220 (2) of the Constitution. Budgets are to be based on projects and other expenditure contained in the plan.

2.4.5 Urban Areas and Cities Act, 2011

Urban Areas and Cities Act (2011) is also emphatic on the need for 5 year integrated development planning and the need to align annual budgeting to the plan. These plans are separate from those of the county. In section 36(2) it states that "an integrated urban or city development plan shall bind, guide, and inform all planning for development and decision-making and ensure comprehensive inclusion of functions."

2.5 Implementation of Sustainable Development Goals at the County

Table 13; CIDP Linkages with SDGs

SDG	Targets	County aligned Priorities, Programmes &Projects
End poverty in all its forms everywhere	Eradicating extreme poverty for all people (those living below \$1.25 a day),	<ul style="list-style-type: none"> -Establishment of cooperative development fund & county community service programme -Fertilizer & Seeds subsidy programme -Establishment of 15 new irrigation schemes, -Increasing acreage under coffee, tea ,Irish potatoes, tea, pyrethrum & sisal -Supporting value addition of agriculture and livestock Products -Strengthening farmer extension services and livestock vaccination services

Level

In September 2015, United Nations (UN) member countries adopted the 2030 Agenda for Sustainable Development comprising of 17 Sustainable Development Goals and 169 targets. It builds on the principle of "leaving no one behind" and emphasizes on a holistic approach to achieving sustainable development for all. As part of implementing the SDGs, the government of Kenya published and launched its Road Map to achieving SDGs. The Road Map envisages strategic partnership with all stakeholders as well as building capacity for devolved governments to implement the SDGs. The domestication and integration of the SDGs will be imbedded in Medium Term Plans and County Integrated Development Plans.

West Pokot County has identified SDG goals based on their relevance and the devolved mandate of the County Governments. In this regard, the SDGs have been linked to the County development agenda; This CIDP will ensure that SDGs are integrated through development of programs that address each of the relevant Goals to the county as indicated in the table below;

End hunger, achieve food security and improved nutrition and promote sustainable agriculture	End all forms of malnutrition and achieving the internationally agreed targets on stunting and wasting in children under 5, Target access to safe, nutrition and sufficient food all year through in particular the poor and those in vulnerable situations	<ul style="list-style-type: none"> -Strengthen reproductive health through additional health staff recruitment and training -Provision of ECDE school feeding programme -Increase land under horticultural and traditional crops -Establish 15 new irrigation schemes -Promote family farming -Construction of additional health Centres & promotion of skilled delivery -Strengthening community strategy & units -Support introduction of improved livestock breeds -Support provision of iron & vitamin supplements
Ensure healthy lives and promote well-being for all at all ages	Reduce maternal mortality ratio to less than 70 per 100,000 still births, end deaths of new-borns and children under 5, achieve universal health coverage, reduce number of deaths as a result of water and air pollution, increase health financing and retention of health workforce	<ul style="list-style-type: none"> -Strengthening community health strategy and community health units through adequate health financing -Promote and support enrolment to NHIF -Increase skilled health care personnel & promote skilled health deliveries -Completion & operationalization of county blood bank -Increase resource allocation for maternal health care -Enhance male involvement in sexual health and reproductive health -Construct additional health facilities -Motivation and promotion of health workers
Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all	All girls and boys have access to quality early child hood development, ensure equal access for all women ensuring that all girls and boys complete free, equitable and quality primary and secondary education and men to affordable and quality technical, vocational and tertiary education including university, increase the number of youths and adults with relevant skills for employment, eliminate gender disparities in education, build and upgrade education facilities that are child, disability and gender sensitive	<ul style="list-style-type: none"> -Improve infrastructure development in schools at all levels -Collect gender desegregated data and gender responsive budgeting -Provision of bursaries to needy students -Promote adult education by recruiting adult tutors -Enhance campaigns against adolescent births, early marriages & FGM -Establishment of low-cost boarding primary schools -Support provision of sanitary pads to school going girls
Achieve gender equality and empower all women and girls	End all forms of discrimination against women and girls, eliminate all forms of violence against all women and girls, eliminate all harmful practices such as child, early and forced marriages and FGM, ensure women's full and effective participation and equal opportunities for leadership at all levels of decision making in political, economic and public life, ensure universal access to sexual reproductive health and reproductive rights, undertake reforms to give women equal rights to economic resources and control over land and other forms of property,	<ul style="list-style-type: none"> -Collect gender desegregated data and undertake gender responsive budgeting -Enhance campaigns against negative cultural practices -Increase access to higher education for women and girls through bursaries -Implement affirmative action policy at all levels of decision making -Support women mentorship, coaching and internship Programmes -Increase access to reproductive health & FP through trainings & adequate financing

Ensure availability and sustainable management of water and sanitation for all	Achieving universal and equitable access to safe and affordable drinking water for all, achieve access to adequate and equitable sanitation and hygiene for all, improve water quality, increase water use efficiency across all sectors, protect water related ecosystems, strengthen participation of the local communities in water and sanitation management.	-Protection of river catchments & river banks -Development of solid & liquid waste management system -Increasing access to piped and clean water sources -Strengthen public participation in water and sanitation management -Increase latrine coverage from 46% to 80% by 2022 through public campaigns & awareness creation
Ensure access to affordable, reliable, sustainable and modern energy for all	Ensure universal access to affordable, reliable and modern energy services, increase share of renewable energy,	-Promote use of solar and Wind energy at the county level - Support provision of 50,000 modern jikos to households - Carry out targeted training to households on modern energy
Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	Sustaining per capita economic growth of at least 7 percent GDP growth, promote development oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, formalization and growth of micro-small and medium sized enterprises, reduce the proportion of youth not in employment, devise and implement policies to promote sustainable tourism that creates jobs and promote local culture,	-Establishment of cooperative development fund & county community service programme -Establishment of Nasukuta export abattoir ,milk processing plant ,cement extraction, cereals milling plant and mango processing plant - Development of Nasolot game reserve and construction of modern sports stadium -Establishment and expansion of irrigation schemes. - Promoting cash crop development and value chain development
Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation	Develop quality, reliable, sustainable and resilient infrastructure to support economic development, promote inclusive and sustainable industrialization to raise industry's share of employment and GDP, promote access of small scale industrial enterprises to financial services for affordable credit, support domestic technology development as well as to increase access to information and communication technology.	-Developing climate proofed infrastructure -Provision of cooperative development fund & county community service programme -Equipping and furnishing youth empowerment centres to create platform for youths and women to develop their innovativeness and get basic ICT skills -Support youths and young entrepreneurs through provision of loans and entrepreneurship training
Reduce inequality within and among countries	Progressively achieve and sustain income growth, empower and promote the social, economic and political inclusion for all irrespective of age, sex, religion, ethnicity, race, origin, disability or other status, eliminating discriminatory laws and practices.	-Ensure equity in access and use of available political, social & economic opportunities -Increase access to social protection at the county level(NHIF& Cash Transfers) -Enhance campaign against FGM & early marriages at the county

Make cities and human settlements inclusive, safe, resilient and sustainable	Ensure access for all to adequate, safe and affordable housing and slum upgrading, provide access to safe, affordable, accessible and sustainable transport systems for all, enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning, protect natural heritages, reduce adverse per capita environmental impact of cities and waste management, provide universal access to safe, inclusive and accessible green and public spaces in particular for women, children, older persons and people with disabilities, increase the number of human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, adaptation to climate change and resilience in disasters	<ul style="list-style-type: none"> -Constructing low cost new housing units & promoting private investments in the provision of housing -Develop county urban integrated development plan & spatial plan - Support development of open & green spaces and urban forestry -Construct & operationalize county urban solid & liquid waste management system -Develop climate proofed urban infrastructure -Improve county urban drainage system, storm control and construction of firestation -Makutano slum upgrading & purchase of additional refuse trucks -Training urban population on climate change adaptation and increasing access to climate information services
--	---	---

Ensure sustainable consumption and production patterns	Efficient use of natural resources, halve per capita food waste at retail and consumer levels and reduce food losses along production and supply chains including post-harvest losses, substantially reduce waste generation through prevention, reduction, recycling and reuse, promote public procurement practices that are sustainable,	<ul style="list-style-type: none"> -Develop charcoal & sand harvesting regulations -Reduce agriculture post-harvest losses by construction cereal stores in each sub county -Support waste recycling & reuse technologies -Ensure sustainable public procurement & disposal, Training of Women, youth & PWDs on access to government procurement opportunities(AGPO)
Take urgent action to combat climate change and its impacts	Strengthening resilience and adaptive capacity of climate related hazards and natural disasters, integrate climate change measures into national policies and planning, improve on awareness raising on climate change mitigation, adaptation , impact reduction and early warning,	<ul style="list-style-type: none"> -Increase county forest cover from 3.8% to 10% by planting 7.5M trees in county forests -Carry out community trainings on climate change mainstreaming, adaptation & mitigation measures - Strengthen access to climate information services & disaster early warning system
Conserve and sustainably use the oceans, seas and marine resources for sustainable development	Reduce marine pollution, sustainably manage and protect marine and coastal ecosystems, regulation of fishing to end illegal overfishing and destructive fishing practices	<ul style="list-style-type: none"> -Reduce water pollution in county rivers and dams that feeds into oceans & seas -Regulation of fishing & restocking in Turkwel dam

Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss	Ensure conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, promote sustainable management of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation, combat desertification restore degraded land and soil, end to poaching and trafficking of protected species of fauna and flora, halt the loss of biodiversity and promote fair and equitable sharing of the benefits arising from utilization of genetic resources.	-Increase county forest cover from 3.8% to 10% by planting 7.5M trees in county forests -Recruitment of additional forest guards to protect county forests -Reclaim 1,550 ha of degraded land for pasture, fruit trees & indigenous tree production -Undertake community trainings on climate change mainstreaming, adaptation & mitigation programmes
Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels	Significantly reducing all forms of violence and related deaths everywhere, end abuse, exploitation, trafficking and all forms of violence against and torture of children, promote the rule of law and ensure equal access to justice, combat all forms of organized crimes, reduce corruption and bribery in all forms, develop accountable and transparent institutions at all levels, ensure responsive, inclusive, participatory and representative decision making at all levels, provide legal identity for all including birth registration, ensure access to public information, protection of fundamental freedoms and promotion and enforcement of non-discriminatory laws and policies for sustainable development.	-Enhance campaign against gender based violence, FGM & early marriages -Strengthening county community policing -Carry out corruption risks assessments in all county departments & develop corruption prevention plans -Develop county public participation framework, strengthen public participation & civic education in the development of county policies, plans & budgets -strengthening participatory monitoring & evaluation of county development programmes & projects
Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development	Strengthening domestic resource mobilization, assisting developing countries in attaining long term debt sustainability and adoption and implementation of investment promotion regimes for least developed countries.	-Establishment of county external resources policy framework & mobilization unit -Support livestock infrastructure development to enhance transhumance with Uganda -Establishment of County SDG unit to coordinate implementation, monitoring & evaluation of SDGs -Ensuring county debt sustainability

2.6 Implementation of the Agenda 2063 at the County Level

On the occasion of the Golden Jubilee of the OAU in May 2013, Africa's political leadership acknowledged past achievements and challenges and rededicated itself to the Pan African Vision of "an integrated, prosperous and peaceful Africa, driven by its own citizens and representing a dynamic force in the international arena." as the overarching guide for the future of the African continent. Further, they reaffirmed the relevance and validity of the OAU/AU 50th Anniversary Solemn Declaration. A common and shared set of aspirations for AU member states have also been mainstreamed into the county plan as follows;

Table 14; Agenda 2063 Goals and Indicative Strategies

S/No.	Aspiration/Goals	County Strategies/ Interventions
	A prosperous Africa based on inclusive growth and sustainable development	<ul style="list-style-type: none"> -Prioritizing climate change concerns in county policies, plans, budgets, monitoring & evaluation -Fastracking implementation of flagship projects under Kenya Vision 2030 Economic Pillar -Enhancing budget allocation towards social protection programmes - Prioritizing implementation of EDE framework at the county level -Development of climate proofed infrastructure
	An integrated continent, politically united, based on the ideals of Pan Africanism and the Vision of Africa's Renaissance	<ul style="list-style-type: none"> -Prioritizing joint projects that promotes intercounty & regional integration - Ensure equity in access and use of available political, social & economic opportunities
	An Africa of good governance, respect for human rights, justice and the rule of law	<ul style="list-style-type: none"> -Promote and support trainings on the need for good governance, human rights & the rule of law -Carry out corruption risks assessments in all county departments & develop corruption prevention plans -Strengthening equitable distribution of resources based on accurate and reliable data. - Strengthen transparency & accountability in the use of public resources
	A peaceful and secure Africa	<ul style="list-style-type: none"> -Support the national government in community policing and the fight against terrorism -Promote the development of diversified sources of livelihoods in the county -Support intercounty peace meetings, exchange programmes, development of shared facilities and use of peaceful conflict resolution mechanisms
	An Africa with a strong cultural identity, common heritage, values and ethics	<ul style="list-style-type: none"> -Promote the development & growth of local languages & culture -Enhance the fight against FGM & early marriages -Promote national values & principles of governance & Protection of marginalized groups
	An Africa whose development is people-driven, relying on the potential of African people, especially its women and youth, and caring for children	<ul style="list-style-type: none"> -Increase access to higher education for women and girls through bursaries, affirmative action, women mentorship, coaching and internship Programmes -Develop county public participation framework & strengthen community participation in county governance

	Africa as a strong, united, resilient and influential global player and partner.	<ul style="list-style-type: none"> -Support livestock infrastructure development to enhance trans-humance with Uganda -Create and promote an enabling business environment for investors both locally and regionally - Promotion of conflict resolution mechanisms and security with its neighbors
--	--	---

2.7 CIDP Linkage with Sendai Framework of Action

The expected outcome of the Sendai Framework for Disaster Risk Reduction (2015–2030) is to achieve substantial reduction of disaster risks and losses in lives,livelihoods and health and in the economic,physical,social, cultural, and environmental assets of persons,businesses,communities and countries.Its goal is to prevent new and reduce existing disaster risk through the implementation of intergrated and incusive economic, structural, legal, social, health, cultural, educational, environmental, technological, political and institutional measures that prevent and reduce hazard exposure and vulnerability to disaster, increase preparedness for response and recovery, and thus streghthen resilience.

There is need for focused action within and across sectors by governments at local, national, regional and global levels in the four priority areas in the framework. The framework priorities are on efforts to enhance the understanding of disaster risks in all its dimensions,strengthening disaster risk governance to manage disaster risk through coherent national and local frameworks of laws,regulations and public policies that guide,encourage and incentivize the public and private sectors to take action and address disaster risk;investing in disaster risk for resilience and enhancing disaster preparedness for effective response,recovery,rehabilitation and reconstruction.

During the medium term plan period, the county has aligned its priorities, intervention and programmes to facilitate the realization of four areas in the Sendai framework. Special focus will be given to the development of county disaster management policy, review of West Pokot County Disaster Management Act, 2015, establishment of county DRM institutions & structures and training of DRM actors and oversight institutions.

2.8 CIDP Linkage with National Climate Change Action Plan

The National Climate Change Plan was constituted to guide the County Governments in prescribing measures and mechanisms for mitigation against climate change, to set out actions for mainstreaming climate change responses into sector plans, to review and recommend duties of public and private bodies on climate change.The following are the priorities for implementation during the plan period (2018-2022) in each subsector;

Table 15; Linkage with National Climate Change Action Plan

Subsector	County Priorities/Strategies for Implementation
Forestry	Carrying out community training on climate change Enacting laws that protects, manages and conserves county forests Establishing drought resistant trees and fruit trees in drylands Establish Trees nurseries to increase the provision of seedlings Protection of water catchments, riverbanks, swamps and fragile lands
Agriculture	Provision of downscaled weather information and farm inputs, water harvesting, research and dissemination of drought resistant crops, proper management of agricultural waste e.g. using manure instead of inorganic and promotion of agroforestry especially tree-based inter-cropping.
Water	Construction of dams and water pans, protection of water towers, river banks and water bodies. Building capacity for water quality improvement and awareness campaign to promote water efficiency measures.
Livestock/pastoralism	Breeding of animals that adapt well to climate vagaries, regular vaccination campaigns, promotion of economic livelihood diversification; e.g. cultivation of drought-tolerant food crops such as millet and bee-keeping for honey production and awareness campaigns among pastoral communities to underscore the importance of balancing stocking rates with the available land resources as a way of ensuring sustainable pastoralism.
Infrastructure	Ensuring that the infrastructure is climate-proofed over its lifespan which includes the construction of culverts, factoring a maintenance component into all infrastructural development funds and designing infrastructure that can withstand the prevailing climate conditions.
Disaster Management	Strengthening disaster preparedness; proper planning of urban settlements which takes into consideration the expected high growth rate of urban population due to climate-induced migration from rural areas to urban centres

The county executive shall designate a County Executive Committee Member to coordinate climate Changes affairs in the county. The county government shall at the end of every financial year, through the designated County Executive Committee Member submit a report on progress of implementation of climate change actions to the County Assembly for review and debate and a copy of this report shall be forwarded to the directorate for information purposes.

2.9 CIDP Linkage with Ending Drought Emergencies Framework

The Ending Drought Emergencies Initiative (EDE) is a new approach that recognises that droughts cause emergencies because the foundations needed to support sustainable livelihoods in drought-prone areas principally security, infrastructure and human capital (education, health and nutrition) are weak. These weaknesses are due to historical imbalances in investment due to marginalization. The EDE initiative will accelerate investment in these development foundations as well as strengthen the institutions responsible for managing drought risks.

The EDE is part of priorities under the third Medium Term Plan 2018-22. It is being implemented through a Common Programme Framework that will ensure stronger alignment and coordination

of investment and activity between the national government, the county governments and development partners. At the national level, the following priorities, programmes and projects have been planned for implementation during the medium term plan period;

County Mediation Capacity building in 23 target ASAL Counties to enhance the capacity of peace mediators on mediation efforts both at the National and County level.

- i. Peace dividend projects in 23 ASAL counties to promote and reinforce the socio economic benefits of maintaining peace.
- ii. Cross-border peace and security committees in frontier ASAL Counties -To promote and reinforce the socio economic benefits of maintaining peace.
- iii. Drought risk reduction and climate change campaigns Programmes; Document and disseminate best practices in drought risk reduction, Climate Change daptation and Social Protection and develop national standards, guidelines and procedures;
- iv. Conditional cash transfer (Voucher system) - An expanded and scalable cash transfer infrastructure established in 13 Arid Counties.
- v. Hunger Safety Net Programme (HSNP)-To protect and support chronically food insecure households and safeguard them from drought and hunger.
- vi. To provide drought and climate information to facilitate concerted actions by relevant stakeholders
- vii. DRM and food security information sharing platform and capacity building programme-To develop an integrated food security information system and a harmonized data gathering and processing mechanism; Open-access database of food security information in place, platform established
- viii. National integrated early warning system; To ensure that early warning information is objective and relevant to provide early response.

At the county level, the following priorities, programmes and projects have been planned for implementation during the plan period 2018-2022;

Table 16; CIDP Linkage with EDE Framework

EDE Pillar	County Priorities/Interventions/Strategies
Pillar 1: Peace and Security The focus of the Peace and Security Pillar, or Pillar 1, is to provide a common strategy around which all stakeholders can renew their efforts to end the insecurity and violence which has plagued the arid and semi-arid lands for too long.	<ul style="list-style-type: none"> -Promote peaceful utilization of dry season grazing in border areas with Turkana, Baringo and Uganda -Promote & contribute to shared social amenities along border and migration corridors(schools, health centres & markets) -Conflict sensitive programming intergrated in county development plans -Joint advocacy and action for peace -Inter county strategy development and institutions strengthening -Area based and cross border peace dividend projects

Pillar 2: Climate-Proofed Infrastructure The focus of Pillar 2, is that the deficit of climate-proofed productive infrastructure and its maintenance is identified, planned and progressively addressed in a co-ordinated and comprehensive manner at national, county and community levels	-Joint planning of large scale infrastructure that affects multiple counties -Intercounty agreements to manage shared assets(Natural& commercial) -Build capacity for infrastructure operation and maintainance -Construct and upgrade of priority roads to enhance connectivity eg Kitale-Marich- Nadapal(534Km) and Nginyang –Lokori-Lokichar road
Pillar 3: Human Capital The focus of Pillar 3 is to develop a healthy, skilled, innovative, resourceful and motivated human capital which is a key foundation for sustainable and resilient livelihoods and economic growth. Human capital is understood to be the resources and capabilities that help people to be economically and socially productive.	-Joint planning and servicing of tertiary institutions serving multiple counties -Synchronized planning of services such as immunization -Affirmative action measures to increase access and funding for ASAL students in institutions of higher learning -Capacity and number of appropriately trained personnel working in ASAL increased -Appropriate health referral mechanisms for ASALs promoted
Pillar 4: Sustainable Livelihoods The focus of Pillar 4 is to promote secure and sustainable livelihoods that help families prone to drought spread risk and prevent asset loss. Livestock is given particular emphasis in this pillar given its importance in drought-prone areas and the substantial losses normally experienced by the livestock sector during emergencies	-Improve livestock Marketing systems through value addition & market infrastructure development -Promote Drought tolerant crops -Co-ownership of large scale assets eg Abattoirs -Decreasing cost of production through increased efficiency and subsidies -Supporting small holder irrigation schemes -Upgrading animal genetics,improving disease and parasite control -Post-harvest management improved -Build capacity for holistic natural resource management

Pillar 5: Drought Risk Management The focus of Pillar 5 is to develop and strengthen the institutions, mechanisms, and capacities that build resilience to drought and climate change. Drought risk management cuts across the first four EDE pillars (peace and security, climate-proofed infrastructure, human capital and sustainable livelihoods) but also relies on them to build the foundations for drought-resilient livelihoods.	-Inter county contingency plans to manage common risks -Joint assessments -Harmonised approaches to community based drought risk reduction and climate change adaptation -Mainstream drought risk reduction, climate change adaptation, and social protection in planning and budgeting. -Enhance access to social protection for chronically vulnerable populations -Strengthen drought early warning system -Strengthen contingency planning and financing -Strengthen preparedness and response planning for drought.
Pillar 6: Institutional Development and Knowledge Management The focus of Pillar 6 is to promote robust ASAL institutions to support EDE investment, policy and programming decisions, based on critical evidence generated by solid knowledge management systems.	-Establish national & Inter county coordination committees -Inter county and county EDE structures established and strengthened through capacity building

To facilitate effective implementation of EDE framework at the county level during the plan period, county, sub-county and ward EDE committees will be established .These committees will mainstream EDE in the county development agenda at all levels, develop tracking indicators and baseline data and report on a quarterly basis.

2.10 Cross-cutting Projects and Programmes

There are cross-cutting projects and programmes involving the County, NOREB counties and the Republic of Uganda. These projects include livestock disease control and surveillance which serve Moroto district in Uganda, West Pokot, Transoia and Turkana Counties, Peace & Security projects involving Turkana, Baringo & Elgeyo Marakwet counties, Kenya Climate Smart Agriculture project covering Elgeyo Marakwet, Baringo and West Pokot Counties, Cherangani Catchment Protection Project (Kenya Water Towers Project) covering West Pokot, Elgeyo Marakwet and Transoia counties. Several programmes and projects have also been planned by the North Rift Economic Bloc in the Tourism, Transport, Infrastructure, Trade, Livestock and Agriculture subsectors to attract investments,

trade, raise individual county competitiveness and promote regional integration. The county government will continue to collaborate, enhance strategic partnerships and leverage on NOREB member counties to fasttract development in the region, create more employment opportunities and create market for finished goods and sevices from West Pokot County.

CHAPTER THREE: REVIEW OF IMPLEMENTATION OF THE CIDP (2013-2017)

3.1 Introduction

This chapter provides a brief review on implementation of the County Integrated Development Plan for the period 2013-2017. The West Pokot CIDP (2013-2017) was the first in a series of five year medium term plans produced under the devolved system of government. The plan was prepared and implemented under the Kenya Constitution 2010 which significantly altered the governance structure of the country by creating a two tier government; a national government along with 47 county governments.

CIDP (2013-2017)

The key priorities under CIDP (2013-2017) included the following core areas: Health, Education, Infrastructure, Drought Emergencies Mitigation and Food Security. A review of the Plan indicates key achievements in all the sectors. Fourteen out of the twenty identified flagship projects were implemented.

3.2.1 Analysis of County Revenue Streams

The sources of revenue for county government for the plan period 2013-2017 are as shown in the table below;

3.2 Implementation Status of the Table 16: Analysis of County Revenue Streams

	FY 2013/2014		FY 2014/2015		FY 2015/2016		FY 2016/2017	
	Budget	Exchequer issues/receipts						
Own Revenue	38,165,375	56,236,786	96,197,480.00	103,899,328	177,308,244	98,305,114	122,245,626	83,218,908
Donor Funds	437,777,043	0	0	0	0	0		0
Equitable Share	3,155,124,840	3,155,124,840	3,763,444,079	3,836,031,027	4,313,692,404	4,138,293,328	4,654,529,143	4,654,529,143
Danida	0	0	10,000,000	10,000,000	12,180,000	12,180,000		0
World Bank	0	0	0	0	15,799,898	15,799,898		0
Conditional Grants	0	0	0	0	108,009,824	104,424,022	223,729,117	140,327,400

Own Revenue Analysis: The total local revenue collected amounted to Kshs 341.7 million against a target of Ksh. 400 million in the plan. This was below the target by KShs 58.3 representing an underperformance of 14.6 percent of the target.

Equitable Share: The total receipts from county equitable share amounted to Kshs 15.78 billion against a target of Ksh. 15.89 billion in the plan. This was below the target by KShs 0.11 billion representing an underperformance of 0.7 percent of the target.

Equalization Fund: The Equalization Fund is a Constitutional national revenue fund. This fund is allocated to specific counties to improve the basic infrastructure services in those areas and regions categorized as marginalized. This fund was expected to generate an estimated Ksh 2 billion over the plan period for financing priority programmes and projects in the CIDP. No money under this fund has been released to date.

Conditional Allocations: The total receipts from conditional allocations amounted to Kshs 244.8

million against a target of Ksh 331.7 million in the plan. This was below the target by KShs 87.00 million representing an underperformance of 26.23 percent of the target.

Development Partners and Donor Support; The total amount received from Development Partners and Donor Support in FY 2013/2014- FY 2016/17 amounted to Kshs 37.98 million against a target of Ksh.475.8 million in the plan. This was below the target by KShs 437.82 representing an underperformance of 92.02 percent of the target. Other development partners implemented programmes and projects directly with community and hence was difficult to document due to lack of a coordinating framework at the county level.

3.2.2 Expenditure Analysis by Sector/Sub-Sector

Table 17; Expenditure Analysis by Sector/Sub-sector

Department	SUMMARY OF BUDGET AND EXPENDITURE FOR FY 2013/14-FY 2016/17					
	Total Budget Allocation(Kshs Million)		Total Expenditure (Ksh Million)		Absorption Rate%	Absorption Rate%
	Rec	Dev	Rec	Dev	Rec	Dev
Office of the Governor	2,365.75	429.78	2,331.99	387.3	98.57	90.12
Finance and Economic Planning	588.07	199.17	615.75	176.03	104.71	88.38
Roads ,Public Works and Transport	326.05	1721.29	299.87	1635.56	91.97	95.02
Health and Sanitation	2,955.49	1468.4	2,902.10	933.58	98.19	63.58
Education Communication and ICT	944.76	723.11	950.49	584.75	100.61	80.87
Agriculture and Irrigation	337.08	519.24	330.61	475.28	98.08	91.53
Livestock,Fisheries and Veterinary Services	255.08	397.88	245.81	244.28	96.37	61.40
Trade,Industry and Cooperatives	149.84	245.08	116.05	228.04	77.45	93.05
Land,Physical Planning and Urban Development	225.44	228.54	219.74	220.12	97.47	96.32
Water development, Environment &Natural Resources	263.12	635.73	249.85	430.03	94.96	67.64
Tourism,Culture,Sports,Youth and Gender Development	164.01	298.83	159.04	236.56	96.97	79.16

County Public Service Management	288.72	53	288.05	31.08	99.77	58.64
Intergovernmental and Special Initiatives	85.50	72	85.20	69.53		
County Assembly	1,566.57	288.11	1,544.87	238.18	98.61	82.67
TOTAL	10,515.48	7,280.16	10,339.42	5,890.32	98.33	80.91
% OF THE TOTAL BUDGET	59.09	40.91	98.33	80.91		

The total expenditure for the FY2013/14 to FY2016/2017 amounted to Ksh.16.23 Billion. This comprised of Kshs. 10.32 Billion recurrent expenditure and Kshs. 5.8 Billion development expenditure representing 98.10 % and 80.91% absorption rates respectively and an overall absorption rate of 91.20 % of the total budget allocation.

3.3 Summary of Progress under the Social Pillar

Notable progress has been achieved in the social sector. In Education sub-sector, 307 ECD centres were constructed, 220 primary schools and 216 secondary schools were provided with infrastructure support over the plan period. A total of 38,887 beneficiaries were also supported with education bursary in Secondary, Tertiary and Universities. In addition, a total of 960 ECDE teachers were also employed during the plan period. Enrolment in ECD increased by 106 percent from 33,398 in 2013 to 68,655 in 2017. Primary school enrolment increased from 156,272 in 2013 to 186,708 in 2017 and the primary to secondary transition rate increased from 39 percent in 2013 to 66 percent in 2017. Enrolment in secondary schools also increased by 119 percent from 15,550 in 2013 to 34,078 in 2017. The KCSE candidature in the county also increased from 5,489 in 2013 to 8,023 in 2017. Further, Enrolment in youth polytechnics grew by 107 percent from 529 in 2013 to 1,100 in 2017.

In Health Sector, there was increase in the number of doctors from 14 in 2012 to 39 in 2017. The number of nurses also increased from 269 in 2012 to 412 in 2017. Improved

hospital equipment (ultra sound, oxygen plant, incubators) were also acquired and 10 ambulances were also purchased to support referral and emergency response. The number of dispensaries increased from 52 in 2012 to 94 in 2017. Kapenguria Medical Training College was also constructed and operationalized.

To increase access and availability of adequate water resources, 19 small gravity water supplies schemes were completed, 8 gravity water supply schemes were rehabilitated, 69 boreholes were drilled and equipped and 100 Boreholes were rehabilitated. In addition, 20 sand dams and 44 Water pans were constructed, 22 springs were conserved and protected and 88 Ha of degraded land reclaimed for agricultural use.

3.4 Summary of Progress under the Economic Pillar

To improve agricultural productivity, food security and household income and promote market linkages, the department of agriculture and irrigation produced and distributed 20,000 tissue culture bananas and 5,000 grafted avocadoes to farmers at a subsidized price, conducted annual county agricultural show and established 5 Irrigation Schemes at Mrel, Mokwo, Ngrokal, Kariamangole and Orwa. In roads, a total of 1,566 Km of new roads was opened up to

improve road network connectivity.

To improve Livestock health, Productivity and Marketing; 32 new cattle dips were constructed and 62 others rehabilitated, and 35 metallic crushes were constructed. 136 camels, 374 Galla goats and 20 dopper sheep were also purchased and distributed to support breed improvement. Further, 187,378 cattle, 446,539 goats, 116,584 sheep, 931 dogs, and 4,500 poultry were vaccinated. Under fisheries, 100,000 mixed tilapia fingerlings were stocked at Turkwel dam and other 100,000 mono-sex tilapia fingerlings were distributed to farmers. One fisheries hatchery was also constructed and 300 fish farmers recruited county wide.

To provide enabling business environment for Trade and Investments within the County, 16 market stalls were rehabilitated /constructed, 2 Coffee Factory renovated/ constructed, 7 milk chillers purchased were purchased and provided to farmers' cooperatives. 400 beehives were also purchased and distributed to farmers. The county government also installed 20m high mast security lights at Makutano, Chepareria, Ortum, Kacheliba, Kabichbich and Sigor towns. Paved parking and storm water drainage was also constructed at Makutano.

3.5 Summary of Progress under the Political Pillar

During the plan period(2013-2017), the 47 county governments and the national government were established and operationalized in line with the constitution of Kenya, 2010.This is a major milestone and has led to positive impacts in the county's political and socio-economic development. Key devolution institutions were also established including the county budget and economic forum and the decentralized offices for subcounty and ward administrations.

During the period under review, several laws to implement the constitution under schedule four were passed, including County Disaster Management Act, 2015, County Ward

Development Fund Act,2014,County Car Loans & Mortgages Act,2015, County Village Delineation Act,2016 several County Finance Acts and County Appropriations Acts.Capacity assessment and rationalization of the county public service was also carried out.

3.6 Summary of Notable Challenges and Lessons Learnt

This section highlight the key challenges encountered during the entire period of implementing county policies, programmes and projects for the period 2013-2017.It also touches on the key lessons learnt during the implementation period.

3.6.1 Challenges

- Inadequate equitable share funding for financing development programmes in the CIDP. Late release of funds by the national treasury was another challenge that affected programme implementation.
- Limited internal revenue base due to underdevelopment, low investment and historical marginalization of the county.
- Many incomplete projects due to initiation of too many new projects and variation of contracts and inadequate funding .This led to accumulation of huge pending bills.
- Rapidly rising wage bill. The county wage bill has risen rapidly from 22 percent in 2013 to 37 percent in 2017.
- Weak institutional structures, systems and staff capacity gaps due to the new devolved system of government.
- Governance and oversight challenges, poor leadership in some departments and competition between the two levels of government, the senate and the national assembly
- Inadequate county policies , regulations and county laws

- Lack of development coordination framework between the national & county governments and other development players at the county level.
- Lack of structures in line departments, inadequate projects documentation, low levels of monitoring and evaluation in departments, data collection and utilization in decision making
- High community expectations resulting in high number of projects in the CIDP.
- Cross cutting issues; Security, HIV/AIDS, Disaster Risk Reduction, Climate change adaptation and mitigation programmes and gender issues were not sufficiently factored /mainstreamed during sectoral resource allocation and programmes implementation.
- Project sustainability measures were not well defined.
- There is also need to establish a county development planning and coordination framework to bring together all development players at the county level.
- The county government should establish an external resource mobilization unit to assist in mobilizing resources to finance priority programmes and projects in the CIDP (2018-2022)
- There is need to strengthen county monitoring & evaluation system and ensure that M&E reports are utilized in decision making.
- Future programmes and projects should put more emphasis on sustainability measures.
- There is need to strengthen equitable distribution of resources based on accurate and reliable data.

3.6.2 Lessons Learnt.

- There is need to strengthen county performance management framework, civic education and public participation

Transforming Lives through Sustainable Development

CHAPTER FOUR: COUNTY DEVELOPMENT PRIORITIES AND STRATEGIES

4.1 Introduction

This chapter provides an analysis of county spatial development framework, key county development priorities, strategies, programmes and projects identified by stakeholders in the County.

4.2 Spatial Development Framework

Table 18: County Spatial Development Strategies

Thematic Area	Overview/ Current Status	Policy Strategy	Potential Geographical Areas	Lead Agencies/ Departments
Industrialization	Industrial development in the county is still low. Currently, there are no industrial plants for manufacturing purposes within the county. However, there is huge mining potential that can attract industrial development. Plans are at advanced stages to establish a limestone processing industry in Sebi in Kipkomo Sub-county. The county has not harnessed potential of agro processing plants. Future industrial plants to be established include milk-processing plant, man-goes processing plant and commercial maize processing plants.	-Establish industrial zones/parks with supporting infrastructures (water, electricity, road network) -Zoning and planning of industrial parks -Create and promote an enabling business environment for investors -Sourcing of industrial markets both locally and regionally	Sebit, Ortum and Lomut, Sekerr and Muino in Central pokot Lelan and Tapach in South Pokot Alale in North Pokot,	Trade, investments & cooperative Development ,Lands and Physical Planning department Energy, Agriculture and Livestock,

<p>Conserving the natural environment</p> <p>Protection and conservation of environmentally sensitive areas (degraded lands, protected areas, water catchments, hilly terrains etc.) has been undertaken by both government agencies and NGOs. However, this efforts have not been very successful due to; insufficient and untimely funding for conservation initiatives, the impacts of climate change on the natural environment, the high population pressure leading to poor disposal of both solid and liquid wastes, unsustainable farming methods, deforestation, human encroachment of the protected areas leading to environmental degradation. The effects of environmental degradation witnessed include; Severe soil erosion unpredictable weather patterns, resource based conflicts, water and air pollution, reduced agricultural outputs/yields, increased flooding and drought incidence/desertification, reduced and diminishing forest and grazing resources, landslides and flooding.</p>	<ul style="list-style-type: none"> -Establish tree planting programmes in environmentally sensitive areas -Promotion of land reclamation techniques and technologies -Training and capacity building of communities on conserving the natural environment 	<p>County wide</p> <p>Land Reclamation dept. Forest dept. Natural resource management dept. Water dept. KVDA, Agriculture dept. KFS, NEMA, KW S, CBOs FBOs,NGOs Local communities</p>
<p>Resource potential growth areas</p> <p>The main growth area in the County is Kapenguria town. However, the county has several service/rural centres which if developed can be growth potential zones. This is because they are along the major transport corridor i.e. Kapenguria-Lodwar A1 road, the areas have favorable climatic conditions, high agricultural productivity and mineral deposits.</p>	<ul style="list-style-type: none"> -Preparation of Physical development plans for all growth centres -Delineate and respect urban fringes to control urban sprawl -Provision of basic infrastructure e.g. water, electricity, security, road network 	<p>Lands and Physical Planning department Energy, Agriculture and Livestock, Public health Trade and industry</p> <p>Sebit, Ortum, Marich pass, Sigor, Chesta, Lomut and Chesegon in central Pokot sub county, Kacheiba, Orolwo, Konyao, Kodich, Aleale and Amakuriat in North Pokot sub county, Kabichibich, Lelan and Tapach in Pokot south sub county</p>

<p>County Competitiveness</p> <ul style="list-style-type: none"> -The County has a competitive advantage about its geographical position. This gives the County an opportunity to do business with its neighbors -The County has many development partners NGOs,CBOs,FBOs willing to work and fund projects in the County -Competent human resource with relevant knowledge, experience and skills -The County is rich in minerals, fertile soils, livestock production potential and tourism related activities 	<ul style="list-style-type: none"> -Enhancement of PPPs engagements in programmes and projects -Promotion of conflict resolution mechanisms and security with its neighbors -Provision of enabling infrastructure to enhance county competitiveness -promoting environmental protection and conservation 	<p>Whole County</p> <p>County Government and National Government</p>
<p>Modernizing agriculture</p>	<p>Huge agricultural potential exists the county.</p>	<p>Pokot Central ,west Pokot and south Pokot subcounties</p> <p>County Government, Development partners</p>

Tourism	<p>Tourism sites have largely remained unexploited.</p> <p>Tourism attraction sites in the County include Nasolot game reserve, Marich escarpments, Mtelo and Koh hills, Turkwel dam and Kaisagat viewpoint.</p> <p>Other tourism attractions include the rich Pokot culture and artefacts in Kapenguria museum curio shops and wildlife</p> <p>The County has rich history. The famous Kapenguria Six(major tourism attraction)</p>	<ul style="list-style-type: none"> • Create one major tourism circuit in the county i.e to connect conservancies with other touristic sites • Marketing of destinations sites and attractions • Establish a tourist information centre • Development of a tourism strategic plans • Improvement of road network connecting the tourist circuit • Establish county cultural centre • Create an enabling environment for hotel industry investment • Hold Pokot cultural week annualy 	<ul style="list-style-type: none"> Nasolot, Mt Mtelo, Masol and Orwa, Kaisagat View point, Marich escarpment,Kapenguria Museum 	<ul style="list-style-type: none"> • KWS • Development partners • National Museums of Kenya • Kenya Forest service • Conservancies-west pokot • Lands , Housing and Urban Development • Ministry of Culture,
Human Settlement				

<p>Transportation Network</p> <p>The general status of the road network in the county is poor. The earth and graveled roads becomes impassable during the rainy seasons. A rugged and hilly terrain within the county poses another challenge in road connectivity. The county has no rail network, ports and airports. The airstrips are completely inactive.</p>	<ul style="list-style-type: none"> -Tarmac roads to facilitate flow of goods and services -Establish track bays in strategic centres like Kapenguria -Construction of bridges across rivers and lagers -Establish county roads maintenance unit -Establish a functional airstrip 	<p>Bridges across Suam river, Nakwajit, cherangany and Tapandany</p> <p>Foot bridges over Muruny river, Cheptya, Ortum, Kabich-bich</p>	<p>Ministry of roads, Transport, public works, Ministry of lands, NEMA, Water dept.</p>
<p>Infrastructure</p>	<p>Infrastructure development is not well developed in the County. the County has no sewer system and designated dumping site</p>	<p>-Develop interconnected, efficient, reliable, adequate, accessible, safe, sustainable and environmentally-friendly systems of infrastructure (water; energy; education, training and research facilities; health; ICT; sewer; sports)</p>	<p>Department of finance & economic Planning, Department of health, Department of urban development, Ministry of roads, Transport, public works</p>

4.3 Natural Resource Assessment

This section provides an analysis of the major natural resources found within the county.

Table 19; Natural Resource Assessment

Name of Natural Resource	Dependent Sectors	Status, Level of Utilization & Scenarios for future	Opportunities for optimal utilization	Constraints to optimal utilization	Sustainable Management strategies
Land	All sectors	-Unplanned settlement schemes and town centres -is affected by effects of climate change such as drought and floods as well as anthropogenic factors. - continued Land subdivision	-Reclamation of degraded lands -Establishment of group ranches - civic education on land use laws and policy -Digitization of land records -preparation of county spatial plan - Provision of title deeds	-Law levels of awareness on land use laws & policy - Effects of climate change such as floods, unpredictable weather patterns and drought -Severe soil erosion -Land pollution as a result of poor waste management	-Climate change mitigation and adaptation measures put in place -Ensuring the carrying capacity of land is not exceeded -Spatial plans for the county and urban development plans for the major urban centres prepared -Rehabilitate degraded areas
Natural forests	-Health -Agriculture -Livestock -Water&Environment -Lands -Trade	-Encroachment of natural forests -Deforestation mainly due to increase in population pressure creating demand for settlement areas raw materials.	-Afforestation and re afforestation programmes -Training opportunities for community environment committees and CFA's on environmental management -Community cooperation	-Illegal logging. -Deforestation -Forest fires	-Promotion of appropriate and sustainable wood fuel conservation and management -promote participatory forest management and conservation through CFAs
Wildlife	-Tourism -Education -Culture	-Currently conserved within Nasolot game reserve and Masol conservancy	-creation of more game reserves and ranches	-Poaching -Human -wildlife conflicts - Human encroachment on wildlife corridors	-Legal and policy enforcement -Active community involvement and participation.
Minerals; gold, gemstone,rubies	-Mining	-Under exploitation of minerals due to lack of appropriate technology and lack of enabling environment	Can support livelihoods and generation of revenues	Lack of appropriate technology for mining.	Development of mining and extractive industries such as the proposed cement industry in Sibit

Name of Natural Resource	Dependent Sectors	Status, Level of Utilization & Scenarios for future	Opportunities for optimal utilization	Constraints to optimal utilization	Sustainable Management strategies
Limestone	Building & construction industry	Under exploitation of minerals due to lack of enabling environment			
River Wei wei	-Fisheries -Tourism -Irrigation -Agriculture -Livestock -Water	-Declining water levels – expected to further decline with expansion of irrigation sector -Water quality expected to decline due to increased farming activities -Rapidly growing competing demands for water	Can support more food production through irrigation and fish farming	-Potential for Water levels declines -Potential for water quality deterioration because of agriculture.	-Monitoring of water levels and quality. -Establishing appropriate species of flora along riverbanks and conservation of riparian vegetation. -Creating awareness through WRUAs on riparian land protection -Sustainable farm water management -Source and catchment protection
River Suam	-Fisheries -Tourism - Irrigation - Agriculture - Energy - Livestock - Water	-Declining water levels – expected to further decline with expansion of irrigation sector -Water quality expected to decline due to increased farming activities -Rapidly growing competing demands for water	Can support more food production through small-scale irrigation; Fish farming and energy generation. Funding for sustainable agriculture within the upper catchment of the Turkwel dam	-Water levels declined -Water quality deteriorated because of agriculture.	-Monitoring of water levels and quality. -Establishing appropriate species of flora along riverbanks and conservation of riparian vegetation. -Creating awareness through WRUAs on riparian land protection -Sustainable farm water management -Source and catchment protection

Name of Natural Resource	Dependent Sectors	Status, Level of Utilization & Scenarios for future	Opportunities for optimal utilization	Constraints to optimal utilization	Sustainable Management strategies
River Muruny	Irrigation Agriculture -livestock -water supply	-Rapidly growing competing demands for water	-Can support more food production through irrigation	-Upstream damming; -Destruction of riparian vegetation	-Monitoring of water levels and quality. -Establishing appropriate species of flora along riverbanks and conservation of riparian vegetation. -Creating awareness through WRUAs on riparian land protection -Sustainable farm water management -Source and catchment protection
River Atacha, Serewo, Konyanga and Mtembur, Chesra	Mining Environment	-Rampant gold mining;	-Revenue generation	-Black market trade	-Legal and policy enforcement
		-Mining sand harvesting; -Support of tree nurseries and kitchen gardens	-Can support livelihoods and trade through sale of sand -Can support the establishment of more tree nurseries	-Unregulated and haphazard sand harvesting	-Legal and policy enforcement -Strengthening WRUAs oversee sand harvesting - Monitoring of water levels and quality. -Establishing appropriate species of flora along riverbanks and conservation of riparian vegetation. -Creating awareness through WRUAs on riparian land protection -Sustainable farm water management -Source and catchment protection

Name of Natural Resource	Dependent Sectors	Status, Level of Utilization & Scenarios for future	Opportunities for optimal utilization	Constraints to optimal utilization	Sustainable Management strategies
Biodiversity (flora and fauna)	All sectors	-Diminishing numbers within the endangered species e.g. the Lammergeyer,	-Can support all sectors.	-Illegal extraction of wild plants such as Aloe vera -Low awareness on the impact of destruction of natural resources -Drought -Overgrazing	-Biodiversity conservation
Escarpments (Marich and Turkwel) Hills (Koghow and Mtelo hills)	Tourism -water -environment	-These are tourist attraction sites. They generate revenue and create employment. They are underutilized due to poor road infrastructure and marketing	-Creation of hotels and restaurants and around the areas to attract more tourists	-poor road infrastructure	-Creation of good road network

4.4 Development Priorities and Strategies

This section gives a summary of the development priorities identified in the sectors from the spatial plan, sectoral plans and during stakeholder's consultative fora. The development priorities, programmes and projects are linked to the Kenya Vision 2030, MTP III, County sectoral and strategic plans, as well as strategies identified in the spatial development framework. Emphasis has also been given to programmes and projects aimed at fulfilling Article 56 of Constitution of Kenya 2010, achieving the aspirations of Sustainable Development Goals (SDGs) and African Union Agenda 2063.

4.4.1 Education Sector

This sector is composed of three sub-sectors: Department of education and technical training, Ministry of Education, Teachers Service Commission (TSC), National Industrial Training Authority (NITA) and Technical and Vocational Education and Training Authority (TVETA).

students, trainees and staff, Operationalize Business start-up kit fund, establish business start-up incubation centre for VTC graduates, Collaboration with strategic partners and national government , Formulation and enactment of County ECDE and County Vocational education and Training Bills, Support adult education with teaching-learning materials and adult education teachers, provide infrastructure support to primary schools (classrooms, teaching-learning materials) and support primary schools with boarding facilities.

4.4.1.1 Vision

Literate and skilled population for county socio-economic and political development

4.4.1.2 Mission

To provide, promote, coordinate pre-primary education and vocational training while embracing technology to mould individuals into competent and responsible citizens

The priorities and strategies for post primary education over the plan period include; Support secondary, tertiary & university education through bursary fund, support secondary schools' infrastructure by providing classrooms, teaching-learning materials, and equipment.

4.4.1.3 Sector Development Priorities and Strategies

The sector priorities for the plan period 2018-2022 include; Construction of model ECDE classrooms and provision of water storage facilities, employment of additional qualified ECDE teachers and supervisors, recruitment of qualified instructors for VTCs, and support staff, Provision of instructional materials for ECDE , provision of vehicles for field operations,Equipping (furniture and outdoor play items) of ECDE centres,Feeding of needy ECDE learners,training and development of ECDE teachers and staff, construction of border boarding primary schools, Infrastructure support to primary and secondary schools, Support adult education training.

Others are construction of model Vocational and Training Centres (VTCs),Expansion and rehabilitation of existing VTCs,Equipping and provision of training materials for VTCs, Training and development of VTCs' instructors and staff, Mainstreaming of ICT in VTCs training programmes, disbursement of bursary and scholarships to needy

4.4.1.4 Programmes for Education Sector

Table 21; Programmes for Education Sector

Programme 1: Early Child Development Education

Objective; To improve equitable access and provide an enabling environment for early childhood development education.

Outcome; Improved Access to equitable, quality Early Childhood Development Education

Sub Pro- gramme	Key Outcome/Output	Key Performance Indicators	Planned Targets				Budget
			Year 1	Year 2	Year 3	Year 4	
ECDE Infrastructure Development	ECDE classrooms constructed	No. of new ECDE classrooms constructed.	60	62	65	60	247.2M
	ECDE pit latrines constructed	No. of pit latrines constructed	60	135	135	135	60M
	ECDE centres benefiting with instructional materials	No. of ECDE institutions supported with instructional materials	600	800	1000	1000	50M
ECDE feeding program	Water tanks distributed and installed to ECDE Centres	No. of water tanks distributed to ECDE centers	50	300	300	300	30M
	Provision of milk to ECDE centers	% of ECDE centers provided with milk	50%	95%	96%	97%	98%
	ECDE centres benefit from nutritional supplements	No. of ECDE centres under school feeding programme	600	700	800	800	60M
ECDE capacity development	ECDE teachers recruited	No. of new ECDE teachers recruited	300	50	50	50	350M
	ECDE teachers and staff trained on new curriculum	No. of ECDE teachers and staff developed/ Trained on new curriculum	339	300	400	50	15M

Programme 2: Vocational Education and Training Development

Objective : To provide access to quality vocational education and training

Outcome: Adequately skilled citizens to support modern industrial development

Sub Programme	Key Outcome/Output	Key Performance Indicators	Planned Targets					Budget
			Year 1	Year 2	Year 3	Year 4	Year 5	
Vocational Training centres (VTCs) infrastructural development	New model Vocational Training Centres constructed	No. of model vocational centres constructed	3	5	4	4	4	1B
	VTCs rehabilitated	No. of VTCs rehabilitated	4	4	4	4	4	200M
	VTCs supplied with modern training tools and equipment	No. of VTCs supplied with modern training tools and equipment	6	9	14	18	22	50M
	ICT trainees initiated	No. of trainees accessing ICT training	500	1,000	1,200	1,500	2,000	10M
	Sensitization campaigns mounted	No. of Sensitization campaigns mounted	6	6	6	6	6	2M
Vocational Training Centers (VTCs) promotion campaign	Existing youth polytechnics rebranded into VTCs	No. of youth polytechnics re-branded into VTCs	3	3	-	-	-	10M
	VTC trainees benefit from VTC Bursary Fund	No. of VTC trainees Bursary fund beneficiaries	300	400	420	440	640	35M
	1 VTC business start-up kits store established	No. of VTC graduates' business start-up kits stores	1	-	-	-	-	8M
	VTC graduates access Incubation and business start-up kits	No. of kits distributed to VTC graduates	75	80	120	125	30M	
	Staff Recruitment & development	No. of new VTCs instructors employed and deployed	5	6	6	25	20	38M
		No. of VTCs instructors trained and / or developed	32	38	42	42	37	15M

Programme 3: General Education Development Support

Objective: To provide access to quality education.

Outcome: Adequately skilled citizens to support modern industrial development

Sub Programme	Key Outcome	Key Performance Indicators	Planned Targets				Budget
			Year 1	Year 2	Year 3	Year 4	
County Bursary Fund	100,000 secondary school beneficiaries	No. of secondary school beneficiaries	20,000	20,000	20,000	20,000	20,000
	25,000 tertiary beneficiaries	No. of tertiary level beneficiaries	5,000	5,000	5,000	5,000	5,000
	10,000 VTC beneficiaries	No. of vocational Training centers' beneficiaries	2,000	2,000	2,000	2,000	2,000
School Infrastructure development	Primary schools supported with new classrooms	No. of primary schools supported with new classrooms	110	107	107	107	107
	Secondary schools supported with new classrooms	No. of secondary schools with new classrooms	22	22	22	21	21
	Adult education centers supported	No. of adult education teachers recruited	200	50	50	-	75M
Girl Child Support Program	Provision of Sanitary pads	No. of school going girls supported with sanitary pads	25,000	32,000	38,000	43,0000	46,000
							30M

4.4.1.1 Cross-Sectoral Implementation Considerations

Table 22; Education Sector

Programme	Sector	Cross-sector Impact		Measures to harness or mitigate the impact
		Synergies	Adverse	
General admin	Health	<ul style="list-style-type: none"> Supply of skilled health personnel 		<ul style="list-style-type: none"> Provision of More Bursaries
Trade development and investment promotion	General Economic & Commercial Affairs	<ul style="list-style-type: none"> Supply of skilled personnel Market for finished products 	<ul style="list-style-type: none"> Environmental Pollution from industries 	<ul style="list-style-type: none"> Recycling, Reuse and treatment of waste products Ensuring compliance environmental audits and inspections
Disaster risk Reduction	Public Administration & Inter-governmental Relations.	<ul style="list-style-type: none"> Security provision. 	<ul style="list-style-type: none"> Proliferation of arms 	<ul style="list-style-type: none"> Recruitment of additional Kenya police reservist
	Energy, Infrastructure & ICT	<ul style="list-style-type: none"> Provision of good roads and information communication technology 	<ul style="list-style-type: none"> Accumulation of e-waste Soil erosion. 	<ul style="list-style-type: none"> Recycling and re-use of electronic products Climate proofed infrastructure
	Social Protection & Recreation	<ul style="list-style-type: none"> Supply of skilled personnel for Tourism, Sports and Youth Development 	<ul style="list-style-type: none"> Drug and substance abuse 	<ul style="list-style-type: none"> Civic education against drug and substance abuse.
	Agriculture, Rural & Urban Development	<ul style="list-style-type: none"> Provision of skilled personnel 	<ul style="list-style-type: none"> Congestion In urban due to rural-urban migration 	<ul style="list-style-type: none"> Educating on appropriate use of agricultural inputs
	Environmental Protection, Water & Natural Resources	<ul style="list-style-type: none"> Use of renewable energy 	<ul style="list-style-type: none"> Over-exploitation of Natural resources 	<ul style="list-style-type: none"> Civic education on the importance of natural resources i.e forest

4.4.2 Environmental Protection, Water & Natural Resources Sector

The County Department of Water, Environment and Natural Resources is mandated with the management of water resources; provision of water services; reclamation of degraded land and ASALs into vibrant economic development areas; protection and exploitation of natural resources; conservation practices, protection and management of county forests and game reserves; promotion of farm and dry land forestry development; promotion of clean and secure environment by controlling air pollution, outdoor advertisement and other public nuisance.

for two major towns (Kapenguria and Chepareria). Environmental priority will be given to programmes that will contribute to Climate Change Adaptation and Mitigation. These shall include programmes to increase forest cover, conserving the natural forest and woodlands, protecting the water catchment areas, enhancing participatory forest management and promoting land reclamation. In addition, there will be continuous sensitization of the community on the benefits of forests and clean environment. To achieve these objectives, however, these respective departments shall have to further train the existing staff, recruit additional staff, purchase additional field vehicles and expand the office space.

4.4.2.1 Vision

A clean, healthy, safe and sustainably managed water, environment and natural resources.

4.4.2.2 Mission

To promote good governance in the protection, conservation, and development of water, environment and natural resources for equitable and sustainable development in West Pokot County

4.4.2.3 Sector/Sub-sector development needs, priorities and strategies

The County's department water priority shall include programmes that will lead to increased access to safe, adequate and reliable water supply and sustainably managed environment. To achieve this initiative, the department will invest in borehole drilling, gravity schemes and rainwater harvesting technologies and integrating the community in the management the projects. In order, to promote sanitation in the County, priority will be given in constructing a sewerage system

4.4.2.4 Programmes for Environmental Protection, Water & Natural Resources Sector

Table 23; Programmes for Environmental Protection, Water & Natural Resources Sector

Sub Programme	Key Outcome/Output	Key Performance Indicators	Planned Targets					Budget
			Year 1	Year 2	Year 3	Year 4	Year 5	
Water Supply Infrastructure development	Boreholes drilled and operationalized	No. of boreholes drilled and equipped	25	30	30	20	15	150M
	Boreholes upgraded to solar power	No. of Boreholes Upgraded to solar power	15	15	10	10	5	
	Water Pans constructed/desilted	No. of water pans excavated or desilted and working	2	3	2	2	3	137.5M
	Sand/ sub-surface dams Constructed	No. of new sand/ sub-surface dams constructed and working	25	25	15	15	10	45M
	Water supply systems rehabilitated	No. of water supply systems rehabilitated	3	2	1	1	1	50M
	New roof water catchment systems installed	No. of new roof water catchment systems installed	50	60	60	80	80	33M
	Gravity Water supply schemes developed	No. Gravity Water supply schemes completed and operational	5	4	4	2	2	200M
	Shallow wells dug	No. of shallow wells dug and operational	15	20	25	25	15	3M
	Springs Protected	No. of springs protected	10	15	15	12	10	62M

Programme 2: Forest Conservation and Management						
Objective: To sustainably manage County forestry resources for livelihood improvement.						
Outcome; Increased tree cover and sustainably managed forest resources.						
Sub Pro-gramme	Key Outputs/Output	Key Performance Indicators	Targets			
			Year 1	Year 2	Year 3	Year 4
					Year 5	Budget
Forestry development program	7,500,000 seedlings planted and 250Ha of land planted with trees	No. of Tree seedlings planted No. of Ha of Green Schools plant with trees Length (km) of urban roads planted with trees	500,000 25 5km	1,000,000 5 5km	2,000,000 5 5km	2,000,000 5 5km
80 Women, Youth, Green Schools and CFAAs groups establish Tree Nurseries	No. women, Youth, Greening Schools and CFAs groups establish Tree Nurseries	20	20	20	10	8M
laws and policies developed on forest conservation and implemented	No. laws and policies developed and implemented	1	1	2	1	1 2M
Forests conserved, managed and protected	No. of forests conserved, managed and protected	4	4	4	4	3 10M
Water catchment protection	3,000 hectares of water catchments, riverbanks, swamps and fragile lands protected	400	900	800	500	400 15M
Climatic change adaptation	Acreage of dryland forest farms developed	20	20	20	20	20M
50,000 improved energy jikos given to households	No. of improved energy jikos given to households	10,000	15,000	10,000	10,000	5M
Community trainings on climate change conducted	No. of trainings conducted	3	4	5	5	11M

4.4.2.5 Cross-Sectoral Implementation Considerations

Table 24; Environmental Protection, Water & Natural Resources

Programme	Sector	Cross-sector Impact			Measures to harness or mitigate the impact
		Synergies	Adverse		
Education		• Supply of water to schools for construction of school facilities	• -		• Improve water catchment areas by planting trees.
Health		• Production of medicine	• Deaths when flooding occurs		• Discouraging settlement in flooding areas
General Economic & Commercial Affairs		• Providing raw materials for commercial affairs	• Decline in economy as a result of over exploitation		• Enacting laws to protect environment, water and natural resources
Public Administration & Inter-governmental Relations.		• Lows the cost of administration	• Harbours criminals		• Provision of wardens
Energy, Infrastructure & ICT		• Provision of renewable sources of energy like hydro-electric power	• Causes deaths		• Employing specialists to work in the production plant
Social Protection & Recreation		• Supply of clean air that is good human consumption	• Limits recreation places		• Discouraging encroachment
Agriculture, Rural & Urban Development		• Stir production by providing conducive environment	• -		• Enacting laws that protects environment and water catchment areas

4.4.3 General Economic & Commercial Affairs Sector

4.4.3.1 Vision

The preferred commercial hub for a competitive and sustainable industrial and enterprise sector

4.4.3.2 Mission

To facilitate access to markets through development and promotion of commerce, Cooperative, creation of an enabling Investment environment for a vibrant, globally competitive, sustainable and innovative commercial and industrial enterprises

4.4.3.3 Sector Priorities and Strategies

This sector covers private sector and Micro, Small and Medium Enterprises (MSMEs) development. Manufacturing sector's contribution to the GDP has remained static at 10 per cent over the last 5 years. This is attributed to inadequate and costly infrastructure, low technology adoption, high cost of doing business, high fuel costs, and recurring droughts. At the county, trade sub-sector is faced with inadequate utilities (especially water and electricity) and limited access to capital for MSMEs.

The manufacturing sector has a potential of spurring technology and innovation as it's a major conduit for diffusion of new technologies into the other sectors of the economy. This sector also has a high potential of employment creation with strong forward and backward linkages and spill over effects that can stimulate demand for agricultural products.

Trade and Industry; to revitalise this sub-sector, the following shall be given priority over the plan period: Undertake a resource endowment mapping in the county to establish Quantities and location of both natural and man-made resources in the county to facilitate identification and prioritization of bankable industrial projects in the county. Develop and support of capacity building and training programmes on technology and value addition, Conduct annual investment Fora to show case products and investment Opportunities in the County, Expand the Joint Loans Board scheme to reach many traders, Enhance Licensing with a view to Rolling out an E – registry for online licence applications and payments, Improve public private partnerships with NGO and Kenya National Chamber of Industries (KNCCI), Develop 1 industrial park and enhance collaboration between the County Department of Vocation training

to enhance skills development for industrial purpose for the Youth. Other priorities include; Establish a technical institution for the county to strengthen MSMEs, Establish Micro and Small Enterprise (SMEs) centres of excellence, Support Sebit Cement manufacturing plant as a Public Private Partnership Model, Support value addition to Milk, Wool, Mangoes, Sunflower, Aloe vera and other products from the county ,Support Establishment of recreational facilities in each of the four Sub Counties so as to generate revenue as well as providing recreational facilities to the town residents

Cooperative Development; Over the plan period, the following will be undertaken in order to unlock growth within this sub- sector; establish County Cooperative Development Fund to help SMEs access capital, promote retail banking and expansion of agent banking to the unbanked, promote the establishment of more deposit taking Societies and Micro Finance Services, promote FOSA establishments and SACCOs that take withdrawal deposits and Promote vibrant sustainable marketing Cooperative Movement

Oil, Mineral Resources and Renewable Energy: To upscale the development of this subsector in a more sustainable and organized manner the county will undertake the following over the plan period: establish a Mineral/ Natural Resources database through Geo spatial mapping of mineral resources, regulation of Sand harvesting, engage Tullow oil cooperation for exploration of petroleum with a view to exploiting in Central Pokot and invite investors to support the generation of energy by use of Solar and Wind in various parts of the County.

4.4.3.4 Programmes for General Economic & Commercial Affairs Sector

Table 25; Programmes for General Economic & Commercial Affairs Sector

Sub -Programme	Key Outcome/Output	Key Performance Indicators (KPIs)	PLANNED TARGETS				
			Year 1	Year 2	Year 3	Year 4	Year 5
Trade & Enterprise Development	New fresh produce markets developed	No. of new fresh produce markets constructed	2	2	1	2	2
		No. of traders benefitting from the new market stalls	150	200	300	500	800
		No. of new market stalls &boda boda shades	20	13	15	10	10
Business loans disbursed (Cooperative Dev. Fund)	No of new businesses established	90	100	150	180	210	350M
		No of traders/traders benefitting	150	250	350	360	380
		No of traders trained on SMEs	150	350	400	450	500
Training conducted on SMEs and entrepreneurship trade fairs held/ Participated	No of Trade fairs participated/entered	10	12	15	20	25	15M
		No of value addition units	2	2	3	2	1
		No of traders with approved weight and measures equipment	4,000	1300	1500	1200	1300
Weights and Meas-ures Services	Fair trade practices promoted (Consumer Protection)	No. of consumers and traders trained	1200	1600	1800	2000	1800
		Consumers trained on consumer rights and on counterfeits and contraband goods					5M

Programme 2: Investment and Cooperative Development						
Objective: increase employment opportunities						
Outcome: : Enhanced livelihoods through increased income						
Sub -Programme	Key Outcome/Output	Key Performance Indicators (KPIs)				
		Year 1	Year 2	Year 3	Year 4	Year 5
		Budget				
Cooperative Development	Promotion of Cooperative movement	No. of awareness creation/Trainings conducted on cooperative societies	20	25	30	35
		No. of new cooperatives registered	5	6	3	2
	Capacities of established co-operative societies enhanced	No. of trainings to existing cooperatives societies	20	30	40	45
	Cooperative societies supported	No. of Cooperatives supported with Coolers & housing units	3	3	2	1
		No. of cooperatives supported with honey processing equipment/ coffee store	2	1	1	1
		No. of Cooperatives societies supported with milk Gallons	50	50	50	50
	Cooperative Development Fund	No. of cooperatives /groups supported with capital through the cooperative Development Fund	100	200	250	280
	Revival of dormant coops.	No. of cooperatives societies revived	2	2	2	1
	Cooperative Audit Advisory Services offered	No. of audit services carried out	15	25	30	35
Investment Promotion	Investment forum	No. of new investments attracted to the county	4	2	2	1

4.4.3.5 Cross-Sectoral Implementation Considerations

Table 26; General Economic & Commercial Affairs sector

Programme	Sector	Cross-sector Impact		Measures to harness or mitigate the impact
		Synergies	Adverse	
	Education	<ul style="list-style-type: none"> Provision of funds to boost education 	<ul style="list-style-type: none"> - 	<ul style="list-style-type: none"> Establishment of schools in remote areas to balance with urban areas
	Health	<ul style="list-style-type: none"> Improved health care services 	<ul style="list-style-type: none"> - 	<ul style="list-style-type: none"> Establishment of more dispensaries
	Public Administration & Inter-governmental Relations.	<ul style="list-style-type: none"> Increases government revenue collection 	<ul style="list-style-type: none"> Increased rate of corruption 	<ul style="list-style-type: none"> Enacting policies against corruption
	Energy, Infrastructure & ICT	<ul style="list-style-type: none"> Increasing transport networks 	<ul style="list-style-type: none"> Displacement of human settlement 	<ul style="list-style-type: none"> Compensation of displaced people.

	Agriculture, Rural & Urban Development	<ul style="list-style-type: none"> Improved both rural and urban living standard of people 	<ul style="list-style-type: none"> Increased congestion and crime in towns 	<ul style="list-style-type: none"> Decentralizing some of the activities.
	Environmental Protection, Water & Natural Resources	<ul style="list-style-type: none"> Enhancing utilization of resources 	<ul style="list-style-type: none"> Over exploitation of resources 	<ul style="list-style-type: none"> Regulation of resources

4.4.4 Agriculture, Rural & Urban Development Sector

This sector comprises of the following Subsectors: Agriculture and Irrigation, Pastoral Economy, Lands, Physical Planning and Urban Development.

4.4.4.1 Subsector: Agriculture and Irrigation

Vision: A secure and a wealthy County anchored by an innovative, commercially oriented and competitive agricultural sector

Mission: To improve livelihoods of the West Pokot county residents and ensure food security through creation of an enabling environment, provision of

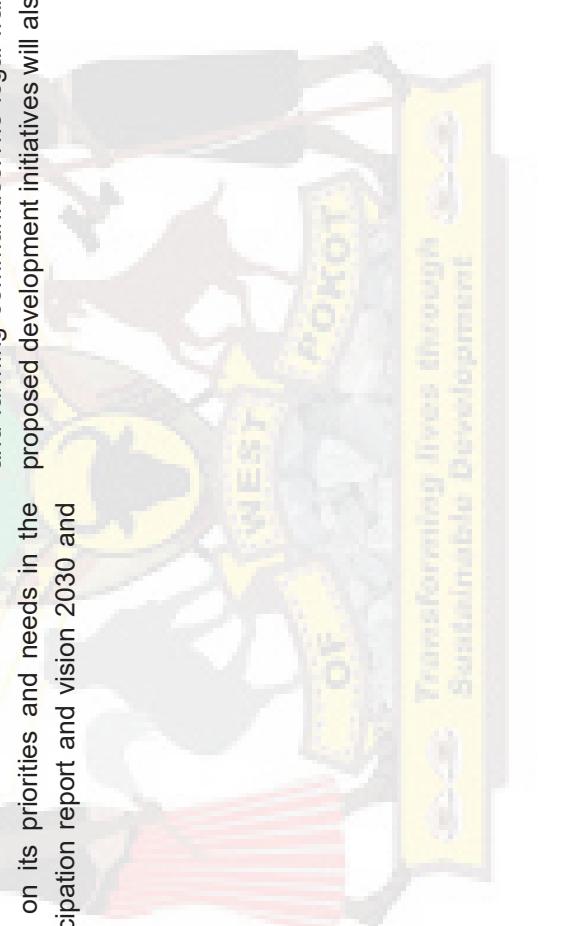

effective support services and sustainable land resource management.

Subsector Development Priorities and Strategies

West Pokot County is endowed with high agricultural potential for crops and livestock. Agriculture is a fundamental pillar for sustainable development that seeks to meet the needs of present generation without compromising those of future generation. The department of agriculture contributes immensely to the economy of West Pokot County. There is need to empower and change the lives of communities of West Pokot to secure right of food, contribute to reduced poverty, increase household incomes, increase bio-diversity, and adopt agricultural methods which mitigate climate change.

The department will mainly focus on its priorities and needs in the Governor's manifesto, public participation report and vision 2030 and

creating facilitative laws, regulations and policies. The priorities will target food security, improving the communities' household incomes and improvement of farmers' knowledge and skills. These priorities and needs will be addressed through establishment of irrigation infrastructure, purchase of water pumps, promotion of traditional high value crops, promotion of cash crops, post-harvest management(cold stores for onions and Irish potatoes, cereal produce stores),fertilizer and seed subsidy, pest and disease surveillance and control(fall armyworm and maize lethal necrosis disease etc.), establishment of agricultural mechanization unit, establishment of demonstration plots, promotion of greenhouse farming, soil and water conservation and training of staff and farming communities.The legal framework needed to support the proposed development initiatives will also be put in place.

Sub-Sector Programmes

Table 27; Programmes for Agriculture, Rural & Urban Development Sector

Programme 1; Crop Development and Management							
Objective: Increase Agricultural productivity and output							
Outcome: Increased food security and household incomes							
Sub Programme	Key Outcome/Output						
Key Performance Indicators							
Planned Targets							
		Year 1	Year 2	Year 3	Year 4	Year 5	Budget
Horticultural Crops Development	Increased Ha of Horticultural Crops	Ha of Grafted Mangoes, Tissue Culture Bananas, Pawpaw and Avocados achieved.	20	40	50	40	50M
	No.of groups trained on Mango value addition.	1	2	2	-	-	2.5M
Cash Crops Development	100 Ha of New coffee established	Ha of coffee increased	20	20	20	20	100M
	300 Ha of Cotton established.	Ha of cotton established	16	40	60	80	104
	120 Ha of Tea established	Ha of Tea established	12	20	40	48	-
	2400 Ha of Sunflower established	Ha of sunflower established and number of farmers planting sunflower.	200	400	600	600	30M
	220 Ha of Sisal established	Ha of sisal increased and value addition done	20	50	50	50	50M
	2000Ha of pyrethrum established	Ha of pyrethrum increased	200	400	600	400	50M

Food Crops Development	3000 ha of traditional crops established	Ha of traditional crops increased	300	500	700	800	700	15M
1,000 Ha of Irish Potato seed supplied to farmers	Bulking of Irish potato seed	100	300	300	200	100	18M	
plant clinics	14 plant clinics established	No. of plant clinics established and equipped	-	4	5	3	2	7M
Irrigation agronomy	Staff and farmers trained in irrigation agronomy	No. of staff trained No. of farmers trained	20 800	30 1600	10 2100	8 3500	12 4200	5M 10M

Programme 2 : Agribusiness Development and Marketing

Objective: To Commercialize Smallscale Agriculture

Outcome: Increased Food security and Household incomes

Sub Programme	Key Outcome/Output	Key Performance Indicators	Planned Targets					Budget
			Year 1	Year 2	Year 3	Year 4	Year 5	
Value addition promotion	Keringet sunflower project	Sunflower factory operational	1	0	0	0	0	5M
	Mango Fruit processing plant	Mango factory operational	0	1	0	0	0	20M
	Cotton Ginnery	Cotton ginnery established	-	-	1	-	-	60M
	Sisal Processing Plant	Sisal processing plant established	-	-	1	-	-	50M
	Cereal stores constructed	cereal storage facilities established	1	1	1	1	1	25M
	Potato cold stores constructed	potato cold store constructed	1	1	0	0	0	5M
	Youth in Agribusiness	Number of youth in agribusiness	100	250	500	750	1000	10M
	Family Farming	Number of families becoming: Food secure Financially stable	50 50	50 50	50 50	50 50	50 50	10M

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Farm inputs subsidy	Fertilizer subsidy	Tons of fertilizers distributed to farmers	360	500	500	500	500	100M
Market Development	Market surveys	Number of market surveys conducted	10	20	30	40	50	5M
	farmers linked to markets	Number of farmers linked to markets	1000	1500	2000	2500	3000	3M

Programme 3 : Irrigation Infrastructure and Agronomy

Objective: To increase utilization of land through irrigation and sustainable land use

Outcome: Increase the Food security and household incomes

Sub Programme	Key Outcome/Output	Key Performance Indicators	Planned Targets					Budget
			Year 1	Year 2	Year 3	Year 4	Year 5	
Irrigation	15 Irrigation schemes established and completed	Irrigation schemes established and completed	2	3	4	3	3	300M
Water harvesting	(of road run water) technologies disseminated	No of technologies disseminated and adopted	8	10	8	5	-	10M
Agricultural engineering services(land Development)	Soil and water conservation structures laid and implemented	Soil and water conservation structures laid and implemented	1200	1400	1600	1800	2000	8M

Programme 4 : Agriculture Support Services

Objective: To enhance coordination and management of agricultural services.

Outcome: Efficient and effective management of agriculture for sustainable development.

Sub Pro- gramme;	Key Output	Key Outcome/ Indicators	Planned Targets					Budget
			Year 1	Year 2	Year 3	Year 4	Year 5	
Legal and Policy Framework	Operationalization of Agriculture sector coordination Bill and Agriculture Sector Bill	Agriculture sector coordination Bill, Agriculture sector Bill, Potato Bill and Agribusiness strategy in pace.	1	1	1	-	-	2M
Human Resource Management	Recruitment and promotion of staff	Number of staff recruited Number of staff promoted	64	5	5	5	1	71M
Extension Service delivery	Farmers trainings on technical and crosscutting issues	Number of farmers trained	3600	4000	4000	4000	2M	
	Purchase and maintain motor vehicles and M/ cycles	No. of utility vehicles purchased No. of utility Motor cycles purchased	1	1	1	1	1	30M

4.4.4.2 Livestock, Veterinary & Fisheries Sub-Sector

Vision: To be the leading sub sector in livestock productivity and protection of animal health

Mission: To promote livestock production through value addition enhanced productivity and sustainable development of fisheries

Subsector Needs, Priorities and Strategies

The needs for the department include: additional technical staff and improving staff welfare (promotion, provision of office uniform, equipment and tools), transport (vehicles and motorcycles), infrastructure (offices, laboratory, stores, electricity, water, internet/intercom connectivity), farm machinery and implements; rehabilitation of holding grounds; mainstreaming of cross-cutting issues. The priorities of the sub-sector during the period 2018-2022 include: strengthening extension services through field demonstrations, farmer's trainings and agricultural shows . Other priorities include :livestock breed improvement, beekeeping promotion, establishment of livestock strategic feed reserves, range development (reseeding, enclosures, water harvesting), exposure tours, establishing disease free zones, improving access to artificial insemination, livestock marketing and value addition, establishment of fish hatchery, restocking Turkwel dam, expand fingerlings distribution and develop sub-sector policies and legislations.

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

The strategies to be adopted by the sub-sector to achieve the needs and priorities include: Provision of A.L. services, provision/introduction of superior breeds for livestock improvement; provision of pasture seeds and hay stores; provision of modern/improved hives; capacity building of staff and farmers; disease surveillance, control and prevention; provision of monosex tilapia fingerlings; resource mobilization (collaboration, partnership)

Subsector Priority Programmes

Programme 1 : Livestock Production		Planned Targets						
Sub Programme	Key Outcome/Output	Key Performance Indicators	Year 1	Year 2	Year 3	Year 4	Year 5	Budget
LIVESTOCK PRODUCTION AND RANGE MANAGEMENT	MIFUGO House completed and equipped	Number of offices completed and equipped	0	1	0	0	0	5M
	sub-county office constructed and equipped	Number of offices constructed and equipped	0	1	0	0	0	10M
	Ward offices constructed and equipped	Number of offices constructed and equipped	0	2	2	0	0	20M

fish feeds for farmers	No of bags	-	625	625	625	5M
Fish banda constructed	No of fish bandas constructed	-	1	-	-	5M

4.4.4.3 Lands, Housing, Physical Planning and Urban Development Subsector

Vision

A competitive organization in sustainable management of land and the built environment in West Pokot County

Mission

To facilitate efficient land management, access to adequate and affordable housing, social and physical infrastructure for the development of the County

Subsector Development Needs, Priorities and Strategies

The subsector priorities for the plan period 2018-2022 include; fast tracking the preparation of Kapenguria Municipality Integrated Development Plan, Development of a County Urban development control Bill and Construction of an Appropriate Building Technology Centre in Makutano. Other medium term priorities for the sub-sector comprises of: completion of county spatial plan, geo spatial mapping of projects, land adjudication programmes, cadastral surveys of public land, resolution of boundary disputes, preparation of part development plans for public institutions, civic education and public sensitization on land laws and land use policies, town beautification, construction of public toilets, street lighting, maintenances of town roads, and promoting traditional/alternative dispute resolution.

SubSector Priority Programmes

Sub Programme..	Key Outcome/Output	Key Performance Indicators	Planned Targets					Budget
			Year 1	Year 2	Year 3	Year 4	Year 5	
Urban Development	Towns with street lighting installed	No of towns with street lighting	1	1	1	1	1	50M
	Inventory of plots in urban areas undertaken	No of plots identified	250	500	500	400	200	2M
	50Km Road network opened up, tarmacked and maintained	No of Kms of roads maintained	10	10	10	10	10	200M
	Public toilets constructed	No. of public toilets constructed	5	5	6	7	8	31M
	Urban centers beautified	No of trees planted	1,000	2,000	3,000	3,500	4,000	7M
		Number of flower beds established	3	50	50	55	60	5M
	dumpsites developed, operationalized & maintained	No. of dumpsites established	1	1	2	2	3	45M
	Urban drainage system for storm water.	Kms of drainage system for storm water developed	5	5	10	15	15	200M
	Refuse trucks purchased	No of refuse trucks purchased	1	1	1	-	-	45M
	Purchase 1 shovel truck	Shovel truck purchased	1	1	-	-	-	15M
	Fire extinguishers purchased and installed	No of fire extinguishers installed	-	40	10	5	5	5M
	Purchase of fire Engines	No of fire engines purchased	-	1	-	1	100M	
	Fire station Constructed	Fire station fully equipped in place	1	-	-	-	-	10M

	Local Physical Development plans	No of towns planned	2	8	5	5	5	50M
A 10 year Spatial Plan prepared and approved	Spatial plan developed and in use	-	1	-	-	-	-	30M
PDPs prepared	No of Part development plan (pdp)s prepared	15	20	20	20	20	20	47.5M
scheme plans approved	No of schemes plans approved	20	25	30	40	50	50	16.5M

4.4.4.5 Cross-Sectoral Implementation Considerations

Table 28; Agriculture, Rural & Urban Development

Pro-gramme	Sector	Cross-sector Impact	Measures to harness or mitigate the impact
	Education	<ul style="list-style-type: none"> Increased crop production 	<ul style="list-style-type: none"> Carrying out crack down of dropout of school going children
	Health	<ul style="list-style-type: none"> Reducing malnutrition cases 	<ul style="list-style-type: none"> Encouraging diversification of agricultural products
General Economic & Commercial Affairs		<ul style="list-style-type: none"> Boosts economy by increase in total GDP 	<ul style="list-style-type: none"> Stagnates economy during high yields
			<ul style="list-style-type: none"> Carrying out international exhibition on agricultural products to fetch high prices

Public Administration & Inter-governmental Relations.	<ul style="list-style-type: none"> Reduces crimes as the people are engaged in production 	<ul style="list-style-type: none"> Increase in crimes as a result of movement of people from rural to urban 	<ul style="list-style-type: none"> Discouraging idle population by engaging in agricultural production
Energy, Infrastructure & ICT	<ul style="list-style-type: none"> Expansion of road network to reach agricultural places 	<ul style="list-style-type: none"> Skewed economy 	<ul style="list-style-type: none"> Carrying out intensive research to fit all places
Social Protection & Recreation	<ul style="list-style-type: none"> Establishment of recreation fields due to urban growth which tends to population increase. 	<ul style="list-style-type: none"> Urban growth leads to increase in drug abuse 	<ul style="list-style-type: none"> Impose of policies against drug abuse
Environmental Protection, Water & Natural Resources	<ul style="list-style-type: none"> Reducing soil erosion 	<ul style="list-style-type: none"> Clearing of forests to increase land under agriculture 	<ul style="list-style-type: none"> Discouraging of opening of land

4.4.5 Health Sector

The concept of universal health coverage is to ensure all people obtain the health services they need without suffering financial hardship when paying for them. According to WHO, the essential pillars of UHC are: a strong, efficient, well- running health system; a system for financing health services; access to essential medicines and technologies and a sufficient capacity of well –trained, motivated health workers. A healthy population is a key pillar for enhanced economic growth and development. It is also precursor for realization of the social goals for Kenya Vision 2030. The Constitution guarantees the rights to adequate health care to every Kenyan. Against this background, Health Sector in West Pokot County has strategically been positioned to fulfil the expectations of Kenyans through improved health infrastructure countywide, service delivery systems and promoting access to universal health care.

4.4.5.1 Vision

A disease-free Community

4.4.5.2 Mission

To build a well-established progressive, responsive, affordable and sustainable technologically-driven, accessible and client-centered health system for accelerated attainment of highest standards of health for all West Pokot residents.

4.4.5.3 Sector Needs, Priorities and Strategies

The sector priorities over the plan period 2018-2022 include; the elimination of communicable conditions especially diarrheal diseases through

eradication of open defecation through the Community Led Total Sanitation program and strengthening of the preventive and promotive health activities through community strategy. The focus will be on disease prevention and control through community participation and involvement. This will entail health promotion through strategic advocacy, communication and social mobilization, strengthening the referral system and community strategy.

Under curative and rehabilitative health services, focus will be on improving access and quality to universal healthcare at all levels. This will be done through provision of adequate support to all the health system components ranging from health supplies to human resources for health, provision of administrative support and establishment of a robust monitoring and evaluation system.

The enhancement of essential services through the upgrading of the county referral hospital to level 5 and also improvement of the Chepareria, Kacheliba, Kabichibich sub district hospitals and Alale and Makutano hospitals will increase the range and quality of services available to county residents, prevent avoidable deaths, costly referrals and leverage on information technology through telemedicine and use of EMR thereby enhancing efficiency and effectiveness in service delivery. Other key components of the upgrade include targeted trainings and the construction and equipping of ICU and the Renal Unit. The completion, equipping and operationalization of the blood bank will further prevent

eradicating of open defecation through the Community Led Total avoidable morbidity, mortality and referrals.

The sector is also aware of the need to restructure infrastructure investments to target tier 3 facilities i.e. the county hospitals namely Kapenguria County Referral Hospital, Chepareria, Sigor, Kacheliba, Kabichibich Sub district hospitals and Alale and Makutano hospitals. The health sector is also keen to invest in tier 1 or the community level by setting up six (6) community units in each sub county. This should provide a backbone for community health services and a platform for building capacity of community health volunteers and other key resource persons. This investment in the community strategy signals the appreciation of this level of care as a key entry point for program implementation. Furthermore the provision of the monthly stipend will go along way in motivating these CHVs to be more productive. In this regard, an improvement in CHS characterized by a robust, efficient and effective community based health information system, disease surveillance, and hygiene and health promotion activities is being given priority.

Other priorities over the plan period include; Purchase of 8 additional ambulances, recruitment and provision of incentives to specialized health workers, ensuring timely and adequate procurement and distribution of drugs and supporting provision of universal health care by promoting enrolment to NHIF.

4.4.5.4 Health Sector Programmes

Table 29; Programmes for Health Sector

Programme 1 : Preventive and Promotive Health Services								
Objective: To reduce the burden of preventable diseases								
Outcome: A healthy community								
Sub Programme	Key Outcome/Output							
Key Performance Indicators								
Planned Targets								
NHIF/Social Protection	10,000 households supported to access NHIF	No. of households supported to access NHIF	-	5,000	3,000	2,000	-	198M
HIV/AIDS prevention and control	90% of the eligible population tested	Numbers of client tested for HIV	115092	126601	139261	153187	168505	25M
	Reduction of HIV related mortality and new infections	No. of eligible HIV clients on ARVs	2965	3558	4270	5124	6149	10M

4.4.5.5 Cross-Sectoral Implementation Considerations

Table 30; Health Sector

Programme Name	Sector	Cross-Sector Impact	Adverse Impact	Measures to Harness or mitigate the impact
Programme Name	Sector	Synergies		
Water and sanitation	Department of water and Environment	Spread of communicable diseases	Poor nutrition due to poverty	<ul style="list-style-type: none"> Provision of safe water Proper waste disposal Functional sewer systems and timely repair of leakages Enforcement of hygienic laws
Food and Nutrition	Agriculture, social, cultural and Education		High rate of unreported cases of Sexual Gender Based Violence	<ul style="list-style-type: none"> School feeding programs Expand kitchen garden program for affordable local growth foods
Sexual Gender Based Violence	Education, social, culture and law enforcement agencies			<ul style="list-style-type: none"> Gender empowerment Creation of awareness on Sexual Gender Based Violence and available shelters. Empower children on laws rights Linkage of sexual Gender Based Violence survivors to health and legal services Improve on Gender mainstreaming policy guidelines for workplaces
Adolescent and school Health	Education and culture	Social School Health		<ul style="list-style-type: none"> Train students on age appropriate sexual education Screening for Non –Communicable diseases Nutrient supplementation and deworming programs
Infrastructure	Finance , Public works , planning and Roads		Incomplete health projects, in adequate space for services provision, poor road networks hindering ambulance services	<ul style="list-style-type: none"> Renovation and repair, painting Improve road networks especially in informal settlements to enable access to for ambulance services Completion of existing/stalled projects.
Human Resource Health	County public service Board and Finance		Demotivated staff due to delayed promotions and salaries	<ul style="list-style-type: none"> Scheme of service/harmonized remuneration and benefit schemes Promotions and resignation to be implemented or effected Consider management teams for government approved courses-kenya school of Government Recruit health care workers in all cadres considering their need.

Emergency and Referral	Finance and Fire department	Inadequate ambulance services	<ul style="list-style-type: none"> • Set up an emergency response funds. • Improve collaboration with fire and disaster management unit • Strengthen the disaster management unit
County policy , Health Bills and Acts	County Assembly and Legal department	Health Bills and Act completed	<ul style="list-style-type: none"> • Provide technical support • Advocacy to MCAs

4.4.6 Public Administration and Intergovernmental Relations Sector

This sector includes the following sub-sectors: County Public Service, Department of Finance and Economic Planning, Office of the Governor, Ministry of Interior and Coordination of National Government, National Police Service, National Drought Management Authority and the County Assembly. The goals of the Public Administration and Intergovernmental Relations sector are to provide leadership and policy direction in the governance of the county; coordinate and supervise Government affairs; Promote sound public financial and economic management for county development; Promote sound policy formulation, implementation, monitoring and evaluation; and promote efficient and effective human resource management and development for improved public service delivery; promote accountability and efficient utilization of public resources.

4.4.6.1 Sector Vision

A leading sector in public policy formulation, implementation, coordination, supervision and prudent resource management

4.4.6.2 Sector Mission

To provide overall leadership and policy direction in resource mobilization, management and accountability for quality public service delivery

4.4.6.3 Sector /Subsector Development Needs, Priorities and Strategies

The priorities for county peace and security over the plan period include; promoting community policing in the County through nyumba Kumi Initiative, support opening up of more security roads, promoting and supporting the establishment of more water points for animals, establish more police stations/posts and promoting education, promoting climate change adaptation and mitigation programmes to help in reducing resource based conflicts ,creation of peace and reconciliation committees at the grass root level,strengthening community security early warning system,construction of more security posts with adequate personnel and implementation of joint projects with neighbouring communities/counties.

Under county public service management, the priorities for the plan period 2018-2022 include;provision of adequate office space,furniture and office equipment for all its staff,introduce performance management systems, developing a strong, effective and efficient administrative system across the county through procurement of office equipment and staff uniforms, conduct staff education and training for effective service delivery in all county departments, strengthening civic education and promote public participation to achieve an informed citizenry.Other priorities are Development of policies (HR Manual Policy, Code of Regulations, Skills Inventory Framework, Discipline Procedure Manual, Schemes of Service),staff promotion, welfare and motivation, training of county government security personnel, provision of security equipment, vehicles and motorcycles,provision of

ICT equipment, software and ICT staff trainings.

Finance and Economic Planning subsector needs additional technical staffs for procurement and accounts section and trainings to improve staff capacity to enable it deliver on its mandate. There is also need to promote private investments in order to address the challenge of low investment and underdevelopment in the county/Other priorities for the sub-sector during the plan period 2018-2022 include; providing leadership & technical backstopping to county departments in the development of the sectoral plans, ensuring efficient internal resource mobilization , effective and equitable public spending, strengthening internal revenue and internal staff capacity through training and promotions, strengthening monitoring and evaluation through capacity building and implementing the equity pillar of new government Manifesto. The sector priority also include providing leadership in the mainstreaming and implementation of sustainable development goals, climate change adaptation and mitigation measures, gender and persons with disability concerns at the county level.

The strategic direction during the plan period for disaster risk management will include: mainstreaming of disaster risk reduction into county policies, plans, budgets and programs, strengthening institutional framework for disaster management through staff recruitment and capacity building, improving disaster early warning communication , building partnerships with stakeholders, strengthening support to County Steering Groups, county contingency planning and ending drought emergency (EDE) framework in line with MTP III and Sendai Framework.

4.4.6.4 Programmes for Public Administration and Intergovernmental Relations Sector

Table 30; Programmes for Public Administration and Intergovernmental Relations Sector

Sub Pro- gramme	Key Out- come/Out- put	Key perfor- mance Indicators	Year 1	Year 2	Year 3	Year 4	Year 5	Bud- get
			Planned Targets					
Disaster Risk Reduction and Management	Disaster management plan	Approved disaster management plan	- Establish County disaster risk management policy -Carry out county hazard mapping and Risk analysis	-Hold capacity building meeting and worship and seminars	-Hold consultative meetings with stakeholders and communities exposed to hazards	-Engage partner on DRM policy implementation, on DRR, Resilience and livelihood	-Completed all the Risk management programs and evaluation of the programmes	5M

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Community Social Protection	No. of households supported with food and non food aid	Distribute 20,000 bags of maize to those adversely affected by food insecurity	Distribute 15,000 bags of maize to those adversely affected by food insecurity	Distribute 12,000 bags of maize to those adversely affected by food insecurity	Distribute 8,000 bags of maize to those adversely affected by food insecurity	Distribute 5,000 bags of maize to those adversely affected by food insecurity	300M
Disaster Recovery	Rehabilitation and reconstruction	-supported those that their infrastructure are affected by disaster by restoring into normal situation as it was before disaster strike	support 30 recovery activities that have been destroyed complexly or partially by disasters	support 20 recovery activities that have been destroyed complexly or partially by disasters	support 10 recovery activities that have been destroyed complexly or partially by disasters	support 10 recovery activities that have been destroyed complexly or partially by disasters	70M
Firefighting department and equipment	Firefighting equipment bought and operationalized	Ensure equipment is operational	Ensure equipment is operational	Ensure equipment is operational	Ensure equipment is operational	Ensure equipment is operational	50M
Installation of 50 lightning arrestors	No. of installed lightning arrestors	10	10	10	10	10	50M
Disaster preparedness, early warning and mitigation measures	-Provision of adversaries to community on potential hazards that pose threat - capacity build community on both scientific and traditional early warning systems	-Establish county situation hub for emergency information -Establish early warning structure at sub-county and Ward levels	Capacity build 1000 community members on Disaster preparedness and early warning information	Capacity build 800 community members on Disaster preparedness and early warning information	Capacity build 500 community members on Disaster preparedness and early warning information	Capacity build 400 community members on Disaster preparedness and early warning information	20M

Community radio programs aired(weather information)	No. of Community radio programs held, Community radio programs aired(weather information)	monthly radio talks on early and disaster preparedness or early warning information to be aired in FMs programme	Have 12 Disaster management unit, CMDRR and CMDC Radio talks show on early and disaster preparedness or early warning information	Have 10 Disaster management unit, CMDRR and CMDC Radio talks show on early and disaster preparedness or early warning information	Have 5 Disaster management unit, CMDRR and CMDC Radio talks show on early and disaster preparedness or early warning information	Have 3 Disaster management unit, CMDRR and CMDC Radio talks show on early and disaster preparedness or early warning information and evaluation of community preparedness and early warning systems in place	5M
Sensitization forums/barazas (community trainings on DRM)	No. of people(by gender) sensitized on disaster risk reduction	Have 12 public Barazas Sensitization forums on trainings on DRM and climate changes issues	Have 10 public Barazas Sensitization forums on trainings on DRM and climate changes issues	Have 8 public Barazas Sensitization forums on trainings on DRM and climate changes issues	Have 6 public Barazas Sensitization forums on trainings on DRM and climate changes issues	Have 4 public Barazas Sensitization forums on trainings on DRM and climate changes issues	5M
Disaster management Coordination	Facilitate county steering group(CSG) and County Disaster management committee	No. of CSG and CDMC meetings to be conducted and supported by directorate	Facilitate 12 CSG and 8 CDMC meeting in county and sub-county	-Facilitate 10 CSG and 7 CDMC meeting in county and sub-county	-Facilitate 5 CSG and 4 CDMC meeting in county and sub-county	-Facilitate 4 CSG and 4 CDMC meeting in county and sub-county	5M

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Programme; West Pokot Security and Peace building Integrated Development Programme
Objective; To promote peace and coexistence among communities living along the borders of Pokot ,Turkana, marakwet ,Tugen , Sebei and Karamonjaong of Uganda

Outcome; Peaceful coexistence among the border communities

Sub programme	Key Outcome/ Output	Key performance Indicators	Planned Targets				Budget
			Year 1	Year 2	Year 3	Year 4	
Security	Reduced conflict among border communities	Cross border conflict incidence	1.Develop county peace building policy	1.Hold consultative meeting with stakeholders 2.Hold peace building campaigns among warring communities 3.construct schools and health facilities along the border 4.establish markets sites	1.Hold consultative meeting with stakeholders 2.Hold peace building campaigns among warring communities 3.construct schools and health facilities along the border 4.establish markets sites	1.Hold consultative meeting with stakeholders 2.Hold peace building campaigns among warring communities 3.construct schools and health facilities along the border 4.establish markets sites	1.Complete all the infrastructure 2. Carry out end of program evaluations 3.construct schools and health facilities along the border 4. establish markets sites 5.develop Geographical survey for water points 5.Source for resources 6. Carry out Research on best practices and challenges involved in implementing integrated programs

Sub Programme	Key Outcome/Output	Key performance Indicators	Planned Targets				Total Budget
			Year 1	Year 2	Year 3	Year 4	
County Policy, Planning & Research	County Sectoral plans Annual development plans	No. of new sectoral plans developed Approved Annual development plan	3	5	2	-	- 15M

Table 31; Public Administration & Inter-governmental Relations.

Programme	Sector	Cross-sector Impact		Measures to harness or mitigate the impact
		Synergies	Adverse	
	Education	• Provision of bursaries and free primary education	• embezzlement of public funds	• arresting and judging the culprit
	Health	• Improved health services	• Unfair provi-sion of health care services in remote areas	• Equitable distribution of health care facilities

General Economic & Commercial Affairs	<ul style="list-style-type: none"> Provision of conducive environment that facilitates development 		<ul style="list-style-type: none"> Making use of idle and untapped resources.
Energy, Infrastructure & ICT	<ul style="list-style-type: none"> Provision of quality roads. Equitable Distribution of energy 		<ul style="list-style-type: none"> Encouraging establishment of renewable sources of energy i.e solar, biogas
Social Protection & Recreation	<ul style="list-style-type: none"> Promotes unity among communities 	<ul style="list-style-type: none"> Erosion of cultures among communities 	<ul style="list-style-type: none"> Setting up special days for show-casing cultural competition
Agriculture, Rural & Urban Development	<ul style="list-style-type: none"> Provision of security that enhances production 	<ul style="list-style-type: none"> Embezzlement of funds meant for agriculture 	<ul style="list-style-type: none"> Bringing to book the culprits Supporting value addition of the products
Environmental Protection, Water & Natural Resources	<ul style="list-style-type: none"> Sustaining conducive environment 	<ul style="list-style-type: none"> - 	<ul style="list-style-type: none"> Enacting laws to protect environment, water and natural resources

4.4.7 Energy, Infrastructure & ICT Sector

The sub sectors in this sector are: Roads, Transport, Energy, Public Works, Information and Communication Technology. In the Kenya Vision 2030, infrastructure development has been recognized as an enabler for sustained development of the economy and particularly for the six key sectors identified under the economic pillar. This Sector plays a major facilitating role in realization of the key targets under economic pillar.

4.4.7.1 Sector Vision

A first class County in maintenance and construction of roads, bridges, buildings and safe transport systems.

4.4.7.2 Sector Mission.

To provide reliable infrastructure through construction, rehabilitation of roads, bridges and offer quality technical services for sustainable socio-

4.4.7.3 Sector Development Needs, Priorities and Strategies

The strategic direction for the sector during the plan period will include development of a safe and efficient road transport system that facilitates easy mobility of goods, services and people through routine maintenance of existing infrastructure and construction of new roads. The county government will ensure timely provision of technical services to other departments and also operationalize mechanical and transport fund.

4.4.7.4 Programmes for Energy, Infrastructure & ICT

Sector

4.4.7.5 Cross-Sectoral Implementation Considerations

Table 33; Energy, Infrastructure & ICT

Programme	Sector	Cross-sector Impact	Adverse Synergies	Measures to harness or mitigate the impact
	Education	<ul style="list-style-type: none"> Provision of good building facilities to schools Lighting system to schools Provision of IT experts 	<ul style="list-style-type: none"> Increase in internet crimes. 	<ul style="list-style-type: none"> Employment of more IT experts to monitor the internet.
	Health	<ul style="list-style-type: none"> Enhancement of good storage facilities i.e refrigerator Improved operation facilities. Provision of roads to reach dispensaries. 		<ul style="list-style-type: none"> Construction of more dispensaries to ease the congestion
General Economic & Commercial Affairs		<ul style="list-style-type: none"> Street lights has enabled people to work overnight hence boosts the country's economy. 	<ul style="list-style-type: none"> Increased theft cases 	<ul style="list-style-type: none"> Installation of CCTV to man the crimes.
Public Administration & Inter-governmental Relations.		<ul style="list-style-type: none"> Good road networks has enabled government to run its functions effectively 	<ul style="list-style-type: none"> Increased terrorist cases 	<ul style="list-style-type: none"> Provision of street lights
Social Protection & Recreation			<ul style="list-style-type: none"> Increase in cyber cafes crimes. 	<ul style="list-style-type: none"> Monitoring of social sites

Agriculture, Rural & Urban Development	<ul style="list-style-type: none"> Agricultural products fetch good prices due to enhanced transport network Establishment of greenhouses 	<ul style="list-style-type: none"> Over exploitation of resources 	<ul style="list-style-type: none"> Setting of ceiling in amount of goods to be sold.
Environmental Protection, Water & Natural Resources	<ul style="list-style-type: none"> Facilitates mining of resources 	<ul style="list-style-type: none"> Increases exploitation of natural resources i.e forests 	<ul style="list-style-type: none"> Provision of forest wardens

4.4.8 Social Protection, Culture & Recreation Sector

4.4.8.1 Sector Introduction

The mandate of the sector is to carry out formulation, coordination, administration of policy and programs with respect to promotion of Tourism, Culture, Sports, Youth, Social and Children Services functions. The sector has the responsibility to provide an enabling environment for all stakeholders in the sector.

Strategies

The sector needs policy and legislative framework for community service program, sports development, cultural resource management, gender mainstreaming and youth development, additional technical staff and training of new and existing ones. There is also need to develop the sector plan for the department of Tourism, Sports, Youth and Culture.

The sector priorities in the plan period 2018-2022 include: completion and operationalization of the ongoing projects ensuring gender equity in county appointments and promotions is considered, Empowerment of PLWDs, Gender, Youth and Disability Mainstreaming in county policies, programs and projects, marketing women cottage industries products such as Pokot traditional ornaments, bracelets and clothing, develop youth talents through sports and cultural exhibition, document and market the engagements that serves their needs and aspirations in building a better Kenya, increase the contribution of tourism in the development of the county as well as promote women empowerment and culture. substance abuse.

4.4.8.2 Sector Composition

The sector is comprised of Children, Labour, Tourism, Culture, Youth, Gender, Sports and Social Services Subsectors.

4.4.8.3 Vision

To be a leader in nurturing diversity, empowered and responsible youth, inclusive and sustainable development for all

4.4.8.4 Mission

To maximize the full potential of the youth through participatory engagements that serves their needs and aspirations in building a better Kenya, increase the contribution of tourism in the development of the county as well as promote women empowerment and culture.

4.4.8.5 Sector Development Needs, Priorities and

4.4.8.6 Programmes for Social Protection, Culture & Recreation Sector

Table 34; Programmes for Social Protection, Culture & Recreation Sector

Programme 1 : Tourism Development and Promotion.

Objective; To develop new products and diversify source markets.

Outcome; Increased Tourism sector contribution to the County's Socio-Economic Development.

Sub Programme	Key Outcome/Output	Key performance Indicators	Planned Targets					Budget
			Year 1	Year 2	Year 3	Year 4	Year 5	
County Tourism Development	Wildlife protected at Nasolot Game reserve	Percentage of wildlife protected	100	100	100	100	100	20M

4.5 Flagship /County Transformative Projects

These are projects with high impact in terms of employment creation, increasing county competitiveness, and revenue generation. They have been derived from the Kenya Vision 2030 and the county transformative Agenda. Projects cutting across county borders (cross-county and country projects) have also been indicated in this section.

Table 20: Flagship/Transformative Projects

Project Name	Location	Objective	Output /Outcome	Performance indicators	Timeframe	Implementing Agencies	Cost (Ksh.)
Completion of Nasukuta Export abattoir	Chepareria	To contribute to economic growth, wealth creation and development through processing high quality livestock products for local and export markets	-Complete construction of the abattoir -Procure and install slaughter and processing equipment's and refrigerated truck -Installation of electricity and power backups and water supply system	Completion & operationalization of meat export abattoir	2018-2022	Dept'f of Pastoral economy, Development partners	181M
Establish Mango Processing Plant	Lomut/Sigor	Value addition/income generation	Processing plant Constructed & operationalized	Quantities of mango Products	2018-2022	Trade/Coop/Industry	80 M
Establish Milk processing plant	Lelan or Siyoi Ward	To process milk to yoghurt, Ghee, butter and other products	Milk Processing Plant constructed & operationalized	Quantities Dairy Products	2018-2022	Coop/Industry	250 M
Establish Livestock Disease-free zone	County-wide	-To improve livestock productivity and health -To create a sustainable livestock market	-600,000 cattle vaccinated against all diseases per year -1.5 million goats/sheep vaccinated per year -1,200 camels treated per year -500,000 poultry vaccinated per year -5,000 dogs vaccinated per year -2,610,000 doses of vaccines purchased per year	-Quantity of doses procured -No of livestock vaccinated	2018-2022	County and national governments; Vaccine production agencies/suppliers and other partners	600 M

Project Name	Location	Objective	Output /Outcome	Performance Indicators	Timeframe	Implementing Agencies	Cost (Ksh.)
Establishment constituent public university college	Keringet	To improve access to affordable & quality higher education	constituent public university college	No. of students enrolled No. of courses on offer	2018-2022	County Gov't,CUE	500M
Establish 6 Border Peace Schools	Pokot north and Pokot Central	To increase access to education to marginalized areas in the county	Construct 6 low cost, integrated primary and secondary schools at Katikomor, Kanyerus, Ompolion, Akulo, Sabulmoi and Nauyapong	No. of schools constructed and operationalized	2018-2022	County Gov't, Min. of Education, Dev. partners	500M
Limestone Extraction & Processing	Sebit	To add value to limestone /Create employment	Cement plant set up	Tonnes of Cement produced per year Number of jobs created	2018-2022	PPP	200M
Kapenguria Sewerage system	Kapenguria and its environs	To ensure proper liquid waste management	10,000 households connected to sewerage system	No of households connected with water	2018-2022	Department of Water	4 Billion
Oil Exploration & Drilling	Central & North Pokot	Revenue /Employment	Exploration reports/ Rigs	Signed MOUs/ site identification	2019-2021	PPP	500M
Tarmacking of Urban Roads	Kapenguria Municipality, Chepareria town, Ortum town, Kacheliba town	Improved business environment and security	50km of urban roads tarmacked	Number of km tarmacked	2018-2022	Department of Lands & Urban Development, KURA	400M

Project Name	Location	Objective	Output /Outcome	Performance indicators	Timeframe	Implementing Agencies	Cost (Ksh.)
Establish a New County Referral Hospital	Kapenguria	To increase access to affordable, quality healthcare	Increased access to affordable, quality healthcare	New county referral hospital established	2018- 2022	Department of Health & Emergency Services	1.5B
Tarmarking County Strategic Roads	Pokot South /Kapenguria Sub- county	Link farmers / traders to main road	Chepareria -Chepyial road, Marich-Sigor-Lomut-chesegon road Kapenguria-Alale road, Keringet-Tartar road Kapsait- Sekuton Road	No. of Kms of road otarmacked	2018-2022	KENHA,,KER-RA,County govt	4Billion
Installation of street lights	Kapenguria Municipality, Chepareeria, Ortum, Kachelia, Sigor, Alale, Kabichibich	Improved business environment and security	No. of functional street lights in place	Improved business environment	2018-2022	Department of Lands & Urban development	10,000,000
County Solid Waste Management System	All urban centres	Clean and healthy environment	Purchase land Construct, operationalize & maintain county dumpsite	Healthy population and environment	2018-2022	Department of Lands & Urban Development	10,000,000
Investment in new housing units	In all sub-counties	Create better housing condition	60 new houses built annually	Motivated staff and improved revenue.	2018-2022	Housing department and Public works.	300M

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Project Name	Location	Objective	Output /Outcome	Performance indicators	Timeframe	Implementing Agencies	Cost (Ksh.)
Establish industrial park/ Special Economic Zone	Ortum	To provide necessary infrastructural facilities to entrepreneurs/ investor	Industrial Park established	Number of enterprises started	2018-2022	Industry/ investor	20M
Development of Information Communication Technology infrastructure	County HQ	Improve services delivery, Access to information	Equipping and furnishing youth empowerment centres to create platform for youths and women get basic ICT skills.	Installed ICT infrastructure	2018-2022	County Government, MOICT, IC-TA and Service providers	40M
Automation of County Services	County HQ offices		Establishment of County Data Center	Trained staff on ICT			

Project Name	Location	Objective	Output /Outcome	Performance indicators	Timeframe	Implementing Agencies	Cost (Ksh.)
Develop Nasolot Game Reserve	Sekerr	Enhance tourist attraction -Conserve wildlife and environment -Create Employment	-Infrastructure development, -Educational tours, & Exposure tours, -Training of rangers, -Establish sanctuaries in the park, -Rangelands rehabilitation & management	Operational/functional reserve	2018-2022	GoK, County Government of WP Private Partners	100M
Develop community conservancies	Lomut, Masol, Sekerr & Enduw,Kasei wards	Promote peace & security, Conserve fauna and flora, Create employment, Safeguard historical migratory routes & wildlife dispersal areas,	Masol ,Onwa ,Nguruch, Kositei,Ombolion and POMA community conservancies	Operational/functional community conservancies	2018-2022	GoK, County Government, Development partners, PPP, Community	150M
Construction of Modern Sports Stadium	Kapenguria	-To promote sports disciplines	-Sports disciplines promoted	Modern stadium established	2018-2022	County Government of WP	200M
Honey Processing	Kodich Alale, Masol Chepkopegh	Konyao Increased income for farmers/Create employment	Processing plant operationalized	Tonnes of Honey processed and sold	2018-2022	Coop/Industry	22 M

Project Name	Location	Objective	Output /Outcome	Performance indicators	Timeframe	Implementing Agencies	Cost (Ksh.)
Establishment/Expansion of Irrigation projects	Central,West & North Pokot	Increase food security and household income	Put 1,750 hectares of land under irrigation	hectares of land under irrigation	2018-2022	Department of Agriculture & irrigation/Nat. Govt	100M
Sunflower processing plant	Keringet Mnagei ward	Increased production, marketing and job creation by 2019	sunflower functional plants	Functional processing	Functional plant	2018-2022	County gov't
Promotion of Cash crops development :coffee, pyrethrum, Tea, Sisal, cotton and Aloe vera	12 wards	Increased acreage and various farmers growing cash crops both in high altitude and lower altitude areas by 2020 and improve	-100Ha coffee planted -2000Ha of Pyrethrum established -120Ha of Tea established -220Ha sisal established planted -300Ha of cotton planted -50Ha of Aloe vera established	Acreage cash crops No. of farmers trained on different technologies, good agricultural practices and value addition	under 2018-2022	County specific and national parastatals dealing with specific crops	350 M
Agriculture Inputs,- Fertilizer, Seed and Seedling subsidy	20 wards	To improve access to farm inputs, Fertilizer, Seed and seedlings by farmers,	Improved productivity and access to farm inputs by farmers,	Number of Tons of subsidized inputs.	2018-2022	County, national programs and partners	200M

Project Name	Location	Objective	Output /Outcome	Performance indicators	Timeframe	Implementing Agencies	Cost (Ksh.)
Muruny-Siyoi Extension Water Project	Chepareria, Kacheliba, Cheptuya and Serewo	To ensure safe and clean water to the residents	7,000 households	No of households connected with water	2018-2022	Department of Water	1 Billion
Muruny-Chepareria Water Project	Kipkomo	To ensure safe and clean water to Chepareria Township	3,000 households	No of households connected with water	2018-2022	Department of Water	80M
Kacheliba Supply	Water Kacheliba	To ensure safe and clean water to Kacheliba town and its environments	1,250 households	No of households connected with water	2018-2022	Department of Water	100 M
County Tree Planting /Reforestation and Afforestation	County wide	To increase tree cover from 3.9% to 7% by 2022 and 15% by 2030	50,000 Hectares of land planted with trees	No. of ha. of land reforested/ Planted	2018-2022	Department Forestry	600M

CHAPTER FIVE: IMPLEMENTATION FRAMEWORK

5.1 Introduction

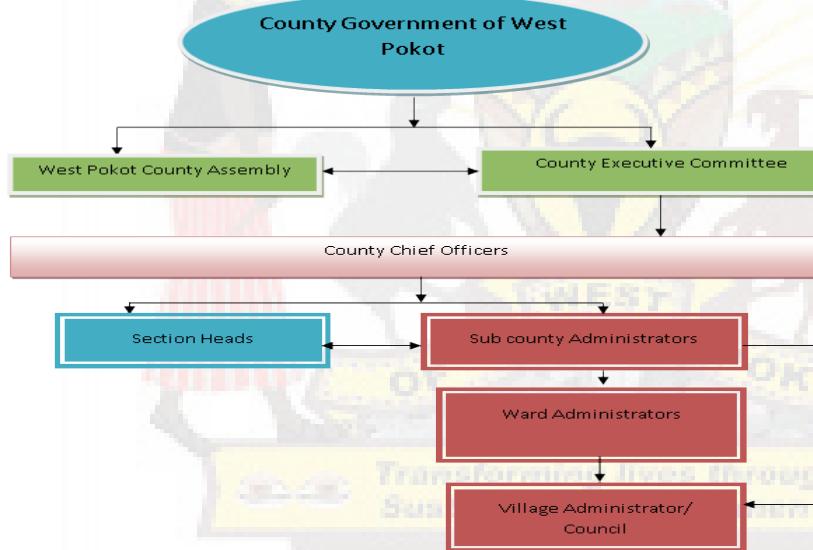

This chapter identifies and examines the various institutions and structures put in place to facilitate implementation of this plan, resource requirement and mobilization strategies, estimated resources gap and measures for addressing it. It also seeks to inform and guide the County government efforts towards sustainable financing of its programmes and operations. The chapter also contains a snapshot of the resources that are available for capital projects in order to attain citizen socioeconomic transformation. It also outlines the strategies for raising revenue and their projections for the plan period. It reviews

funding sources, provides guiding principles, and proposes strategies for mobilizing resources to support the implementation of the integrated Plan and the ultimate fulfillment of its vision and mission.

5.2 Institutional Framework

Article 185 of the Constitution 2010 states that the County Government shall consist of a County Assembly and a County Executive. The roles of these institutions are critical to the implementation of this plan. The organizational structure for West Pokot county government is shown below;

Figure 4: County Organogram

5.2.1 The County Executive Committee

The County Executive Committee has been established vide Article 176 (1) of the Constitution 2010. The County Executive comprise of the Governor and the County Executive Members, will be providing a lead role in shaping the strategies and policies to be implemented in a yearly basis.

The County government has the following ten executive offices; Education and Technical Training; Agriculture, Irrigation and Pastoral Economy; Finance and Economic Planning; Public Service, ICT & Decentralized Units; Water, Environment and Natural resources; Youths, Sports, Tourism, Gender and Social Services; Trade, Industrialization, Investments & Cooperative Development; Health, Sanitation and Emergency Services; Roads, Public Works, Transport and Infrastructure; and Lands, Housing, Physical Planning and Urban Development.

In summary, the County Executive role in the Plan implementation will be to;

1. provide leadership in the county's development agenda in setting the overall goal, mission and vision of the County;
2. Facilitate the coordination and alignment of integrated development plan with other county plans, strategies and programmes of national and county governments;
3. monitor the process of planning, formulation, adoption and review of the integrated development plan by relevant county units;
4. facilitate approval of the county plan and submit it to the county assembly for approval;
5. supervise the implementation,

administration and delivery of services in the county and all decentralized units and agencies in the county as per the dictates of the plan;

6. submit to the county assembly an annual report on the implementation status of the county plan;
7. Take appropriate steps to resolve any disputes or differences in connection with the planning, formulation, adoption or review of an integrated development plan.

5.2.2 The County Assembly

In line with the Constitution and the County Government Act, the County Assembly will be responsible for approval of the Plan, monitoring its implementation and funding through its oversight role to the County Executive as well as approving the county budget/expenditures. The County Assembly also has a role in approving the borrowing and overall debt management that is supposed to finance any budget deficit for development programmes. Therefore, this organ is crucial in ensuring that the executive is effective and resources are used efficiently.

5.2.3 Chief Officers

Chief Officers have delegated authority from county treasury as accounting officers. They are responsible for preparing plans for their respective entities as well as prepare estimates of expenditure of the entity in conformity with the plans. They are also in charge of implementation of the same plans.

5.2.4 County Budget and Economic Forum

This forum act as a think tank for economic and budget policy formulation. It is composed of County Executive committee and other professionals from the community. It shall provide means for the:

- a) Preparation of county plans, the County Fiscal Strategy Paper and the Budget Review and Outlook Paper for the county; and
- b) Matters relating to budgeting, the economy and financial management at the county level.

5.2.5 Civil society

These are civilian pressure groups that ensure that public funds are utilized in an efficient and effective manner. They also act as a watchdog during the implementation process thus ensuring that projects and programs are implemented in the right place and at the right time. Civil society will also play an important role in the Plan implementation through capacity building the community members to understand their rights through civic education program.

5.2.6 Decentralized Units

The administration of the county government has been decentralized to cover the following areas: Kapenguria Municipality, Sub-counties; Wards and Villages. Each of the decentralized

unit shall be headed by an administrator. The sub county administrator shall be responsible for the coordination, management and supervision of the general administrative functions of the sub county including preparation of development plans and monitoring its implementation. The Town administrator and ward administrators and village administrators shall carry out the same functions at town, ward and village levels.

The village will be the lowest level of decentralizing the county activities. Each village will establish a village council which will coordinate the participation of the respective village in governance of the county, monitor implementation of policies at village level and advising the ward as well as sub county administrator in matters relating to that village.

To facilitate decentralization, democracy and good governance in the county, the following sub-structures have been put in place to ensure popular participation in the development and county governance processes. The table below provides detailed information on the sub structures;

Table 36; Decentralized Units

Name of Sub county	Name of Headquarters (Sub-county)	Wards	Name of Headquarters (Ward)	No. of Villages
Kapenguria Sub county	Kapenguria	Riwo	Kitelakapel	6

Total		20		103

5.2.7 Inter-Governmental Relationships and County Intergovernmental Forum

The national government and county government has been accorded a framework for consultation and cooperation. Intergovernmental relations Act calls for respect for the functional and institutional integrity of the two levels of Government as well as constitutional status of the two levels and the institutions of government established at either level of government.

This Act also calls for promotion of equality and equity in service delivery, consultation and cooperation and promotion of accountability in decision making. The criteria for transferring powers, functions and competencies between the two levels of governments have also been provided by this Act. Dispute resolution mechanisms are also provided.

This county intergovernmental forum will strive to harmonize all the services rendered in the county by the two levels of governments. It will also coordinate development activities and intergovernmental functions in the county.

5.2.8 County Development Coordinating Forum

This forum will be made up of all the development agencies working within the county. These include International and National NGOs, CBOs, civil societies, private sector and other development partners that are active in the county. This forum will be meeting four times a year in order to spearhead the following functions;

- To harmonize plans and development projects and programs.
- Share information on the existing development partners working within the county.
- Explore ways of strengthening partnerships and promoting public participation in the decision making process.
- Exploring ways of funding and possibilities of cofounding of projects and programs.

5.2.9 County Planning Unit

This will be the central point in charge of coordinating development projects and programs at the county level. The unit will perform the following functions;

- Coordinate preparation of CIDP and sectoral plan preparation;
- Ensure there is proper linkage between policy, planning and budgeting.
- Review of the CIDP progress including mid-term review;
- Integrating National plans and other national goals into the county plans;
- Building a spatial database system for projects/programs within the county using GIS.
- Collection, collation, storage and updating of data and information suitable for the planning process.
- Prepare and market investment profiles to different stakeholders.

5.2.10 Monitoring and Evaluation Unit

Whereas monitoring is a process of collecting, analysing, and reporting data on a project or programme's inputs, activities, outputs, outcomes and impacts as well as external factors to track whether actual investment programme results are being achieved, evaluation is a systematic and objective assessment of an ongoing or completed project, programme or policy, its design, implementation and results to determine the relevance and fulfilment of objectives, efficiency, effectiveness, impact and sustainability.

Monitoring aims to provide managers, decision makers and other stakeholders with regular feedback on progress in implementation of activities specified in the development plans. Evaluation informs whether project/programme activities are moving toward, or away from project/programme objective or management goals, and why. It provides lessons learnt and recommendations for future improvement.

Monitoring and Evaluation thus helps in providing data on program progress and effectiveness, helps keep the implementation process on track and identify and resolve implementation problems of the CIDP.

5.2.11 Developmental Partners/Agencies

The county has in the past years enjoyed assistance from government, non-governmental, multilateral and bilateral organization/agencies in various ways. Some of the key organizations in the county include Community Development Trust Fund that is funding social infrastructural facilities that is, ACTED, ACF, World Vision, SIKOM, Action Aid, Red cross, CDF, banks and MFIs, KVDA, NACC etc. This poses a challenge of coordination which shall be addressed by the forums like county projects committee, intergovernmental forum, county development

coordinating forum and county planning unit.

5.3 Amendment of the Plan

The County Government Act (2012) outlines steps to be taken in order to amend this Plan. The proposal to amend the Plan shall be undertaken by the County Executive committee by a resolution. The amendment will then be subjected to the County Assembly for approval or rejection. A proposal to emend the Plan will be supported by a memorandum explaining the reasons for the proposal. In amending the Plan, the county governments as well as urban centres to be affected by the proposal, shall be consulted. For the amendment to be considered by the county assembly, all the members will have been given adequate notice. The proposed amendment will also be published for public comment for a period not less than three weeks. This is to allow the public an opportunity to provide input on the said proposal.

5.4 The Resource Mobilization Framework

In order to implement the Plan effectively, a robust framework for resource mobilization is needed. There is need for the county government to diversify its resource base. The diversification should consider various types of investments, donor sources and conditions they attach to the funding so as to reduce the risk of losing funding. This plan lists several resource mobilization strategies, ranging from long-term, short term, new and potential revenue sources and donors that could potentially enhance funding to the county government priorities.

5.4.1 Sources of Revenue for the County

The following sources will provide the basis for funding the county development programmes as specified in this plan;

Equitable Share

This shall be the main source of revenue for the

county government of West Pokot for financing both recurrent and development expenditure. It is the equitable share of the revenue raised nationally that is allocated to county governments. It is expected that Ksh 30.2 billion revenue will be realized over the plan period from this allocation.

Equalization fund

This fund is allocated to specific counties to improve the basic infrastructure services in those areas and regions categorized as marginalized. It finances basic services including water, roads, health facilities and electricity to marginalized areas to the extent necessary to bring the quality of those services in those areas to the level generally enjoyed by the rest of the nation. This will fund a significant proportion of the identified priority projects. This fund will generate an estimate of Ksh 1.5 billion over the plan period for project financing.

Internal Revenue and Investments

Internal revenue is all money derived by or on behalf of the county government from levies, rates, fees, charges or any other source as authorized by the Constitution or an Act of Parliament. The county government will expand its revenue base by sealing existing leakages and loopholes in the collection and administration of internal revenue, revenue automation, strengthening enforcement unit and collection of land rates.

It will also explore investments in housing, tourism, mining, agriculture and livestock subsectors. The county will also boost road infrastructure, provide an enabling business environment to improve trade and economic integration as an indirect means of boosting revenue generation for the county.

The county government will also promote private investments by providing an enabling environment. This will accelerate socioeconomic development and boost revenue generation. A

revenue forecast of Ksh 779 million is expected and the revenue generated would support priority programmes and projects identified for implementation over the plan period.

Borrowings Guaranteed by the National Government

The county government will take loans within and outside Kenya mainly to finance capital projects. This will be done with the approval of the County Assembly and guarantees from the national government. While raising these loans either for cash management purposes or for project financing, it will ensure that the loans, the terms and conditions for the loan are set out in writing and are in accordance with; Article 212 of the Constitution, Sections 58 and 142 of the public finance management act (2012), the fiscal responsibility principles and the financial objectives of the county government set out in its most recent County Fiscal Strategy Paper and the debt management strategy of the county government over the medium term.

In borrowing money, the county government will also ensure that its financing needs and payment obligations are met at the lowest possible cost in the market that is consistent with a prudent degree of risk, while ensuring that the overall level of public debt is sustainable.

Development Partners and Donor Support

This comprise voluntary contributions/grants to finance the priority projects and programmes of West Pokot County by governments, UN Agencies, Multi-Donor Trust Funds, Inter-Governmental Organizations, International Financial Institutions (IFIs) and private donors, including private sector entities and foundations. Funds received in the form of grants or donations from development partners/donors will only be spent in accordance with Articles 221 and 223 of the Constitution. Regulations approved by Parliament provides for the administration,

control and management of grants, including;

- a) Procedures to ensure that grants are spent on the basis of the integrated national development plan;
- b) Procedures for the allocation and disbursement of the grants
- c) Requiring that grants be used only to finance programmes within the integrated development plan;
- d) The publication of transparent criteria for the allocation of grants;
- e) Requiring specific terms and conditions in agreements to which grant recipients are subjected;
- f) Procedures for the budgeting, financial management, accounting and reporting of grants by grants recipients;
- g) Procedures under which a third party may be authorized to receive, control or pay public money as a grant; and
- h) Measures to ensure that a third party authorized to receive control or pay public money as a grant, or responsible for any other aspect of administration of a grant, is subject to the same obligations as a public officer.

The county government will support its service departments on proposal development initiatives with the aim of securing development support from donors. It will also ensure public participation, transparency and accountability in the utilization of donor funds.

Public Private Partnerships

This is an arrangement between a contracting authority (county government) and a private party under which a private party

- a) Undertakes to perform a public function or provide a service on behalf of the contracting authority;
- b) Receives a benefit for performing a

public function by way of-

- Compensation from a public fund;
- Charges or fees collected by the private party from users or consumers of a service provided to them; or
- A combination of such compensation and such charges or fees; and
- Is generally liable for risks arising from the performance of the function in accordance with the terms of the project agreement

Public private partnerships provide for the participation of the private sector in the financing, construction, development, operation, or maintenance of capital intensive infrastructure or development projects of the government through concessions and other contractual arrangements. Particular interest will be put on Build and Transfer (BoT) model where the County will build infrastructural projects and transfer the running of the institutions to other interested parties but within some agreed principles and agreements.

Other National Government's Devolved Funds

This includes the constituency development fund, social protection fund, women fund, HIV/AIDS fund, youth fund, uwezo fund among others. These funds will finance a significant proportion of the priority projects identified for implementation. They will also finance economic empowerment group projects. All these grants will play an important role in socio economic empowerment of the community.

Corporate Social Responsibility

Corporate companies will continue to offer support in the areas of health, education, environment, entrepreneurship, water and sanitation, welfare and sports. The county government believes corporate institutions in west Pokot and other areas will continue to be a caring partner for all our communities, and at branch levels this will be exhibited through their support for a number of local needy institutions, school events, charity walks and sponsorship towards deserving causes.

To implement this plan, the total amount required as per each sector is shown in the table below;

5.4.2 Revenue and Expenditure Forecasts

The projected revenue is expected to grow from Kshs 25.7 Billion in the period 2013-2017 to 42.1 Billion in plan period 2018-2022. At least 30 per cent of these projections shall be used for capital projects.

Table 37: County Revenue Projections

Type of Revenue	2018/19	2019/20	2020/21	2021/22	2022/23	Total
Internal Revenue	122,370,188.60	134,607,207.46	148,067,928.21	170,278,117.44	204,333,740.92	779,657,182.63
Equitable Share	5,120,712,000.00	5,530,368,960.00	5,972,798,476.80	6,510,350,339.71	7,096,281,870.29	30,230,511,646.80
Conditional Grants	235,324,840.57	242,384,585.79	254,503,815.08	279,954,196.58	321,947,326.07	1,334,114,764.09
Equalization Fund	250,325,695.00	270,351,750.60	291,979,890.65	315,338,281.90	346,872,110.09	1,474,867,728.24

Development Partners	150,000,000.00	195,050,890	252,900,500	300,000,100	519,069,720	1,417,021,210.00
National Gov't De-centralized Funds	1,125,235,080.00	1,181,496,834	1,299,646,517	1,494,593,495	1,569,323,170	6,670,295,096.17
Other Sources (Borrowings)	0	0	34,980,000	50,000,000	59,890,050	144,870,050.00
Total	7,003,967,804.17	7,554,260,227.85	8,254,877,128.14	9,120,514,530.64	10,117,717,987.13	42,051,337,677.93

The summary of projected budget by sector is provided in table 38 below;

Table 38: Summary of Proposed Budget by Sector

Sector	Compensation to Employees	Capital Formation
Agriculture, Rural and Urban Development sector	1,081,785,793.20	3.56B
Energy, infrastructure and ICT sector	301,824,723.80	8.61B
General Economic, Commercial and Labour Affairs sector	1,304,260,031.00	3.11B
Health Sector	5,083,313,784.00	2.67B
Education Sector	1,061,019,232.00	5.26B
Public Administration and Intergovernmental Relations Sector	4,381,205,822.54	1.13B
Social Protection, Culture and Recreation Sector	91,681,878.75	1.77B
Environmental Protection, Water and Natural Resources Sector	1,910,478,075.00	7.75B
Total	15,215,569,339.29	33.88B

5.4.3 Estimated Resource Gap and Measures of Addressing It

Over the plan period, the county is expected to spend Kshs 30 billion from the county equitable share, 1.3 billion from conditional allocations, Kshs 779 million from internal revenue, Kshs 1.5 billion from equalization fund and an estimated Ksh 144.8million from other sources.

The total projected resource requirement to implement the plan is KShs. 49.18 Billion. The resource gap is estimated at Ksh. 7.1 Billion.

To finance the deficit, other development partners will be rallied to support the implementation of some of the development programmes and projects in the Plan. The following priorities will be pursued by the county government during the plan period to support mobilization of external resources:

- Develop county external resource mobilization policy framework to strengthen coordination of donor funding in the county;
- Develop county resource mobilization strategy
- Build the capacity of county departments in proposal development for funding; and
- Carry out donor mapping and strengthen monitoring, evaluation, accounting and reporting of donor funds.

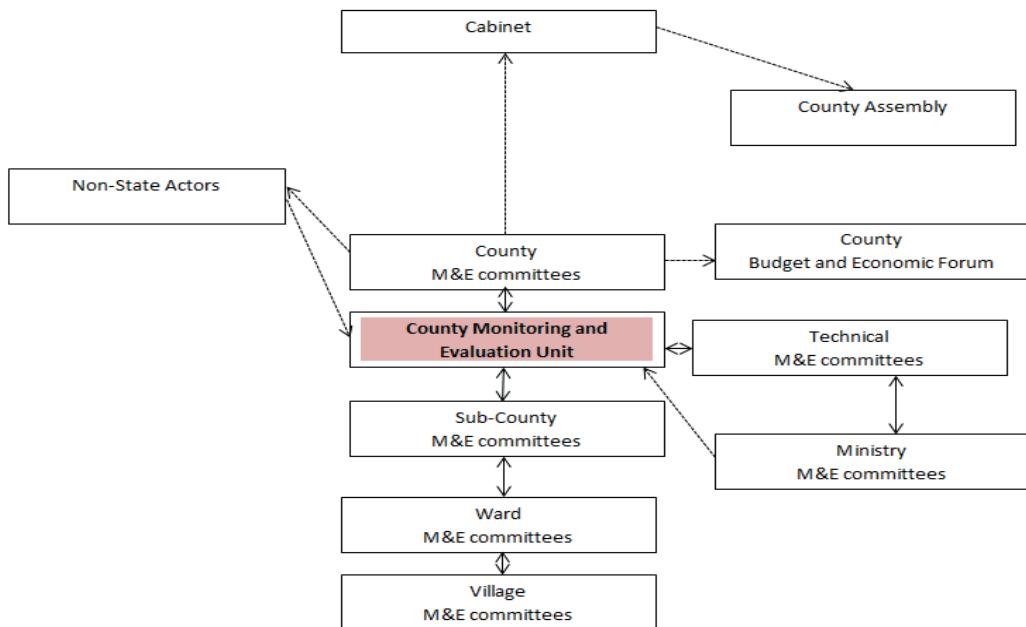

CHAPTER SIX: MONITORING AND EVALUATION FRAMEWORK

6.1 Introduction

This chapter seeks to outline the Monitoring and Evaluation institutional arrangements that will track and report on CIDP implementation progress. The section describes county monitoring and evaluation structure, data collection analysis, reporting and information sharing.

6.2 County Monitoring and Evaluation System

Monitoring and evaluating performance is a key element of CIDP implementation. The County Integrated Monitoring and Evaluation System (CIMES) will provide the guidelines to monitor the implementation of the identified priority projects and programmes. The following organogram shows the organisation for M&E framework at county level;

The County framework and procedures on Monitoring and Evaluation shall apply to all programmes and projects supported by the County Government, non-state actors and the National government projects implemented within the county. The County Monitoring and Evaluation System will feed into the National Integrated Monitoring and Evaluation (NIMES) to track the national goals and Vision.

The county M&E framework establishes six (6) M&E committees for proper functioning of M&E at all level in the County administrative structures. The following are the committees which will make the system operational;

County M&E Committee (CoMEC);

This Committee shall be chaired by Chief Officer for Economic Planning. Members shall be the Chief Officers, representatives from national government and Non-governmental actors at the county

level. The M&E unit shall provide secretariat.

Technical Oversight Committee (TOC);

This committee shall be Co- chaired by; Chief Officer, Economic Planning and County Commissioner. Members comprise of County Directors for County government Departments, Heads of Departments from the National Government at the county level and one representative from the Non State Actors. The M&E unit shall provide secretariat.

Ministerial M&E Committees (MMEC);

All the county departments shall have M&E Committee that will spearhead M&E activities within the department. The Committee will be chaired by Chief Officer .Members are directors within the department, department sub-county heads, national government directors and non-state actors' representatives in the sector.

Sub County M&E Committee (SMEC);

Sub- County M&E committees shall be Co-Chaired by Sub-County Administrator and Deputy County Commissioner .Membership shall comprise of all Sub-County Departmental Heads, ward administrators and non- state actors operating within the sub-county

Ward M&E Committee (WMEC);

The committee shall be Co-Chaired by Ward Administrator, and Assistant County Commissioner. Members comprise of all departmental officers in the Ward, village administrator, Chiefs and assistant chief and non- state actors.

Village M&E Committee (VMEC);

The committee shall be chaired by village administrator and members will comprise all Departmental Officers in the village, assistant chief and Non- state actors operating within the village.

The M&E committee at each level shall ensure continuous tracking of policies, programmes and projects and ensure accurate flow of information on implementation progress to inform decision making. The county M&E unit will take a lead role in coordinating the county M&E committees and ensuring for regular monitoring and reporting during the implementation period.

6.3 Data collection, Analysis, and Reporting

Monitoring and evaluation will be done using the expected outcomes, indicators, and targets for gauging performance instruments outlined inTable 39.Data will be collected and analysed on the progress of projects/programmes implementation of CIDP in coordination of county M&E unit and County M&E committees, data collection instruments will be developed to capture the outputs and outcomes indicated in the implementation framework.

The plan will be subjected to two evaluations; Mid-term evaluation and review and final evaluation. The Mid-term evaluation and review will be conducted at the third year of implementation; to assess how the plan is meeting its objectives and implementation timelines, identify and document key lessons learnt and best practices that can be adopted and also to give recommendation on ways of addressing identified gaps and advise on possible areas to be changed for the remaining Plan period. Final evaluation will be conducted at the end of the project to establish the extent to which the CIDP has realized the planned objectives and expected results outcomes.

Reporting

Reporting progress of implementation will be critical in adjusting strategic directions and measuring performance. Progress reports will be made on quarterly basis. Continuous monitoring will be undertaken and county Quarterly and

Annual progress reports will be produced. This will assess the implementation progress and enable to identify and take necessary action to address emerging challenges

The report will outline projected targets, achievements, and challenges. The report will be prepared by County Monitoring and evaluation unit in collaboration with M&E committee at all levels, which will be submitted to county M&E committee for consideration and adoption by county executive.

Information sharing and reporting will be key in assessing implementation of CIDP. Various M&E committees will be meeting quarterly to share progress implementation and report emerging challenges. The validated reports adopted by the executives will be submitted to County Assembly to inform progress on CountyCIDP implementation. The adopted reports on implementation status will be made available quarterly and annually through various dissemination forums and through the county website.

6.4 M&E Outcome Indicators

This section provides the monitoring and evaluation of outcome Indicators by sector. This will allow implementers and decision-makers to assess progress towards the achievement of county development priorities.

Table 39: Summary of M&E Outcome Indicators

Sector	Programme	Outcome indicators	Base-line	Source of Data	Re-reporting Responsibility	Situation in 2018	Mid-term Target (2020)	End-term Target (2022)
Environmental Protection, Water & Natural Resources	Water Resources Management	No. of households with access to piped water	8,910	Departmental annual Report	Department of Water	8,910	9,110	12,910
		No. of households with access to a clean, safe and reliable source of drinking water	93,240	Departmental annual Report	Department of Water	93,240	105,240	130,240
		No. of households connected to sewerage system	0	Departmental annual Report	Department of Water	0	2,200	5,000
	Forest Conservation and Management	Percentage land area covered by forests	3.8	Departmental annual Report	Department of Water	3.8	5	10

		No. of Trees seedlings planted in County forests	0	Departmental annual Report	Department of Water	0	3,500,000	7,000,000
		No. of Springs Conserved and protected	0	Departmental annual Report	Department of Water	0	20	40
	Land Reclamation	Acreage of land reclaimed under crop ,trees, and pasture production(ha)	-	Departmental annual Report	Department of Water	-	100	200
Education	Early Childhood Development Education	Enrolment	77,000	Departmental monthly report	Department of Education	77,000	85,000	90,000

ANNEXES

ANNEX I: SECTOR PROJECTS DERIVED FROM PROGRAMMES

Sector: Education

Sub-sector: Education and Technical Training

Project Name/location	Objective	Target	Key Description of Activities	Cost (Kshs.)	Source of funding	Time-frame	Implementing Agency	Remark
Completion of Education Block building	To provide adequate offices for education staff	Completion of Ongoing Works Equipping	Completion of ongoing works	35,000,000	County Government of West Pokot	2018-2022	Department of Education and Technical Training	Ongoing
Construction Renovation / rehabilitation of Ortum VTC (Hostel and workshop)	-To improve the physical image of the VTC	Completion of the renovation works	-Preparation of BQs -Renovation works	4,000,000.00	County Government of West Pokot	2018-2022	Department of Education and Technical Training	New
Renovation / rehabilitation of Chepareria VTC (Kitchen and CJ workshop)	-To improve the physical image of the VTC	Completion of the renovation works	-Preparation of BQs -Renovation works	2,000,000.00	County Government of West Pokot	2018-2022	Department of Education and Technical Training	New
Renovation / rehabilitation of Sigor VTC (Hostel and Toilets)	-To improve the physical image of the VTC	Completion of the renovation works	-Preparation of BQs -Renovation works	2,500,000.00	County Government of West Pokot	2018-2022	Department of Education and Technical Training	New
Completion / Construction of stalled 3-Twin workshop block at Kodich VTC	-To improve the physical image of the VTC and hence increase access, retention and completion rates	Completion / Construction of the renovation works	-Preparation of BQs -Renovation works	3,000,000.00	County Government of West Pokot	2018-2022	Department of Education and Technical Training	New

Construction of a multi-purpose hall at Kapenguria VTC (Dining hall and Kitchen)	-To improve the physical image of the VTC and hence increase access, retention and completion rates	Construction and Completion of the multi-purpose hall	-Preparation of BQs -Construction works	4,049,000.00	County Government of West Pokot	2018-2022	Department of Education and Technical Training	New
Construction of a girls hostel at Sina VTC	-To improve the physical image of the VTC and hence increase access, retention and completion rates	Construction and Completion of the girls' hostel	-Preparation of BQs -Construction works	2,000,071.00	County Government of West Pokot	2018-2022	Department of Education and Technical Training	New
Upgrading of electricity power supply from single phase to 3-phase supply	To provide adequate electric power supply to run heavy machinery and equipment for effective training	Upgrade power supply in 3 No. VTCs (Kapenguria, Chepareria, and Ortum)	-Preparation of BQs -Procurement and award of project works -Supervision of works	4,000,000.00	County Government of West Pokot	2018-2022	Department of Education and Technical Training	New
Construction of Alale VTC (Admin. Block and three classrooms)	-To improve the physical image of the VTC and hence increase access, retention and completion rates	Construction and Completion of Alale VTC	-Preparation of BQs -Construction works	4,000,000.00	County Government of West Pokot	2018-2022	Department of Education and Technical Training	New
Construction of Endugh VTC (Admin. Block and three classrooms)	-To improve the physical image of the VTC and hence increase access, retention and completion rates	Construction and Completion of Endugh VTC	-Preparation of BQs -Construction works	4,000,000.00	County Government of West Pokot	2018-2022	Department of Education and Technical Training	New
Construction of Totum VTC (Admin. Block and three classrooms)	-To improve the physical image of the VTC and hence increase access, retention and completion rates	Construction and Completion of Totum VTC	-Preparation of BQs -Construction works	4,000,000.00	County Government of West Pokot	2018-2022	Department of Education and Technical Training	New

Project ID		Objective	Target	Key Description of Activities	Cost (Kshs.)	Source of funding	Timeframe	Implementing Agency	Remark
Project Name	Project Location (Ward)								
DRILLING, EQUIPPING, REPAIR AND UPGRADE OF BOREHOLES									
Water Resource mapping	County-wide	To guide in new project allocation	All bore-holes, sand dams, water pans, gravity schemes	Carry out GPS location and produce an inventory map	5,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department	
Management, operations and Maintenance of new and existing water systems	County-wide	To ensure sustainability of water project	100 Water management committees, 10 staffs	Carry out training to community management committees on issues affecting sustainability Carry out staff training on use of modern survey and design equipment	10,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department	
Construction of Office Block	County and Sub-Country HQS	To ensure work efficiency of the staff	All sub-counties	Carry out design, tendering and construction	100,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department	
GRAVITY SCHEMES									

					2018-2022	Water Depart- ment
					National/ County Govt/ CDF, Donors NGOs/ FBOs	
Rehabilitation of Kacheliba Water Project	Suam	To supply the residents with safe, clean and reliable drinking water	5,000 households	Drill 2 boreholes, Equipping of borehole with electricity mains, pipeline extension and repairs, minor rehabilitation of existing tanks and construction of 3 more water kiosks	10,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs
Lopirichich gravity water	Alale	To supply the community with clean and reliable drinking water	50 house-holds	Survey, design and construction of intake, pipeline and tanks	5,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs
Munarer, Annachar gravity water	Alale	To supply the community with clean and reliable drinking water	60 house-holds	Survey, design and construction of intake, pipeline and tanks	4,500,000	National/ County Govt/ CDF, Donors NGOs/ FBOs
Kochomil water supply	Alale	To supply the community with clean and reliable drinking water	35 house-holds	Survey, design and construction of intake, pipeline and tanks	4,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs
Lengorok-Oron water supply	Alale	To supply the community with clean and reliable drinking water	50 house-holds	Survey, design and construction of intake, pipeline and tanks	4,200,000	National/ County Govt/ CDF, Donors NGOs/ FBOs

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Chepluch gravity water	Alale	To supply the community with clean and reliable drinking water	50 households	Survey, design and construction of intake, pipeline and tanks	5,000,0000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Rurupogoh-Kod-ich-Konyao	Alale	To supply the community with clean and reliable drinking water	500 households	Survey, design and construction of intake, pipeline and tanks	15,000,0000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Kodich Water Supply	Kodich	To supply the residents with safe drinking water	150 households	Survey, design and pipeline extension	10,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Empokaptalax -Psimat water supply	Wei Wei	To supply the residents with safe drinking water	80 households	Survey, design and construction of intake, pipeline and tanks	4,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Solion-Asar Piped Water	Wei Wei	To supply the residents with safe drinking water	200 Households	Survey, design and construction of intake, pipeline and tanks	10,000,0000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department

Yayaw- Yoton Water project	Wei Wei	To supply the residents with safe drinking water	300 households	Survey, design and construction of intake, pipeline and tanks	10,000,0000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Takar-Phokou Water Supply	Wei Wei	To supply the residents with safe drinking water	250 households	Survey, design and construction of intake, pipeline and tanks	10,000,0000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Chesir Water Project	Wei Wei	To supply the residents with safe drinking water	350 households	Survey, design and construction of intake, pipeline and tanks	10,000,0000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Chepnyaril Perkau water project	Wei Wei	To supply the residents with safe drinking water	300 households	Survey, design and construction of intake, pipeline and tanks	4,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Tukoy –Kerong water supply	Sekerr	To supply the residents with clean drinking water	400 households	Survey, design and construction of intake, pipeline and tanks	3,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Pkechir water supply	Sekerr	To supply the residents with clean drinking water	350 households	Survey, design and construction of intake, pipeline and tanks	3,500,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Karembana water supply	Sekerr	To supply the residents with clean drinking water	200 households	Survey, design and construction of intake, pipeline and tanks	4,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Sichot water supply	Sekerr	To supply the residents with clean drinking water	80 households	Survey, design and construction of intake, pipeline and tanks	5,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Empoghat water supply	Sekerr	To supply the residents with clean drinking water	100 households	Survey, design and construction of intake, pipeline and tanks	4,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
St. John water supply	Sekerr	To supply the residents with clean drinking water	90 households	Survey, design and construction of intake, pipeline and tanks	6,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Mtelo -Sostiin water supply	Sekerr	To supply the residents with clean drinking water	1000 households	Survey, design and construction of intake, pipeline and tanks	50,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Lomut -Nyang'aita	Masol	To supply the residents with clean domestic water	1050 households	Intake and pipeline rehabilitation	40,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department

					2018-2022	Water Depart- ment
					National/ County Govt/ CDF, Donors NGOs/ FBOs	
Toghomoo water project	Lomut	To supply the residents with clean domestic water	600 households	Survey, design and construction of pipeline and tanks	15,000,000	Water Depart- ment
Krongon – Nyinyot water project	Lomut	To supply the residents with clean domestic water	300 households	Survey, design and construction of intake, pipeline and tanks	5,000,000	Water Depart- ment
Amset – Sororo water project	Lomut	To supply the residents with clean domestic water	200 households	Survey, design and construction of intake, pipeline and tanks	5,500,000	Water Depart- ment
Nach – Chemalei water project	Lomut	To supply the residents with clean domestic water	250 households	Survey, design and construction of intake, pipeline and tanks	6,500,000	Water Depart- ment
Kokwomeses -Chesombur spring water	Lomut	To supply the residents with clean domestic water	100 households	Survey, design and construction of intake, pipeline and tanks	2,000,000	Water Depart- ment
Kokwo Poghin-An-net spring water	Lomut	To supply the residents with clean domestic water	100 households	Survey, design and construction of intake, pipeline and tanks	2,000,000	Water Depart- ment

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Annet dispensary-ELCK Annet Secondary water project	Lomut	To supply the residents with clean domestic water	350 house-holds	Survey, design and construction of intake, pipeline and tanks	5,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Sororo –Lomut water project	Lomut	To supply the residents with clean domestic water	80 house-holds	Survey, design and construction of intake, pipeline and tanks	3,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Cheromol spring water project	Lomut	To supply the residents with clean domestic water	100 house-holds	Survey, design and construction of intake, pipeline and tanks	4,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Klemnguiro-Sasach -Chemutikotyo-Cheptiya/Tairngwan -Chepemoi water supply	Lomut	To supply the residents with clean domestic water	100 house-holds	Survey, design and construction of intake, pipeline and tanks	4,500,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Ka-mwayom –Otiot dispensary spring water	Lomut	To supply the residents with clean domestic water	80 house-holds	Survey, design and construction of intake, pipeline and tanks	2,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Kapatet - Chesta gravity supply	Lomut	To supply the residents with clean domestic water	500 house-holds	Survey, design and construction of intake, pipeline and tanks	30,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Kamjaror - Sintai water project	Lomut	To supply the residents with clean domestic water	350 households	Survey, design and construction of intake, pipeline and tanks	8,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart- ment
Rehabilitation of Kapenguria Water Supply	Kapenguria	To supply the residents with clean domestic water	2,000 households	Survey, design and construction of pipeline, pumps, treatment plant and tanks	50,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart- ment
Kapkoris-Makutano water supply	Kapenguria	To supply the residents with clean domestic water	320 households	Survey, design and construction of intake, pipeline and tanks	30,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart- ment
Mtirilwo -Kaprom water gravity	Kapenguria	To supply the residents with clean domestic water	300 households	Survey, design and construction of intake, pipeline and tanks	4,200,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart- ment
Tantana Ar-ea-Spring	Kapenguria	To supply community with clean and reliable drinking water.	200 households	Intake and pipeline construction -Spring protection and conservation with appropriate plant spp.	2,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart- ment
Emboghat-Che-papechak primary school- Spring	Kapenguria	To supply community with clean and reliable drinking water.	150 households	Intake and pipeline construction - Spring protection and conservation with appropriate plant spp.	2,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart- ment

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022						
Project Name	Location	Description	Budget	Implementation Period	Responsible Authority	Department
Karas –Alimaris pr and its environs	Kapenguria	To supply community with clean and reliable drinking water.	150 households	Survey, design and construction of intake, pipeline and tanks	3,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs
Chemwochoi secondary school spring	Kapenguria	To supply community with clean and reliable drinking water.	200 households	Survey, design and construction of intake, pipeline and tanks Spring protection and conservation with appropriate plant spp.	2,000,000	National/ County Govt/ CDF, Donors NGOs/ FBOs
Cheposumai village water project	Kapenguria	To supply community with clean and reliable drinking water.	200 households	Survey, design and construction of intake, pipeline and tanks	3,500,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Kamuino water project	Mnagei	To supply community with clean and reliable drinking water	350 households	Survey, design and construction of intake, pipeline and tanks	5,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Keringet-Ps-er-Cheptuya Water Supply	Mnagei	To supply community with clean and reliable drinking water	800 households	Tanks and Pipeline construction, installation of pumping units & powerlines	14,000,0000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Kanyamora gravity springs	Mnagei	To supply community with clean and reliable drinking water	100 households	Survey, design and construction of intake, pipeline and tanks - Spring protection and conservation with appropriate plant spp.	2,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs

Chepangang water supply	Mnagei	To supply community with clean and reliable drinking water	200 house-holds	Survey, design and construction of intake, pipeline and tanks	3,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Taruru –Tukuny water project	Siyoi	To supply community with clean and reliable drinking water	200 house-holds	Survey, design and construction of intake, pipeline and tanks	2,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Tach-Asia water project	Siyoi	To supply community with clean and reliable drinking water	150 house-holds	Survey, design and construction of intake, pipeline and tanks	2500,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Kipkorinya water project	Siyoi	To supply community with clean and reliable drinking water	250 house-holds	Survey, design and construction of intake, pipeline and tanks	3,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Kaplain gravitation-al water project	Siyoi	To supply community with clean and reliable drinking water	800 house-holds	Survey, design and construction of intake, pipeline and tanks	2,500,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Chemwaana Gravitational water project	Siyoi	To supply community with clean and reliable drinking water	100 house-holds	Survey, design and construction of intake, pipeline and tanks	3,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Talau water Project Repair	Siyoi	To supply community with clean and reliable drinking water	500 house-holds	Survey, design and construction of intake, pipeline and tanks	3,500,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Lolopoy -Rongo Tilak water supply	Endough	To supply community with clean and reliable drinking water	150 house-holds	Survey, design and construction of intake, pipeline and tanks	6,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Kechir -Chewarany water supply	Endough	To supply community with clean and reliable drinking water	200 house-holds	Survey, design and construction of intake, pipeline and tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Sarmat -Chemoro-roch water supply	Endough	To supply community with clean and reliable drinking water	120 house-holds	Survey, design and construction of intake, pipeline and tanks	10,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Kriich -Karar dispensary- Karar T. Centre water supply	Endough	To supply community with clean and reliable drinking water	150 house-holds	Survey, design and construction of intake, pipeline and tanks	6,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Tlulu -Pioyo dispensary water supply	Endough	To supply community with clean and reliable drinking water	200 households	Survey, design and construction of intake, pipeline and tanks	7,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

					2018-2022	Water Depart- ment
Emporonor-Kochar water supply	Sook	To supply community with clean and reliable drinking water	120 house- holds	Survey, design and construction of intake, pipeline and tanks	3,200,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Kaghott to Sessim- wo centre water project	Tapach	To supply community with clean and reliable drinking water	150 house- holds	Survey, design and construction of intake, pipeline and tanks	3,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Chebon, Chepun- guny	Tapach	To supply community with clean and reliable drinking water	500 households	Survey, design and construction of intake, pipeline and tanks	5,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Kokwopsis water project	Tapach	To supply community with clean and reliable drinking water	400 households	Survey, design and construction of intake, pipeline and tanks	7,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Tapach secondary & primary school, Tapach dispensary, Tapach trading centre and Tapach ward office	Tapach	To supply community with clean and reliable drinking water	600 house- holds	Survey, design and construction of intake, pipeline and tanks	10,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Karupogh, Kok- womuruny water project	Tapach	To supply community with clean and reliable drinking water	200 house- holds	Survey, design and construction of intake, pipeline and tanks	3,800,000	National/ county Govt/ CDF, Donors NGOs/ FBOs

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Kitakes-Sina water project	Tapach	To supply community with clean and reliable drinking water	350 house-holds	Survey, design and construction of intake, pipeline and tanks	10,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Kamolog-on-Tapach-sekutuion gravity water supply	Tapach	To supply community with clean and reliable drinking water	1000 house-holds	Survey, design and construction of intake, pipeline and tanks	60,000,0000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Plakkwenda to Kongtarit water supply	Batei	To supply community with clean and reliable drinking water	400 house-holds	Survey, design and construction of intake, pipeline and tanks	7,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Kochy(Chemn-yarita springs) to Sebit Town	Batei	To supply community with clean and reliable drinking water	600 house-holds	Survey, design and construction of intake, pipeline and tanks - Spring protection and conservation with appropriate plant spp.	3,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Parua-Ortum Water Project	Batei	To supply community with clean and reliable drinking water	2000 house-holds	Survey, design and construction of pipeline, tanks and distribution	75,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Koituwut Plalang Kapsangar Murkwisian Ptuunyony Psukunowater project	Lelan	To supply community with clean and reliable drinking water	450 house-holds	Survey, design and construction of intake, pipeline and tanks	10,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department

Project Name	Location	Objectives	Number of Households	Survey, design and construction of intake, pipeline and tanks	Budget	Source of Funds	Year	Department
Kapsangar, water projects	Lelan	To supply community with clean and reliable drinking water	450 households	Survey, design and construction of intake, pipeline and tanks	8,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Krengoi- Kaikon , Kansis, Chorwai water projects	Lelan	To supply community with clean and reliable drinking water	800 households	Survey, design and construction of intake, pipeline and tanks	8,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Chepkono Koro-pelow Kanyanguru Tonoyon Chemaltin water project	Lelan	To supply community with clean and reliable drinking water	650 households	Survey, design and construction of intake, pipeline and tanks	7,500,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Kabichbich Am-riteng Pusilelon water project	Lelan	To supply community with clean and reliable drinking water	400 households	Survey, design and construction of intake, pipeline and tanks	6,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Kabichbich- Chorok gravity water supply	Lelan	To supply community with clean and reliable drinking water	400 households	Survey, design and construction of intake, pipeline and tanks	4,500,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Cheparten-Tom-bul-Kap-kunyuk-Kapsebat water project	Lelan	To supply community with clean and reliable drinking water	300 households	Survey, design and construction of intake, pipeline and tanks	10,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department

Porowo pr-Sa-kar-Chelopot-wo-Lain-kapkoriorio water project	Lelan	To supply community with clean and reliable drinking water	350 house-holds	Survey, design and construction of intake, pipeline and tanks	7,500,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
DRILLING, EQUIPPING, REPAIR AND UPGRADE OF BOREHOLES								
Purchase borehole drilling rig	County HQ	To reduce cost and time spent on procuring borehole drilling services	2 drilling rigs	Production of specification, tendering and procuring.	120,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment
Drill and equip 120 boreholes	Alale, Kiwawa, Kasei, Kap-chok, Kod-ich, Suam, Riwo, Kapen-guria, Mnagei, Chepare-ria, Sook, Endough, Sekeri, Wei Wei, Lo-mut, Masol, Batei	To supply community with clean and reliable drinking wa-ter and to reduce dis-tances and time taken in search of water	120,000 people	Hydrogeological survey, Drilling, water quality testing, test pumping and equip-ping	420,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart-ment

Upgrading of Amakuriat B/hole	Alale	To increase access to safe and clean drinking water	5,000 people	Upgrading with electricity mains, construction of Pipeline network, storage tanks and water kiosks	5,500,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Upgrading of Lolepon B/hole	Alale	To increase access to safe and clean drinking water	5,000 people	Upgrading with electricity mains, construction of Pipeline network, storage tanks and water kiosks	4,500,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Upgrade 2 boreholes to solar	Alale	To increase access to sustainable water supply	2,100	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Upgrade 2 boreholes to solar	Chepareria	To increase access to sustainable water supply	4000	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Upgrade 2 boreholes to solar	Riwo	To increase access to sustainable water supply	2,500 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

					2018-2022	Water Depart- ment
					National/ county Govt/ CDF, Donors NGOs/ FBOs	
Upgrade 2 bore-holes to solar	Kiawwa	To increase access to sustainable water supply	4,000 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Upgrade 2 bore-holes to solar	Suam	To increase access to sustainable water supply	3,200 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Upgrade 2 bore-holes to solar	Sekerr	To increase access to sustainable water supply	2,500 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Upgrade 2 bore-holes to solar	Lomut	To increase access to sustainable water supply	2,000 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Upgrade 2 bore-holes to solar	Masol	To increase access to sustainable water supply	2,200 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs
Upgrade 2 bore-holes to solar	Batei	To increase access to sustainable water supply	3,600 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs

Upgrade 2 bore-holes to solar	Wei Wei	To increase access to sustainable water supply	4,200 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Upgrade 2 bore-holes to solar	Endough	To increase access to sustainable water supply	2,800 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Upgrade 2 bore-holes to solar	Sook	To increase access to sustainable water supply	2,500 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Upgrade 2 bore-holes to solar	Kapenguria	To increase access to sustainable water supply	2,500 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Upgrade 2 bore-holes to solar	Kiwawa	To increase access to sustainable water supply	2,500 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department
Upgrade 2 bore-holes to solar	Kasei	To increase access to sustainable water supply	2,500 people	Solar panels, pumps and water tanks	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Department

WATER PANS, SAND/SUB-SURFACE DAMS AND SHALLOW WELLS

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022			
Construct/ desilt water Pans	Alale, Kiawa, Kasei, Kap-chok, Kod-ich, Suam, Riwo, Kape-nuria, Mnagei, Chepare-ria, Sook, Endough, Sekerr, Wei Wei, Lo-mut, Masol, Batei	22 water pans targeting 22,000 people and 100,000 cattle	Site identification and verification planning and design, production of tender documents Excavation of dam reservoir Construction of embankment wall Construction of spill-way Fencing of reservoir Construction of auxiliary works (draw off system and cattle trough) Renovation of Earth Dams
Construct 90 sub-surface/ Sand dams	Alale, Kiawa, Kasei, Kap-chok, Kod-ich, Suam, Riwo, Kape-nuria, Mnagei, Chepare-ria, Sook, Endough, Sekerr, Wei Wei, Lo-mut, Masol, Batei	20, 000 people	Site identification survey, design and construction

				National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart- ment
Construct 100 shallow wells	Alale, Kiwawa, Kasei, Kap-chok, Kod-ich, Suam, Riwo, Kapen-guria, Mnagei, Chepare-ria, Sook, Endough, Sekerr, Wei Wei, Lo-mut, Masol, Batei	To pro-vide clean portable water to the residents	32,000 people	Site identification survey, design and construction	112,000,000	
SPRINGS	Siyoi, Tapach, Lelian, Mnagei, Kapen-guria, Sook, Mnagei, Chepare-ria, Lomut	To pro-vide clean portable water to the residents	17 springs to support 1,500	Survey, design and construction	5,100,000	

Roof Water Harvesting

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Sub-sector- Forestry Department								
Project Name/o- cation	Objective	Target	Key Description of Activities	Cost (Kshs.)	Source of funding	Time- frame	Implement- ing Agency	Remark
Roof catchment Water harvesting project	County-wide To promote rain water harvesting and supply residents with safe water	30,000 people	Enact rainwater harvesting policy to ensure all county structures and ECDs have water harvesting structures, purchase and supply of plastic tanks	20,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Water Depart- ment	
Recruitment of staff	To increase effectiveness in service provision and implementation of activities	16 Foresters 53 Forest Rangers	Employment of Foresters and forest guards	120,000,000				
Formulation of coun- ty specific Forestry laws/legislations	To minimize charcoal burn- ing and illegal harvesting of timber	6 laws legislated: Charcoal Burning, Sand harvesting, For- estry conservation, Riparian conserva- tion, Institution based Afforestation, Climate Change	Drafting, Printing, Enactment, and Enforcement	20,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018- 2022	Forestry Department	
Support Youth and Women Group with Tree Nurseries es- tablishment	To increase forest cover in the county	80 groups	Trainings, Sup- port with tubes, seed, water tanks, chain wires, fencing pots	25,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018- 2022	Forestry Department	
Establish County Tree Nurseries	To increase forest cover in the county	46 county Tree nurseries Nurser- ies(6 Bamboo Green Houses Nurseries , 40 Trees Nurseries)	Raising bamboo seedlings and tree seedlings, Purchasing chain wires, posts, seeds, water tanks, nursery tools, construc- tion of stores, land acquisition	100,000,000	National/ county Govt / CDF, Donors NGOs/ FBOs	2018- 2022	Forestry Department	

Forest Park Establishment	To preserve Kamatira Forest and connect people with nature	Kamatira Forest Park	-Construction of houses, trails, watch towers	50,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Forestry Department
Tree Planting	To increase tree cover from 3.9% to 7% by 2022	50,000 Ha of land planted with trees	Raise 12,000,000 seedlings from county tree nurseries, Purchase 18 million seedlings from groups supported with nurseries	640,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Forestry Department
Forest extension/ Trainings	To provide forest extension services and knowledge dissemination	200 Trainings	Training CFAs, communities, women and youth groups in each ward	40,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Forestry Department
Mapping and Gazetttement of County Forest	To protect the county forests against encroachment and illegal logging	20 county forests	Survey and gazetttement	50,000,000	National/ county Govt / CDF, Donors NGOs/ FBOs	2018-2022	Forestry Department
Boundary realignment of encroached forests	To align boundaries of encroached forests	Kamatira, Sekerr, Chepnyal, Kapushen, Kamologon, Kper, Chesuko,	Installing beacons and evicting illegal encroachments	38,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Forestry Department

Protection of Water Catchments River-banks and fragile lands	To protect riverbanks, catchment areas and fragile lands against erosion and agricultural activities To increase water volumes in the rivers	Muruny,Weiwei, Sighya, Parua, Kotoruk, Suam, Kaibos,Siyoi, Kabolet, Kanyangareng, Paraya, Kapchilia rivers, Marich, Murpus, Kaisakat, Tapach, Muino	Conduct 40 Community sensitization meetings, Planting bamboo and other water friendly trees,	40,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Forestry Department
Forest /Farm Produce Movement Regulation and protection	To minimize illegal deforestation, illegal logging and settlement	All forests (Both county and National), and Private farms	Procure movement permits books from Government Printer, Issue licenses to saw millers - Movement of security officers and foresters	20,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Forestry Department
Urban Beatification	To create green environment in urban areas and reduce pollution	Makutano, Chepareria, Kabitibich, Kacheliba, Alale, Sigor	Plant along roads, create urban green spaces,	20,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Forestry Department

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Support WRUAs	To protect the water catchments	Countywide	Trainings, Support with tubes, seed, water tanks, chain wires, fencing pots	40,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Forestry Department
Climate Change Mitigation and Adaptation	To minimize effects of climate change	County wide	Plant drought tolerant timber trees Plant Drought Tolerant fruit trees Supply farmers, women groups and youth groups with bee hives	30,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Forestry Department

Project ID	Objective	Target	Key Description of Activities	Cost (Kshs.)	Source of funding	Time-frame	Implementing Agency	Remark
Project Name	Location							
Environmental education	Countywide	To raise awareness and promote clean environment	200 trainings - Trainings and workshops - Tree planting and cleaning exercises	20,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Department of Environment and Natural Resource	
Support and train community members on watershed management	Countywide	To raise awareness on watershed management and protect the water sources	100 trainings - Community mobilization & sensitization - Trainings and workshops - Tree planting and other protection measures	10,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Department of Environment and Natural Resource	

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Establishment of self-sustaining community tree nurseries to provide indigenous tree seedlings	Countywide	To promote community environment conservation and protection	80 groups	-Groups identification -Training on tree nurseries -Establishment of indigenous tree nurseries -Training and supporting the groups for sustainability	10,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Department of Environment and Natural Resource
Train Farmers on Agroforestry and terraced farming	County wide	To enhance agroforestry practices in	100 farmers	-Farmer identification -Training and support of the farmers -	4,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Department of Environment and Natural Resource
Develop laws Environment and climate change	County HQS	To enhance the achievement of environmental objectives	2 laws	-Drafting of bill and enactment -Publishing -Enforcement	5,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Department of Environment and Natural Resource
Noise pollution and outdoor advertisements control	Countywide	To minimize effect of noise and outdoor advertisement to the general public	50 regions mainly major towns in the county	-Mapping and zoning -Purchase of noise meters -Apprehend noise makers	15,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Department of Environment and Natural Resource
Wildlife conservation and management	Masol, Kasiei, Sekeri,	To protect wildlife against illegal poaching and connecting people with wildlife	Onwa, Naso-lot, Masol, Ompolion	-Community sensitization -Apprehending poachers -Tree planting -Regulating cattle grazing -Promoting eco-tourism	30,000,000	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Department of Environment and Natural Resource

Sub-Sector: Land Reclamation

Project ID	Objective	Target	Key Description of Activities	Cost (Kshs.)	Source of funding	Timeframe	Implementing Agency	Remark
Project Name	Location							
Reclamation of degraded lands for economic use in Mogen, Katuda, Iwoi, Kaluluchio, Amam	Kiawa ward;	To reclaim degraded lands waste-lands, unutilized lands, flood prone areas and ASALs into vibrant eco- nomic development areas.	200 Ha reclaimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditch- es/COD, ploughing, harrowing, compaction of land, Planting of drought tolerant grass, trees and crops, training and capacity building of community on recla- mation initiatives	20 million	National/ county Govt/CDF, Donors NGOs/ FBOs	2018- 2022	Land Recla- mation
Reclamation of degraded lands for economic use in Chem- tichor	Kodich ward	To reclaim degraded lands waste-lands, unutilized lands, flood prone areas and ASALs into vibrant eco- nomic development areas.	20 Ha re- claimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditch- es/COD, ploughing, harrowing, compaction of land, Planting of drought tolerant grass, trees and crops, training and capacity building of community on recla- mation initiatives	2 million	National/ county Govt/CDF, Donors NGOs/ FBOs	2018/ 2019	Land Recla- mation

				2018- 2022	Land Recla- mation
				National/ county Govt/ CDF, Donors NGOs/ FBOs	
Reclamation of degraded lands for economic use in Tikit and Nyang'aita	Masol Ward	To reclaim degraded lands waste-lands, unutilized lands, flood prone areas and ASALs into vibrant eco- nomic development areas.	100 Ha reclaimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditch- es/COD, ploughing, harrowing, compaction of land, Planting of drought tolerant grass, trees and crops ,training and capacity building of community on recla- mation initiatives	10 million
Reclamation of degraded lands for economic use in Tapada- ny	Suan ward	To reclaim degraded lands waste-lands, unutilized lands, flood prone areas and ASALs into vibrant eco- nomic development areas.	20 Ha reclaimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditch- es/COD, ploughing, harrowing, compaction of land, Planting of drought tolerant grass, trees and crops ,training and capacity building of community on recla- mation initiatives	2 million

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Reclamation of degraded lands for economic use in Nasal	Alale ward	To reclaim degraded lands waste-lands, unutilized lands, flood prone areas and ASALs into vibrant eco-nomic development areas.	10Ha reclaimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditch-es/COD, ploughing, harrowing, compaction of land, Planting of drought tolerant grass, trees and crops ,training and capacity building of community on recla-mation initiatives	1 million	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018- 2022	Land Recla-mation
Reclamation of degraded lands in Cheptape-sha, Senetwo, Korellach	Chepare-ria ward	To reclaim degraded lands waste-lands, unutilized lands, flood prone areas and ASALs into vibrant eco-nomic development areas.	100 Ha of lands affected by gullies reclaimed for economic use	Survey and design of the project sites, community mobilization and sensitization, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditch-es/COD, Planting of drought tolerant grass/verter and trees, training and capacity building of community on reclamation initiatives	9 million	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018- 2022	Land Recla-mation
Reclamation of degraded lands in Kitakapel	Riwo ward	To reclaim degraded lands wastelands, unutilized lands, flood prone areas and ASALs into vibrant economic development areas.	10 Ha re-claimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditches/ COD, ploughing, harrowing, compaction of land, Planting of drought tolerant grass, trees and crops ,training and capacity building of community on reclamation initiatives	2 million	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018- 2022	Land Recla-mation

Reclamation of degraded lands for economic use in Embosias	Kapenguria ward	To reclaim degraded lands wastelands, unutilized lands, flood prone areas and ASALs into vibrant economic development areas.	10 Ha re-claimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditches/ COD, ploughing, harrowing, compaction of land, Planting of drought tolerant grass, trees and crops ,training and capacity building of community on reclamation initiatives	1.5 million	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Land Reclamation
Reclamation of degraded lands in Kamketo	Kasei ward	To reclaim degraded lands wastelands, unutilized lands, flood prone areas and ASALs into vibrant economic development areas.	20 Ha re-claimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditches/ COD, ploughing, harrowing, compaction of land, Planting of drought tolerant grass, trees and crops ,training and capacity building of community on reclamation initiatives	3 million	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Land Reclamation

Reclamation of degraded lands in Nakwjjit	Endough Ward	To reclaim degraded lands wastelands, unutilized lands, flood prone areas and ASALs into vibrant economic development areas.	50 Ha re-claimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditches/ COD, ploughing, harrowing, compaction of land. Planting of drought tolerant grass, trees and crops ,training and capacity building of community on reclamation initiatives	5 million	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Land Reclamation
Reclamation of degraded lands in Nyorpotwo	Lomut ward	To reclaim degraded lands wastelands, unutilized lands, flood prone areas and ASALs into vibrant economic development areas.	50 Ha re-claimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditches/ COD, ploughing, harrowing, compaction of land. Planting of drought tolerant grass, trees and crops ,training and capacity building of community on reclamation initiatives	5 million	National/ county Govt/ CDF, Donors NGOs/ FBOs	2018-2022	Land Reclamation

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Reclamation of degraded holding grounds	Nasukuta, kachiliba, Kopoch, Masol, Membur	To reclaim degraded lands wastelands, unutilized lands, flood prone areas and ASALs into vibrant economic development areas	500 Ha reclaimed for economic use	Survey and design of the project sites, community mobilization and sensitization, selective bush clearing, Fencing of reclaimed land, gully control interventions , construction of water harvesting structures, construction of retention ditches/ COD, ploughing, harrowing, compaction of land, Planting of drought tolerant grass, trees and crops ,training and capacity building of community on reclamation initiatives	40 million	National/ county Govt/ CDF, Donors NGOs/ FBOS	2018-2022	Land Reclamation
Training the community members on land reclamation techniques	County-wide	To equip the community with skills on reversing land degradation and sustainable utilization of reclaimed lands	2000 community members	Community mobilization, sensitization, Training Field visits/ tours Field demonstrations	8 million	National/ county Govt/ CDF, Donors NGOs/ FBOS	2018-2022	Land Reclamation
Construction of water pans	County-wide	To reverse land degradation and provide water for livestock	10	Excavation of dam reservoir Construction of embankment wall Construction of spillway Fencing of reservoir Construction of auxiliary works (draw off system and cattle trough)\ environmental conservation	40 million	National/ county Govt/ CDF, Donors NGOs/ FBOS	2018-2022	Land Reclamation

Construction	County-wide	To conserve riparian vegetation and provide water for domestic & livestock use	20	Survey, design, construction and environmental conservation	16 million	National/ county Govt/ CDF, Donors NGOs/ FBOS	2018-2022	Land Reclamation
Springs protected	County-wide	To conserve water catchment areas and provide water for domestic, livestock use & tree nursery establishment	15	Survey, design, construction and environmental conservation	6 million	National/ county Govt/ CDF, Donors NGOs/ FBOS	2018-2022	Land Reclamation
Construction of shallow wells	County-wide	To provide water for domestic, livestock use & tree nursery establishment	25	Survey, design, construction and environmental conservation	12.5 million	National/ county Govt/ CDF, Donors NGOs/ FBOS	2018-2022	Land Reclamation
Construction of hay stores	Masol, Kiwawa, Chepkopgeh, Kapchok, Kase	To provide storage for hay in order to mitigate against drought and climate change	5	Hay stores Survey, design, tendering, construction and handing over	7.5 million	National/ county Govt/ CDF, Donors NGOs/ FBOS	2018-2022	Land Reclamation
Purchase of tractor, Mower and Baler	HQS	To assist the harvest of hay from reclaimed areas	1 tractor, 2 mower and 2 baler	Tendering and procuring <i>Transforming Lives through Sustainable Development</i>	National/ county Govt/ CDF, Donors NGOs/ FBOS	2018-2022	Land Reclamation	

Climate Information Services

Project Name/location	Objective	Target	Key Description of Activities	Cost (Kshs.) Million	Source of funding	Timeframe	Implementing Agency	Remark
Radio Internet (RANET) Station	Kapenguria	Purchase of land, office construction & procurement of radio station	Communication of climate information & sector specific advisories for various seasons to policy makers & farmers	30.0	KMD & County Government	2018-2022	KMD & County Government	
Land for West Pokot County Synoptic station (observatory)at Kishaunet.	Climate services to aviation industry and entire county	1	Procurement of 3 acres	6 .0	County Government	2018-2022	County Meteorological services	
Construction of a synoptic station at Kishaunet	Operational climate office	1	Construction of an office & equipping it with office equipments	8.0	National Government & county Government	2019-2022	County Meteorological services	
Automatic Weather Station (AWS) for surface observations at Kishaunet	Improved data For research, climate services, climate change monitoring & for policies	1	Acquire & install one AWS	6.0	National Government & County Government	2018-2022	County Meteorological services	
Plot for West pokot county climate information centre(Headquarters) Kapenguria	Improved services	0.25 acres	Procurement of the land or public land acquired	2.0	County Government	2018-2022	County Meteorological services	
Construction of a modern climate office headquarters at Kapenguria	Operational climate office	1	Construction of the office	8.0	National Government & County Government	2018-2022	County Meteorological services	

Instruments inspections & calibrations	To ensure reliable data & standards instruments	200	Inspections, calibrations & Maintenance of all instruments	2.0	National Government	2018-2022
Acquire and Install Automatic rain gauges at least 3 per ward	Accurate data acquired	60	Procurement of the rain gauges	6.0	County Government	2018-2022
Acquire and install river gauges	Accurate Hydro-meteorological data for climate change monitoring	20	Procurement & installation at the major rivers: Suam, Muruny, Wei-wei, Lomut, Siyoi, Sebit river	1.0	County Government	2018-2022
Acquire and install Landslide detection instruments	For disaster Risk Reduction	10	Procurement & installation at hilly slopes of Muiño, Sondany, Tapach, Chepareria & Steeply slopes	10.0	County Government	2018-2022
						County Meteorological, Disaster unit, NEMA
Acquire and Install Manual Rain gauges at least 8 per ward	To supplement Rainfall data from automatic ones	160	Procurement and installation at designated areas	3.2	National & County Government	2018-2022
Training of staff & community climate volunteers	Recruit & train community climate observers	160	Recruitment & trainings	2.0	National & County Government	2018-2022

Acquire Data collection workstation (for a data exchange) and disseminate of rainfall data from CCMs	One Data collection workstation	1	Materials of collecting data available & data transmission	1.5	County Government	2018-2022	County Meteorological services
Acquire High speed Internet connection for county offices	One high speed internet connection	1	Procurement of the cables & installation	0.75	County Government	2018-2022	County Government
Communication software (frontline SMS)	Communication between mobile data collectors & County AMSS enabled	1	Procurement of county AMSS enabled	1.0	National Government	2018-2022	County Government
Acquire Forecast Interpretation Tools (software)	Forecast interpretation tools	5	Procurement & installation of the tools	1.0	National & County government	2018-2022	County Meteorological services
County Climate Forums (CCFs)	Dissemination of climate & sector advisories	15	Forums, baraza's held & radio broadcasts	15.0	County Government	2018-2022	Agriculture, Livestock, Nema, Water, County Forest & County Meteorological services

Sector: General Economic and Commercial Affairs

Sub-sector: Trade, Industrialization, Investment and Cooperative Development

Project Name/ location	Objective	Target	Key Description of Activities	Cost (Kshs.)	Source of funding	Timeframe	Implementing Agency	Remark
Market Development for MSEs	To provide market sheds to businesses and generate Revenue	4	Construction of fresh produce market stalls	200 M	WPC/GOK	2018-2022	Trade	

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Town Lighting Lomut, Tapach, Alale &Konyao	Provide Security and promote trade	4	Construction of Light Mast	12M	WPC/GOK	2018-2022	Trade
Fresh Produce storage facilities	Provide storage to fresh produce	2	Construction	20	WPC	2018-2019	Trade
Limestone Processing	To add value to limestone / Create employment	1	Coordinating, MOU preparation and infrastructure development	20 M	WPC	2018-2020	Trade
Honey Processing	Increased income for farmers	6	Construction of plant M& E	20M	WPC	2018-2022	Coop
Set up Aloe Vera Processing unit	Value addition for increased income	4	Purchase of Construction equipment and Infallation	10M	WPC	2018-2022	Coop
Milk processing plant	To processed milk to yoghurt, Ghee, butter and other products	1	Purchase of Equipment, land, construction and installation	300M	WPC	2018-2022	Coop
Cereals Milling plant	Add value to cereals	1	Purchase of Equipment, land, construction and installation	30M	Investor/ County	2018	Industry/ Coop
Water Bottling plant	Income Generation	2	Coordination, facilitate access roads and water	10M	Investor	2018	Investor
Oil Exploration	Revenue /Employment	3	Identify investor, MOU preparation, infrastructure support	30M	Investor	2018	Investor
Harnessing Renewable Energy	Environmental conservation/ Revenue generation	3	Identify investor, MOU preparation, infrastructure support	30M	Investor	2018	Investor
Fresh Produce storage facilities	Value addition to Onion/ Mangoes/ potatoes	3	Construction of stores	15M	WPC	2018-2022	Trade
Mango processing	Value addition/Income generation	1	Construction, Purchase of Equipment and installation	20M	WPC	2018-2022	Coop

Develop industrial parks in every sub-county	To provide necessary infrastructural facilities to entrepreneurs/investors	5	Identify investor, MOU preparation and Coordination	50 M	WPC/Investor	2018-2022	Industry/Trade
Construction of markets	To provide market sheds to businesses and generate Revenue	20	Construction	100 M	WPC	2018-2022	Trade
Set up County Co-operative development Fund	To provide financial Loans services to MSEs/employment Creation	1	Bill preparation, establishment of Board, Approval of loans	200M	WPC	2018-2022	Coop
Provision of recreational facilities in major towns	Revenue Generation	5	Facilities established	20M	WPC	2018-2020	Trade
Value addition to natural/medicinal plants	Income generation/ provision of alternative medicine	1	Herbal medicine plant established	5m	WPC	2020-2022	Coop/Industry
Street lighting in 4 major centers	Facilitate trade & security	4	Street light masts erected and operational	10M	WPC	2018-2020	Trade
Kotney Coffee store/Office	Facilitate Value addition	1	Store constructed	5M	WPC	2018-2019	Coop

Sector: Agriculture, Rural and Urban Development

Sub-Sector: Agriculture and Irrigation

Project Name/location	Objective	Target	Key Description of Activities	Cost (Kshs.)	Source of funding	Time-frame	Implementing Agency	Remark
Irish Potato bulking, Cold store and processing plant- Lelai, Tapach ward And Siyoi	Improved food security and household income of the youth	Develop potato produce and marketing Bill	Development of BQs Awarding Tendering Contractor on site Site meeting	80.4M	County gov't /Development partners	2018-2022	County/Development partners	

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

					County govt	2018-2022	County govt
Cereal storage facilities - 5 sub-counties	Reduced post-harvest losses through proper storage of grains by 2021	6 cereals stores constructed 300,000 bags of cereal grains and pulses stored	Development of BQs Awarding Tendering Contractor on site Site meeting	60M	County govt	2018-2022	County govt
Indigenous crops development: sorghum, millet, cassava and sweet potatoes -Entire county	To positively change the attitude of people growing traditional crops and to create market for the same	10,000 tons of sorghum 5,000 tonnes of millet 10,000 tonnes of cassava and 10,000 tonnes of sweet potatoes	Raise quotations Award Identify beneficiaries	20 M	County govt/ National govt projects	2018-2022	County govt/ National govt projects
Food crops Development-20 wards	Increased household incomes and food security through irrigation	Increase productivity of maize, beans, finger millet, sorghum, sweet potatoes by 5 per cent	Development of BQs Awarding Tendering Contractor on site Site meeting	200M	Aug 2018 June 2022	2018-2022	County, national programmes and partners
Agricultural mechanization services-10 wards	Increased Ha under crops and reduced cost of farming	8,400 Hectares of land ploughed in difficult areas under farming 15 tractors purchased and being utilized	Raise quotations Award Purchase of tractors, develop policy guideline, ploughing	110 M	County and national government	2018-2022	County and national government
Soybel micro irrigation – Riwo ward	Improved food security	300Ha irrigated	Construction of the intake, main line and distribution lines	30 M	County / National govt	2018-2022	County ,NIB
Turkwell irrigation project	To improve food security and household income by increasing acreage under irrigation	350 Ha of crop irrigated	Develop BQS Construction of the intake, main line and distribution lines	100M	County/ National government	2018-2022	Irrigation engineer Chief officer procurement Contractor

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

				County	2018-2022	Irrigation engineer Chief officer procure- ment Contractor
Kokwositet irrigation	To improve food security and household income through irrigation	200 Ha of crop irrigated	Construction of the intake, main line and distribution lines	10M		
Tepatuksi-Saramach irrigation project	To improve food security and household income through irrigation	100 Ha of crop irrigated	Construction of the intake, main line and distribution lines	10M	County	2018-2022
Cherangan irrigation project	To improve food security and household income through irrigation	300Ha of crop irrigated	Damming of the river, construction of the main line and distribution lines	35M	County	2018-2022
Karameri-Konyao solar farm irrigation project	To improve food security and household income through irrigation	500Ha of crop irrigated	Construction of solar system, installation of the panels and piping	80M	County	2018-2022
Wowo furrow irrigation project	To improve food security and household income through irrigation	50 ha	Construction of intake and piping	10M	County	2018-2022
Kapkiris farrow irrigation project	To improve food security and household income through irrigation	80ha	Construction of intake and piping	12M	County	2018-2022

				2018-2022	Department of Agriculture and Irrigation, Contractor
Chepnyaril Kaporon irrigation project	To improve food security and household income through irrigation	100ha	Construction of intake and piping	14M	County
Pest and disease surveillance and control(Fall armyworm, Maize Lethal Necrosis Disease)	To prevent and control crop pest and diseases	35000Ha under maize	Field visits, purchase, distribution and application of pesticides	15M	County
Purchase of water pumps	To increase land under irrigation	15 Ha	Procurement of water pumps	32M	County
Irish potato cold storage	To reduce post-harvest losses by 30%	2 cold stores constructed & operational	Preparation of the Bill of quantities, procurement, and Construction of the cold stores	30M	County
Irish potato cold storage	To reduce post-harvest losses	1 cold store constructed and operational	Preparation of the Bill of quantities, procurement and construction of the cold store	15M	County
Cereal stores	To improve accessibility and availability to food in West Pokot County	5 cereal stores constructed and operational	Preparation of the Bill of quantities, procurement and construction Works	120M	County
Aloe Vera Processing unit	Value addition for increased income	Establish 2 aloe Vera processing units	Preparation of theBQs, procurement, construction Works	10 m	2018-2022
Irish Potato multiplication	To improve accessibility to clean planting material	1000 acres of seed potato established	Recruitment of farmers, sourcing for seed potato	50M	County and partners

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Cotton promotion	To reintroduce and promote cotton production	250HA	Community mobilization, Purchase and distribution of cotton seed to farmers	60M	County and partners	Aug2019-June2022
Sisal promotion	To promote Sisal production	100 HA planted				
Reclaiming Arid lands for Agriculture	Increasing vegetative cover and crop production by planting drought tolerant fruit trees/ crops hence providing alternative livelihoods for pastoralists	5000 HA of Arid land reclaimed	Planting drought tolerant fruit trees and crops, construction of water harvesting structures and insitu water harvesting technologies such as Semi- circular bands, Zi pits etc.	50M	County and partners	October 2018-June 2022
Family farming	Supporting small scale farmers with technology, farm input subsidies and providing markets at farm level	2000 farmers supported	Purchase and distributing farm inputs to farmers such as small water pumps, Solar water pumps, irrigation kits, Green houses, Fertilizers, seeds and seedlings,etc.	100M	County and partners	October 2018-June 2022
Mango Fruit processing plant	Increase farm incomes through value addition	1 Plant established in the County at a suitable location	Planting improved fruit trees, construction of Fruit processing plant	80M	County and partners	October 2020-June 2022
Soil mapping for crop zoning and specialization	To identify soil types in the county for proper choice of crop enterprises	All the county covered	Carry out soil survey, soil analyses, mapping.	100M	County and partners	October 2018-June 2022
Construction of Agriculture training center(ATC)	Train staff and farmers on new agricultural technologies and practices	1 Center	Buy land, Construct ATC	30M	County and partners	October 2018-June 2022

Establishment of Agricultural and Livestock Research center(-Masol)	To generate new improved appropriate technologies and innovations.	1 Center established	Buy land, Construct Research center	80M	National Government	October 2018-June 2022	National Government
Construction of Sub County Agriculture offices(Pokot North, Pokot South, Pokot Central, Kipkomo)	Provide office space to staff in sub counties	4 offices	Construct offices	100M	Department of Agriculture and partners	October 2018-June 2022	Department of Agriculture and partners
Purchase of Motor vehicles	Provide mobility for staff during supervisions and backstopping field staff.	2 Double gaps	Purchase	9M	Department of Agriculture and partners	October 2018-June 2022	Department of Agriculture and partners
Greenhouse Development	Promote intensive production of high value crops	20 Greenhouses for Demonstrations(1 per Ward)	Construct Greenhouses at strategic sites in the Wards	12M	Department of Agriculture and partners	October 2018-June 2022	Department of Agriculture and partners
Strategic Food reserve	Promote food security at household level	100,000bags of maize grains reserved.	Purchase and store strategic grain reserves	32m	Department of Agriculture and partners	October 2018-June 2022	Department of Agriculture and partners
Domesticate National Agribusiness strategy	Promote commercialization of agriculture in the county	1 Strategy in place	Tailoring the National Agribusiness strategy to suit the unique circumstances of West Pokot county and adoption	200,000	Department of Agriculture and partners	October 2018-June 2022	Department of Agriculture and partners
Post-harvest Management	Reduce post-harvest losses of crop produce	100 Demonstrations conducted	Conduct field demonstrations	2M	Department of Agriculture and partners	October 2018-June 2022	Department of Agriculture and partners
Market Survey and Linkages	Maximize farm incomes through strengthened market linkages	20 Market surveys and Linkages done	Planning and implementing the market surveys and linkages	800,000	Department of Agriculture and partners	October 2018-June 2022	Department of Agriculture and partners

Sub-Sector: Pastoral Economy

Project Name	Location	Objective	Target	Key Description of Activities	Cost (Kshs.)	Source of funding	Timeframe	Implementing Agency	Remark
Establish 5 Strategic livestock feed reserves – one per sub-county	5 sub- counties	To improve stock output through adequate supply of livestock feeds by 2022	-500,000 bales of hay produced - 4 tractors each with a complete set of hay baling equipment	Acquisition of land,raising of BQs,Awarding and siting and contractor moving on site.	2018-2022	200 M	2018-2022	County, Partners, Community	
One household one dairy cow project	10 wards	To improve household incomes through increased milk production	-10,000 highly productive dairy cows distributed	Raising quotations, tendering,identification of beneficiaries,	2018-2022	600 M	2018-2022	-County -Partners	
Establishment of 6 livestock breeding centers and enhancing livestock upgrading	6 sub- counties	To improve live-stock breeds (Sahiwal and Boran cattle breeds; Camels; Dorper and wool sheep and Galla goats)	1,500 Sahiwal cattle; 500 Boran cattle; 2,000 camels; 1,000 Dorper sheep; 500 wool sheep and 2,000 Galla goats distributed to breeding centres /farmers	Acquisition of land,raising quotations and purchase of breeding stock.	2018-2022	300 M	2018-2022	-County -Partners e.g. ADS, Heifer International, Bayer Ltd	
Establishment of Bee keeping and Apiculture Research Centre at Kanyikeny Livestock Farm	-Kanyikeny in Chepareria ward	To increase honey production in the county	- One beekeeping and apiculture research centre established -1,000 modern/ improved beehives purchased for Kanyikeny and installed -Construct and equip necessary offices, houses, beehives making workshop	Raise quotations for bee hives,prepare BQS for offices and houses for staff awarding contracts and contractor moving to site.	2018-2022	200 M	2018-2022	County	
Completion and equipping of MIFUGO House	Kapenguria	To provide a conducive working facility	-One(1) building	-Finish the peripheral fence, parking sheds/area, -Finishing and equipping inside the building	9M	-County	Jan 2018-June 2019	Pastoral Economy-Livestock Production	
Construction and equipping of sub-county offices	Chepareria – Kipkomo sub-county	To provide office space	1 office	-Complete pending works equip the office	13M	County	July 2018-June 2022	Pastoral Economy-Livestock Production	

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Construction and Equipping of ward offices	-Kodich, Tapach, Sekerr, Masol	To provide office space	4 ward offices	-Allocate funds for the works -Construct and equip offices	34M	-County	July 2018-June 2022	Pastoral Economy-General Admin and Planning
Motor vehicles	Sectionwide	To enhance service delivery	4 motorvehicles	-Purchase motor vehicles	24M	County	2018-2022	Pastoral Economy-Livestock Production
Lorry	Sector wide	To enhance service delivery	1 lorry	-Purchase a lorry	10M	County	2018-2022	Pastoral Economy-Livestock Production
Motorcycles	Sector wide	To enhance service delivery	28 motorcycles	-Purchase motor-cycles	11.2 M	County	2018-2022	Pastoral Economy-Livestock Production
Pokot Accelerated Pasture Production (Reseeding)	Countywide	To improve availability of livestock feeds	5,000 acres reseeded	-Purchase pasture seeds -Sell/Distribute the pasture seeds to farmers at a subsidized price	30M	-County -Partners	July 2018-June 2022	Pastoral Economy – Live-stock Production
			5,000 acres selective bush clearing	-Sensitize community -Do selective bush clearing -Enclose cleared areas	25M	-County -Partners -Community	January 2018-June 2022	Pastoral Economy – Live-stock Production
Pasture/Fodder Bulking	Countywide (Demonstration plots/Holding grounds/ Farmer group lands)	To improve availability of planting material for live-stock feeds	1,000 acres	-Prepare bulking site for pasture/fodder -Purchase the planting materials -Plant/distribute the planting materials -Harvest the product/seed and distribute to the farmers.	15M	-County -Partners	January 2018 – June2022	Pastoral Economy – Live-stock Production

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Commercial Livestock and Fish Feeds Processing Plant	Kapenguria	To improve on availability of live-stock commercial feeds within the county	One (1) processing plant	-Identify/ purchase land space within Kapenguria urban centre -Construct and equip the plant -Identify a group/ Cooperative/Association to run the facility	80M	-County -Partners	July 2018-June 2022	Pastoral Economy – Live-stock Production
	12 wards: -Kapenguria -Siyoi, Mnagei -Chepareria -Lelai,Rwo -Tapach -Batei, Sook -Weiwei -Sekerr, Suam	To improve on availability of live-stock commercial feeds within the county	24	-Procurement process -Identify beneficiary groups	1,44M	County	2018-2022	Pastoral Economy – Live-stock Production
Poultry improvement	Countywide	To improve poultry production and household incomes	20,000 improved poultry reared and distributed to farmers	-Purchase one-day old chicks -Raise chicks for 2-3 months at Kapenguria and Nasukuta LJC poultry units -Distribute cockerels/pullets to farmers	50 M	-County -Partners, e.g Kukuchick, etc.	Sept 2018-2022	Pastoral Economy – Live-stock Production
Strengthening Bee-keeping Industry	Countywide	To enhance alter-native livelihoods for livestock keepers	10,000 modern/ improved bee hives distributed to farmers (500 per ward over a period of 5 years)	-Purchase hives -Distribute to bee-keepers/groups	20M	-County -Partners	2018-2022	-Department of Pastoral Economy – Live-stock Production

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Promotion of dairy goats	Countywide	To increase milk production	Dairy goats – 750 (50 per ward for 15 wards within 5 years. Wards: - Lelan, Tapach, Batei, Lomut, Chepareria, Siyoi, Kapenguria, Mnagei, Riwo, Endugh, Sook, Alele, Kasei, Sekerr, Weiwei,	-Purchase dairy goats -Distribute to live-stock keepers	15M	-County -partners	July2018-June,2022	Pastoral Economy – Live-stock Production	Wards covered are those having areas with suitable climatic conditions
Promotion of Rabbit keeping	Countywide	To increase household incomes and nutrition	10,000 rabbits within 5 years	-Purchase of rabbits -Develop designs of hutches -Construct 20 hatches for demonstration -Distribution to wards, targeting youths and schools	10M	-County -Partners	July2018-June2022	Pastoral Economy – Live-stock Production	
Promotion of Pig farming	-Urban centres -Learning institutions	To diversify live-stock enterprises	500 pigs within 5 years	-Purchase pigs -Develop pig sty designs -Distribute to selected farmers and institutions	5M	-County -Partners	Ju-ly,2018-June 2022	Pastoral Economy – Live-stock Production	
Extension Services	Countywide	To increase skills, knowledge and adoption of new livestock technologies among livestock actors	-Hold 30 pastoral field days per year -3 educational tour for farmers within and outside county per year -500 on-farm demonstration -300 radio talks services -holding 5 livestock stakeholders meetings		73.6M		2018-2022	Pastoral Economy – Live-stock Production	
Livestock Marketing and Value addition	Countywide	To improve livestock market access	Six(6) livestock Saleyards: Chepareria,Lomut, Chepkono, Chemwapti, Sigor Chemwapti, Kamketo	-Sensitize community so that they provide land for saleyard -Produce designs -Construct the saleyard	90M	-County -Partners	January 2018- June 2022	-Department of Pastoral Economy – Live-stock Production-Partners	

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

		-County -Partners	Ju- ly 2018-June 2022	Pastoral Economy – Live- stock Production		
	Four (4) honey refineries established: Alale, Kachelliba, Sigor, Chepkopegh	-Sensitize beekeepers groups/Co-operatives -Identify refinery site -Purchase honey refinery equipment -Install the machines	40M	-County -Partners	Ju- ly 2018-June 2022	Pastoral Economy – Live- stock Production
	Support 20 livestock marketing groups to buy and fatten steers	-Identify and register beneficiary groups -Capacity build on entrepreneurship -Funding	40M	County	2018-2022	Pastoral Economy – Live- stock Production
	Staff/Stakeholder Exposure Tours to a foreign countries – 2 (1 dairy and 1 beef)	-Identify destination (preferably Israel and Botswana) -Identify participants -15 -Travel	18M	County	2018-2022	Pastoral Economy – Live- stock Production
Rehabilitation of Livestock Holding Grounds/Lands	To create land space for disease-free zones, feeds reserves, livestock breeding, value addition, research and other activities that promote livestock production and health.	8 holding grounds rehabilitated	100 M	County	2018-2022	Depart- ment of Pastoral Economy – Live- stock Production
Kachelliba (Suam ward), Kitelakapel (Riwo ward), Pkopoch (Mnagei ward), Keringet (Mnagei ward), Kabichibich (Lelan ward), Kanyikeny (Cheparenia ward), Runo (Weiwei ward), Lotongot (Masol ward)	-Sensitize community -Repossess encroached areas -Demarcate and fence the holding ground -Construct offices/houses in the holding grounds/plots -Cultivate some portion and establish pastures.					

Livestock Emergency Interventions	Countywide	To increase resilience of livestock keepers against disasters	10,000 animals bought from farmers during severe drought (Emergency off-take)	-Sensitize livestock keepers -Purchase weak animals from most hit areas for slaughter	100M	-County -Partners	July 2018-June 2022	Pastoral Economy –Live-stock Production
			10,000 animals bought from farmers by traders (Commercial off-take)	-Sensitization of livestock traders and community -Livestock trader groups are assisted with funds (50% of the total purchase price) -Purchase of animals by traders	100M	-County -National Government -Partners	July 2018-June 2022	Pastoral Economy –Live-stock Production
				-Sensitize livestock keepers -Recruit beneficiaries -Distribute feeds	300M	-County -National Government -Partners	January 2018-June 2022	Pastoral Economy –Live-stock Production
Nasukuta Livestock Improvement Centre	Chepareria ward, Pokot South / Kipkomo sub-county	To make the LIC a centre of excellence for provision of superior livestock breeds and practical technical skills/knowledge	-Rear/livestock: - 200 sahiwal cattle -300 galla goats -300 dorper sheep -50 dairy goats -40 camels -5,000 poultry -200 modern hives -60,000 bales of hay	-Purchase more livestock -Breed the livestock -Sell livestock to deserving farmers -Sell surplus hay to farmers	60M	County	2018-2022	Pastoral Economy –Live-stock Production
				Transforming Lives through Sustainable Development				
				Administration block Accommodation and Learning/Conferencing facilities, purchase 1 motor vehicle	36M	County	2018-2022	Pastoral Economy –Live-stock Production

		Hay shades – 4	-Complete works for two incomplete hay sheds, -Construct 2 new hay sheds	17M	County	2018-2022	Pastoral Economy – Live-stock Production
	Livestock bomas	Construct livestock bomas	5M	County	2018-2022	Pastoral Economy – Live-stock Production	
	Periphery fence	Put up metal posts and chain link fence	200M	County	2018-2022	Pastoral Economy – Live-stock Production	
	Electricity and water supply	-Connect electricity and piped water -Drill two boreholes -One water pan	5M	County	2018-2022	Pastoral Economy – Live-stock Production	
	Improve pasture production	-1,000 acres of pasture established -2 Tractors purchased -8 sets of farm implements (plough, harrow, mower, rake, baler, trailer, water boozier) purchased	5M			Pastoral Economy – Live-stock Production	

Sub-sector: Veterinary Services

Project Name	Location	Objective	Targets	Key Description of Activities	Cost (KSh)	Source of Funding	Time Frame	Implementing Agency	Remarks
Dip construction	Wards	-Reduce tick borne diseases. -improve livestock -increase livestock productivity	33	-Land acquisition -Construction -Hand over to community for use	82.5 million	County government of West Pokot	2018-2022	Department of pastoral economy through division of vet services -community	community to contribute land

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Dip Re-pairs	Wards	-Reduce tick borne diseases. -improve livestock health -increase livestock productivity	50	-Identification and assessment of dips -Generation of BQs -Repaires	25 million	County	2018-2022	-Department of Pastoral Economy – Veterinary -Community	Community to contribute land
Purchase of foot spray pumps	County-wide	-Reduce tick borne diseases. -improve livestock health -increase livestock productivity	1,545 within 103 villages	-Procurement of pumps -Distribution to groups -Train beneficiaries	17 M	County	2018-2022	-Department of Pastoral Economy – Veterinary	-Department of Pastoral Economy – Veterinary
Construction of metallic crushes	County-wide	-improve livestock health -increase livestock productivity	96	-Land acquisition -Construction -Hand over to community for use	115.2M	County	2018-2022	-Department of Pastoral Economy – Veterinary -Community	Community to contribute land
Construction of Medium-sized (class B) Abattoir	5 Sub-counties	-To improve vet public health hygiene -improve food safety of animal origin	5	-Land acquisition -Construction -Veterinary Division to run the facilities	60 M	County	2018-2022	-Department of Pastoral Economy – Veterinary	County Government to provide land
Equipping veterinary laboratory	Kapenguria	-improve disease detection & confirmatory diagnosis	1	-Identify required equipment -Tendering and supply of equipment	8M	-County -National Government	2018-2022	Department of Pastoral Economy – Veterinary	To be a satellite lab for Eldoret RVIL
Artificial Insemination Schemes	-Kapenguria -Siyoi -Mnagei -Kabich-bich -Tapach -Chepare-ria	To improve livestock productivity	6	-Procurement of AI Equipment -Train inseminators -Community Sensitization	20M	County	2018-2022	-Department of Pastoral Economy – Veterinary -Partners (Private animal health service providers)	Services are subsidized by County Government

SECOND COUNTY INTEGRATED DEVELOPMENT PLAN 2018-2022

Establishment of Veterinary Clinics	Wards	To improve livestock health	100	-Sensitize community -Identify clinic sites -Procure drugs/equipment	30M	-Department of Pastoral Economy – Veterinary -Partners (Private animal health service providers)	2018-2022	-Department of Pastoral Economy – Veterinary -Partners (Private animal health service providers)
Completion and Equipping of Sub-county offices	-Alale -Kabich-bich -Sigor	To provide office space	3 offices	-Procurement process -Construction and equipping	6M	Department of Pastoral Economy – Veterinary Services	2018-2022	-Department of Pastoral Economy – Veterinary -Partners (Private animal health service providers)
Construction and Equipping Ward Offices	-Kasei -Kapchok -Endugh	To provide office space	3 offices	-Procurement process -Construction and equipping	20M	Department of Pastoral Economy – Veterinary Services	2018-2022	-Department of Pastoral Economy – Veterinary
Purchase of Motor vehicles	Sectorwide	To facilitate service delivery	4	-Procurement process -Purchase	25M	Department of Pastoral Economy – Veterinary Services	2018-2022	-Department of Pastoral Economy – Veterinary
Purchase of Motor-cycles	Sectorwide	To facilitate service delivery	20	-Procurement process -Purchase	8M	Department of Pastoral Economy – Veterinary Services	2018-2022	-Department of Pastoral Economy – Veterinary
Staff Training	Sectorwide	To enhance service delivery	-3 Long-term courses -7 Short term courses	-Nomination -Training	1.8M	Department of Pastoral Economy – Veterinary Services/ Training Committee/CPSB	2018-2022	-Department of Pastoral Economy – Veterinary/Training Committee/CPSB

Generalization of Policies / Bills	Sectorwide	Enhance Service Delivery	5	-Drafting policies/bills -Public Participation -Submit to County Attorney and County Assembly -Governor's assent	2.5M	Department of Pastoral Economy – Veterinary Services	2018-2022	-Department of Pastoral Economy – Veterinary
Livestock Emergencies	County-wide	Increase Resilience of Livestock and Pastoralists	500,000 doses of assorted vaccines	-Sensitize live-stock keepers -Vaccinate animals	25M	Department of Pastoral Economy – Veterinary Services	2018-2022	-Department of Pastoral Economy – Veterinary -Partners
			Assorted veterinary drugs (De-wormers, Acaricides, injectables)	-Sensitize live-stock keepers -Treat animals	10M	Department of Pastoral Economy – Veterinary Services	2018-2022	-Department of Pastoral Economy – Veterinary -Partners

Sub-sector: Fisheries Development and Management

Project Name	Location	Objective	Targets	Key Description of Activities	Cost (KSh)	Source of Funding	Time Frame	Implementing Agency	Remarks
Restocking one million fingerlings in Turkwell dam and purchase of 3 motorboats for dam fishery.	Turkwell Dam	To increase and sustain fish production	-Five tonnes of fish produced in turkwell dam per month -Increased revenue from fish and fish products	-Quantity of fish produced -Amount of revenue generated from fish and fish products -No of motorboats purchased	12 M	County govt	2018-2022	County govt	
Fish cold storage facility	Turkwell	To reduce losses due to poor storage of fish	1 cold storage facility purchased	Functional cold storage	15 M	County govt	2018-2022	County govt	

Completion and operationalization of tilapia hatchery	Kapenguria	To provide sustainable production of tilapia fingerlings	1 million tilapia fingerlings produced per year	No of fingerlings produced and distributed to farmers	15 M	County gov't	2018-2022	County gov't
